

SCAVENGERS ON MOUNTAIN.

City Will Do the Work in the New Annex.

Mr. Thomas Crooks is Chairman For the Year.

All Independent Boards Invited to Isolation Opening.

At the inaugural session yesterday afternoon the Board of Health unanimously elected Thomas Crooks chairman. Mr. Crooks for years has been one of the most zealous and progressive members of this body and should make an ideal chairman.

In the evening the newly organized board held its first meeting. Chas. Peebles took occasion to indulge in what he meant to be biting sarcasm on the way the local newspapers had displayed the fact that the Board of Health voted down a motion to invite the Hospital Governors to the new Isolation Hospital opening which was to have been held last Saturday. "The big display the papers made of it seems to have led to a misunderstanding as to whether or not we should invite the Governors of the Hospital to the opening. Anything that was said or done was not for the purpose of making trouble, and the reason was not invited was because the other independent boards of the city would also expect to be invited. As the opening did not take place, I think it might be wise to invite all the boards, make the invitation as large as possible." Mr. Peebles then moved that the independent boards of the city be all invited to attend the opening when it is held, which will probably be next Saturday afternoon. Mr. Frank Queen, last year's chairman, will have full charge of the opening and will deliver the address at the gathering. A special meeting will be held on Thursday night to definitely fix the date and make further arrangements. The estimates for the department will be considered at this meeting also.

Mr. Blandford, a mountain top resident, appeared before the board to ask that the city take charge of the garbage collection at Mount Hamilton. He said that prior to the annexation of the new district there were only 15 houses in the city there and an old colored man did the collecting for \$1.40 a week, \$75 a year. Since annexation there were fifty-five houses to be collected and the present amount of \$1.40 a week, \$75 a year, was not sufficient. He said that the city should take charge of the garbage as the mountaineers paid city taxes and it was a nuisance that ran through two surveys of his in the form of a natural watercourse that was used as a sewer. Inspector McDonald reported that he had investigated the complaint and found nothing wrong with the stream, which was clear spring water.

William Strong wrote a letter to inform the board that they were jointly responsible with the Township of Barton in abating a nuisance that ran through two surveys of his in the form of a natural watercourse that was used as a sewer. Inspector McDonald reported that he had investigated the complaint and found nothing wrong with the stream, which was clear spring water.

"He writes that the water is dirty," said Mr. Farrar. "That's not correct," said the inspector. "One of Strong's balloons, eh?" said Mr. Farrar, with a smile.

Inspector McDonald was instructed to inspect the ditch where it enters the city limits on Barton street, east of Sherman avenue, and it was decided to write the township solicitor, warning him to abate the nuisance, if there existed one.

The Canadian Assessor's report on the township was complaining of the way the board was filling in the upper arm of the Coal Oil Inlet so that the water backed up to their factory and endangered the health of their employees. Mr. Quinn said there were no grounds for this complaint. The board was following out the instructions of the city engineer. Chairman Crooks and Messrs. Quinn and Farrar were appointed a committee to investigate the matter and get a blue print of the spot from the city engineer so that the board can see what they are doing.

Mr. Quinn reported a letter of the deputation which appeared before W. J. Hanna, Provincial Secretary, with a request that the Government establish a laboratory here. Mr. Hanna appeared to think that all other municipalities would try to stick the Government for like assistance, but he referred the deputation to Dr. Hodgkins, Provincial Health Inspector, who fell in with the idea at once, and said it would be a good thing to try it in Hamilton, if only as an experiment. The committee wrote to the Government in regard to the matter and it will be brought up at the next session. The cost of such a laboratory would be \$1,000.

Dr. Roberts announced that the small-pox case in this city was traced to Glanford, from where it was traced to Salfleet, to a family named Fletcher. He spoke of the loose quarantine in the county, and was instructed to write the township health officers to take more care of their infectious cases or have their residents barred from the city. The doctor also announced that quarantine was being broken in this city regularly, especially in scarlet fever cases, of which there were 31 at present. The diphtheria cases number 17 at present, and the quarantine was more strictly observed by them. He stated that there would be a daily inspection at quarantined places, and the first person found breaking quarantine would be made an example of.

Chairman Quinn thought the crematory ought to be looked over before an account for repairs, amounting to \$30, be paid, and Mr. Dowling was asked to have a look at the crematory and report to the Board.

Thomas Fanning applied for permission to dump garbage on Garth street, between Chatham street and Charlton avenue. Chairman Crooks and Mr. Quinn were appointed to look over the ground before granting permission.

