Sir John Macdonald said the Nash of the bind assessination, was shot and severely wounded on Monday, by a handsome young woman who had asked for an interview. The wound, it is believed, will not prove fatal. The shooting took place in Chambers Street, New York, about 5 o'clock in the afternoon. After the shooting was done the woman walked coolly away with the smoking pistol in her hand, followed by a large crowd which had witnessed the tragedy. She was arrested and gave her name as Mrs. Dudley. She says she is a widow and twenty-four years old, but looks younger. The event has created intense excitement not only in New York, but throughout the country and on the other side of the Atlantic.
