## Military Leave For Lumbermen

Government Will Allow Soldiers' Leave To Engage in Lumber Woods

Hon. W. E. Foster was recently requested by lumbermen to see what he could do to provide them with help this winter for the purpose of getting their lumber out. The Premier promptly took the matter up with Brigadier-General A. H. MacDonnell, commanding this military district, and has received the following reply which will be gratifying to all concerned:

St. John, N. B., Oct. 5, 1918  
Hon. W. E. Foster, Premier of New Brunswick, St. John, N.B.  
Dear Mr. Premier: With reference to your favor of the 28th ultimo in connection with the release of men in Category "C," for the purpose of assisting the lumbermen in getting their lumber out during the coming winter season.

I am pleased to advise you that the matter has been taken up with militia headquarters, Ottawa, and they had ruled as follows:

In order to facilitate productive employment during the winter months, men exempted as farmers should apply to the registrar for permits to engage for the winter in some occupation of national interest, such as lumbering, munition work, etc. Such permits will serve to enable exempted farmers to pursue other useful occupations for the months during which farming operations cannot be carried on.

In connection with the above, it will be necessary for each individual man, who is exempted on the grounds of being a farmer, and who can be spared from his farming duties may engage in the pursuit of lumbering during the winter months, no matter what category the man might happen to be in.

Advertisements to this effect have been placed in all the newspapers in the province, beginning to-day.

I trust this will be satisfactory.  
(Signed) A. H. MACDONNELL,  
Brigadier-General, Commanding M. D. No. 7

**Guard The Children From Autumn Colds**  
The Fall weather is the most severe season of the year for colds; one day is warm the next is wet and cold and unless the mother is on her guard the little ones are seized with colds that may hang on all winter. Baby's Own Tablets are mothers best friend in preventing or banishing colds. They act as a gentle laxative keeping the bowels and stomach free and sweet. An occasional dose will prevent cold or if it does come on suddenly the prompt use of the Tablets will quickly cure it. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co. Brockville Ont.

## Peps

What are they?

Peps are handy little tablets which provide the newest, surest and most scientific treatment for coughs, colds and throat and chest troubles. If you have a cough or a cold, why dose your stomach with liquid preparations? Your stomach is not ailing! Peps provide a better way.

You put a "Pep" on your tongue and let it dissolve slowly. As it does so, certain healing essences it contains turn into vapor, and you breathe this medicinal vapor direct to your lungs and air passages. On its way it bathes the delicate membranes thoroughly in its healing ingredients, kills the germs of disease, cures the irritation and inflammation which cause your cough and ends the trouble.

Just as the out-door treatment for consumption—the "breathing" treatment—is now admitted to be the only rational treatment, so the "Peps" treatment for colds and throat and chest troubles is the only rational home treatment.

Another great advantage in Peps is their entire freedom from opium, morphine or other poison, thus making Peps the best and safest remedy for children's coughs and colds.

Peps cure catarrh, coughs, bronchitis, sore throat, tightness oraching across the chest, difficulty in breathing, night cough, hoarseness, asthma, laryngitis, smoker's throat, etc.

All druggists and stores sell Peps at 50c. a box or 3 for \$1.25.