Mr. Quinn brought up the matter of the inspectors' uniforms, and moved that new overalls be supplied to the men, who have worn their present ones three winters. The motion was adopted.

License Reduction

Did not pass the Council, but they have nothing to say about the reduction of sickness. Laxa Food will prevent much of this by furnishing the body with necessary elements to properly sustain it. Ask your grocer.

TRAIN WRECK.

Four T. & N. O. Coaches Go Over Twenty-Foot Embankment.

North Bay, Jan. 25.—The accident to the Cobalt special on the T. & N. O. Railway this morning was the first wreck of a passenger train on the Government's railway, and from the circumstances attending the accident it was a miracle that many were not killed. The train was running about twenty-five miles an hour when suddenly the rails spread from weather conditions and part of the train plunged down a twenty-foot embankment. The engine and baggage car remained on the track, and one Pullman was left perched on top of the bank, while the other cars, one man, two first class and one second-class coach, tumbled down the declivity with terrible force.

The work of rescue began immediately; the telephone line was tapped and assistance summoned from North Bay. Drs. McMurphy, Bell and Johnston came with the wrecking train, and the wounded received attention. At first it was thought that no serious injuries had resulted, but examination revealed several passengers severely hurt, the most serious being C. Lombard, of Iroquois Falls, section foreman on the T. & N. O. Railway, whose skull was fractured. He is expected to recover.

K. OF P.

Hamilton Lodge Prospering—Installation of Officers.

At the regular convention of Hamilton Lodge, No. 5, Knights of Pythias, the installation of officers took place. There was a very fair gathering, several members from Red Cross and Bismarck Lodges being present. The installation was conducted by D. G. C. J. P. Macleod, assisted by G. M. A. Jesse Chapman.

Responding to a hearty vote of thanks for the very efficient manner in which he had conducted the proceedings, Bro. Macleod briefly outlined the aims of the order, which told of the duty of one man to another. He said that Hamilton Lodge during the two years of its existence had made rapid progress. At present Red Cross and Bismarck were the banner lodges of Ontario, and was looking forward to the time when Hamilton Lodge could boast of being the third, which he confidently anticipated they would. At the same time he pointed out that this degree of efficiency could not be attained without the sacrifice of time and the present amount of application on the part of its officers and members, and made some pertinent remarks on the methods to be adopted in order to keep lodges up to the proper standard. Bro. Macleod closed by wishing Hamilton Lodge all the success it deserved.

G. M. A. Jesse Chapman was delighted to hear of the progress made by Hamilton Lodge. He hoped to be with them frequently in the future to watch their good work.

Refreshments were partaken of, and the remainder of the evening enjoyed by all in card games, etc.

BOYS' HOME.

Inspector Finds the Institution in Good Condition.

Dr. R. W. Bruce Smith, Government inspector, visited the Boys' Home recently and has made the following report:

An official visit of inspection was made to the Boys' Home, this city, on December 22nd, 1908, when there were 67 boys in residence. About 12 of these have their maintenance paid for by relatives. The remaining number are free. On inspection the general condition of the building, beds and bedding, halls, dormitories, yards, closets, drainage, ventilation and water supply were all found satisfactory. Since last inspection, in addition to a large amount of papering and decorating on new bath, 3 new closets, new steps and balcony at the back door had been erected. The amount paid for coal at this institution is larger than it should be on account of using old furnaces which should be replaced by new ones.

The children all appear healthy, happy and contented. Their food supplies are wholesome and nutritious, and those in charge are kind and attentive to the little ones committed to their care. During the past year Mrs. Shaw, who was most faithful and attentive in the discharge of her duties as matron for 32 years at this Home, died, and the memory of her faithfulness to duty will long be remembered.

On examining the books I found the entries properly made up to date. My visit of inspection impressed me favorably in regard to the discipline and management of this very worthy charity. The Government grant to the Home for the past year was \$385.52.

A TATTOOED CRUCIFIX.

It Saved a Boy's Life in Patagonia.

Richmond, Va., Jan. 25.—The Rev. Thomas Needham, of the Fulton Baptist Church, following a sermon on "Deliverance," related a remarkable story of kidnapping and adventure among cannibals in a foreign land, and exhibited a tattooed cross on his arm as having been the means of his deliverance.

As a lad he was abducted and carried aboard a ship bound for a South American port. Among other things he had tattooed on his arm the figure of a crucifix. Before reaching port it was decided to put him ashore and leave him to his fate, the captain of the vessel to report that he had been lost at sea. Left on the shore of Patagonia, he was soon captured by the cannibals which infest that coast.

