Rheumatism is generally brought on by exposure, but is really caused by Uric Acid in the blood. This Uric Acid is an irritating poison, formed from the waste matter of the body. The kidneys should remove it, but when they fail it poisons the blood, and, settling in the joints, causes Rheumatism.

"No. 7" Tablets clear out the clogged-up Kidneys and stimulate them to perform their task of filtering the Uric Acid out of the blood. When this is done the Rheumatism simply and naturally vanishes. "No 7" Tablets cost 5%." At your dealer's. 28