On being stripped preparatory to a feast of the tribe, the attention of his would-be murderers was attracted to the crucifix tattooed on his arm. They carried him before the chief, who also examined it, seemingly mystified at the discovery. He ordered that the boy be not killed, and he was afterward treated with every mark of courtesy and became a member of the chief's household. He remained among them for several years, and learned their language, and also that a tradition existed among the tribesmen that a strange cross having mystic qualities had been used by the Jesuits.

Finally Mr. Needham made his escape and journeyed to Boston, where some of his relatives lived.

RECOMMENDED FOR THROAT TROUBLE

People in humble life, upon whose vocal organs there is more or less constant demand, consider the "common cold" one of the serious afflictions. A noted preacher in one of the larger towns in Massachusetts contracted a cold which would not yield to ordinary treatment, and in a short time became so hoarse that he was unable to make himself heard in ordinary conversation, and preaching from the pulpit was out of the question.

Acting on a friend's advice, he took a couple of drops of Virgin Oil of Pine on a lump of sugar, resulting in almost immediate relief from the hoarseness. It is claimed that a half ounce of Virgin Oil of Pine mixed with two ounces of Glycerine and a half pint of good Whiskey, taken in doses of a teaspoonful every four hours, will break up a cold quickly and cure any cough that is curable. Purchase the ingredients separately and mix them yourself.

Virgin Oil of Pine is a combination of the active principles of the Pine and Sandalwood trees, carefully compounded to retain all of the healing, health-giving virtues for which these trees are famous. In order to insure its freshness and purity, it is put up only in half-ounce vials, each vial securely sealed in a round wooden case, with an engraved wrapper, showing plainly the name, Virgin Oil of Pine, prepared only by Leach Chemical Co., Windsor, Ont. The mixture of Whiskey and Glycerine with the Virgin Oil of Pine makes a sufficient quantity to last the average family an entire year.

AMUSEMENTS

The Partello Stock Co., one of the strongest road stocks that has appeared at the Grand this season, opened a week's engagement at that house last night. The opening was an auspicious one, the house being filled and the performance a most pleasing one. The bill was Justin Adams' comedy, "The College Girl." The company was a large and capable one, headed by Miss Alice Kennedy. As an undergraduate, she displayed her ability to advantage and won the hearts of the audience. Mr. John Westerman, as Billy Bullock, coach of the Gardner football team, provided much of the fun in the play. The play was admirably staged, the settings in the third and fourth act being particularly fine.

Plays to be presented during the company's engagement include "A Human Slave," Tuesday evening, "Tempest and Sunshine" Wednesday matinee, "Lena Rivers" Wednesday evening. "When the

EDDIE BASSETT, Skating on real ice at Bennett's theatre this week.

Harvest Days are Over" Thursday evening, "Under Two Flags" Friday night, "The Girl of Eagle Ranch" Saturday evening. The Saturday matinee bill will be announced later. Seats are now on sale for the rest of the week.

AT THE SAVOY.

A large audience enjoyed the new bill at the Savoy Theatre last night. The Selman Stock Company presented "The Land of the Midnight Sun," which is a dramatization of Hall Caine's famous story, "The Bondman." The story is thrillingly interesting, and its interpretation by the clever company is exceptionally good.

The scenes of the first two acts are laid in North Carolina, in the autumn of 1861. Those of the remaining three, in Iceland and vicinity.

While in casting the play it was necessary to assign double roles to some of the actors, their resources are such that the presentation is not marred in the slightest.

The conclusion of the third act is especially dramatic, in which Mr. Selman, Mr. Gray and Miss Lasche show the artistic touch of their histrionic ability. When the curtain raised on the sulphur mines of Krivik, for the fourth act, the audience spontaneously burst into a round of applause. The work of the brothers in the sulphur mines, as given by Mr. Selman and Mr. Gray, is well done, and received the applause of the audience. The concluding act is a satisfactory ending to the drama.

Matinees will be given this afternoon, Thursday and Saturday.

AT BENNETT'S THEATRE.

Skating on real ice is one of the novelties presented at Bennett's Theatre this week, and it is the greatest novelty that Manager Appleton has provided for the patrons of the vaudeville house this season. In this unique act, Isabel Butler, the original "Dip of Death" girl, with Barnum's Circus, and Edward Bassett, a champion figure skater of two continents, appear. The act is elaborately

MUTILATED A WILL.

Toronto, Jan. 26.—John Woodruff, who was brought from Chicago last week, pleaded guilty at the Police Court yesterday to stealing a bank book and mutilating the will of Mr. Alexander Grant, for the purpose of obtaining his correct signature. From Chicago the prisoner had sent to the Bank of Hamilton a forged cheque for the full amount of the balance to the credit of Mr. Grant, together with the pass book, and requested the bank to send him the money. A police officer went instead, and Col. Denison sentenced Woodruff to 18 months in the Central.

Leave to appeal in the Frank Law case has been refused by the Court of Appeal.

The Province may ask the Federal Government for amendments to the usury laws.

SCOTT'S EMULSION

is the best remedy for rheumatism. It's a stubborn disease but Scott's Emulsion conquers in the end. Try it.

All Druggists

staged, representing winter, and the performance, while brief, was fine. They give an exhibition which is amazing, when it is considered the small surface on which they perform. Their programme includes artistic grapevines, waltzing, spins and other difficult work, singly and together. One of the notable things first class is a human top spin, in which he makes several hundred revolutions a minute. The rink is about twelve feet by six, and the ice is made on the stage by electrical machinery.

Another novelty, this one from Europe, is provided by Binns, Binns and Binns. It is of the musical order—a musical absurdity. The trio are exceedingly clever musicians and comedians, and they introduced some new "trick business."

The musical comedy sketch, "The Count on Mother's Account," presented by Brickman, Buxton, Derbyshire, Belmont, brought down the house. Mr. Mack, who personated the mother, is one of the cleverest comedians that has appeared at Bennett's this season.

Cook and Stevens, old favorites, made a hit, too, in their sketch, "The Negro and the Chinaman."

The rest of the bill was enjoyable, as not a weak act was presented. The other acts were provided by Alcide Capitan, a wonderful performer on the trapeze; Fred Watson and the Morrissey sisters, song and dance artists; Hale and Robin, banjoists, and new motion pictures.

MISS HILDA SPONG.

The appearance of Miss Hilda Spong at the Grand on Friday and Saturday of next week will introduce to Hamilton one of the cleverest of English actresses to visit America. Though this is Miss Spong's first visit to Canada, she is by no means a stranger, for no woman on the American stage has been the subject of so many articles in the magazines as this charming actress. Miss Spong comes here in a new play, called "A Man and His Mate," the scenes of which are laid in New Mexico.

"THE GOLDEN BUTTERFLY."

Grace Van Studdiford comes to the Grand on Thursday evening, February 11th, in "The Golden Butterfly," Harry B. Smith and Reginald deKoven's latest contribution to the lyric stage. The comedy numbers are said to be screamingly funny, and "The Golden Butterfly" is a welcome relief from the continual striving after novelties, which has been the bane of the comic opera stage recently, and which resulted in much of the vulgarity with which the comic operas have been changed in recent years.

A WHIRLWIND.

How Y.M.C.A. Cabinet is to Boom Membership.

The Y. M. C. A. Cabinet held its regular meeting last night. According to arrangements, each member of the Cabinet was to bring some one with him. As a result, about 30 sat down to supper, and enjoyed a social hour. After this the discussion of a membership campaign was taken up, many different ideas being advanced. A motion finally carried decided to hold a contest on Feb. 11, 12 and 13, called a whirlwind canvass. Six members of the Cabinet were appointed as captains, each to command ten lieutenants, the latter to supervise the work of five men each, making a total of 300 men engaged in the canvass. The names of the captains are: Messrs. R. O. Hooper, E. A. Graham and Nelson Mills. The entire company will take tea together again next Monday evening and complete their organization. The members of the Cabinet held a short session afterward, and appointed Messrs. C. Peebles, E. E. Shephard and J. M. Teiford to represent them in the City Debating League.

BOOTH-BOOTH.

Hamilton Young Lady Married in England Recently.

The marriage took place in Christ Church, Buxton, Derbyshire, England, on January 12th, of a popular Hamilton young lady, Miss Mabel F. E. Booth, only daughter of the late Mr. Francis Booth, and of Mrs. Booth, 82 Barton street east, this city, to Mr. Arthur Hutton Booth, chief inspector of the Williams Bank, Bank of Manchester, Manchester. The groom is elder son of the late Mr. Arthur Booth, banker, of Manchester. The bride had been visiting in England some time and the wedding was quietly arranged while she was there. She is a native of Hamilton, and her many friends here will join in wishing her much happiness. After the wedding Mr. and Mrs. Booth left for the South of England, to spend three weeks, after which they will take the "Hawthorn" for Overseas, West Road, Bowdon, Cheshire.

WENT EAST.

Hamilton Oddfellows Visited Beausville Last Evening.

A large party of Oddfellows, including 50 from Hamilton and 31 from Grimsby, went to Beausville, last evening, by a special car on the H. G. & B. Railway, for the installation of Preststone Lodge, No. 215, I. O. O. F. The installing board was composed of H. Day, D. D. G. M., Charles W. Mann, P. D. D. G. M., E. Drinkwater, W. H. Kerr, James Ogilvie, A. T. Bremer and A. W. Lane. After the work of the evening, which was done in fine style, the visitors were given a most enjoyable social time, refreshments and various forms of entertainment being provided.

NATURE A VERY SKILFUL PHYSICIAN

Puts Up Her Medicines in Very Tempting Form.

Have you ever tasted anything more delicious than the fresh, ripe, luscious fruits? These are Nature's medicines. A regular diet without fruit is positively dangerous, for the system soon gets clogged with waste matter and the blood poisoned. Fruit Juices stir up Bowels, Kidneys and Skin, making them work vigorously to throw off the dead issue and indigestible food which, if retained, soon poisons the blood and causes Indigestion, Headaches, Rheumatism, Neuralgia and a host of other distressing troubles.

But there is a quicker way to stimulate the organs to do their work properly. Take one or two "Fruit-a-tives" tablets every night, besides eating some fresh fruit every day. "Fruit-a-tives" combine the medicinal properties—many times intensified—of oranges, apples, prunes and figs, with the best tonics and internal disinfectants.

Their action on Bowels, Liver, Kidneys and Skin is as natural as Nature's own, but quicker and more effective. Sold by all dealers—25c. for trial box—50c. for regular size—six boxes for \$2.50. Fruit-a-tives, Limited, Ottawa.

KNOX MISSION FIRST ANNUAL.

Enlargement Necessary in the Near Future.

Sunday School Classes Make Record For Attendance.

New Managers Elected at Meeting Last Evening.

The annual business meeting of Knox Church Mission was held last evening, and although the attendance was rather small a keen interest was taken in the reports. The meeting opened with prayer and Rev. H. D. Cameron was elected chairman. W. Henderson submitted the Board of Managers' statement from which the following extracts are taken:

The managers wish to express their thanks to all the organizations in connection with the church for their liberal response for funds to carry on the church work in donating to the sum of \$435.00. In consideration of the building being too small for the growing needs of the Sunday School and foreseeing the necessity for enlargement for church purposes, under the ministrations of our new pastor, Rev. H. D. Cameron, the Board has thought it wise to have preliminary plans made which will enlarge our capacity for church and Sunday School purposes, at a small cost. The Board take this opportunity of thanking all the members of the choir and the organist, Miss E. T. Hawkins, under the able leadership of Mr. George Ogilvie, for their valuable aid at all the services.

The retiring managers are: G. Anstee, W. Urquhart, W. Henderson and R. J. Anderson.

Mr. John Young presented the financial statement as follows:

Receipts.
Balance \$93.50
Envelope collections 362.90
Loose collections 369.15
Donation from John Wright 10.00
Donation Ladies' League 100.00
\$955.35

Expenditures.
Salary H. R. Pickup \$174.50
Salary H. M. Paulin 360.00
Renting, etc. 7.30
Repairs 46.90
Music 20.00
Fuel and light 36.10
Miscellaneous 4.85
Preparing plans 10.00
Pulpit supply 188.50
Balance on hand 107.35
\$955.35

Mr. Fred Miller presented the Sunday School report. The roll at present is: Boys, 143; girls, 145; teachers and officers, 32; cradle roll, 30, making a total of 350, which is a decrease of 24 from last year. But in attendance the average is 220, as against 208 in 1907, showing an increase of 12. Two of the classes, Mrs. Coutts' and Mr. Malcolmson's, have the record of being present in full 29 times during the year, and the following members have been present every Sunday: Mrs. J. Coutts, Mrs. E. Hill, Miss Deanne Crawford, Cora Bolton, Ella May Daley, Alice Menary and David Robertson. Regular collections average \$6.50, while the average for all purposes is \$8.95.

The receipts were \$619.42, disbursements \$396.45, balance \$222.97.

Under the head of new business a discussion was started, as to the advisability of receiving plans and specifications for an addition to the present building, but as no definite figures could be given the matter was allowed to stand over.

The new managers are: Harry Taylor, A. Gavey, W. Henderson and W. Long.

W. Young and F. Miller were elected auditors.

Stanley Mills & Co. LIMITED

39 New Lace Waists \$3.49
Go on Sale To-morrow at

A chance for thirty-nine women to pay \$3.49 instead of \$5.00 for a handsome Lace Waist.
