Their Liability.

Special Evening Telegram.
NEW YORK, Oct. 6.
The limit to the liability of the own-
ers of the Titanic, which sank on
April 15th, is set at \$98,000, as com-
pared with claims for damages, which
aggregate over \$1,000,000. The limit
is set by the United States District
Court, upon petition of the Oceanic
Steam Navigation Company which
owned the vessel. The company has
furnished a bond for the amount, as
security for paying the claims pro-
rata. Petitioners explained to the
Court that the company's interest in
the vessel is limited to the fourteen
life-boats recovered, prepaid passage
money amounting to \$35,212, freight-
age amounting to \$2,073. Everything
with the steamer, except the fourteen
lifeboats, became a total loss in the
disaster, and petitioners claimed ex-
emption from liability under the
United States Statutes and the gen-
eral rule of the Admiralty.

Clergymen Arrive.

Rev. Mr. Plowright, a Congrega-
tional minister, arrived by the Carthagi-
nian. He will be attached to the Con-
gregational Church at Little Bay East.
Fortune Bay, but will be temporarily
stationed at the Queen's Road Church
here until a successor to Mr. Thack-
eray is appointed. Revs. Wheeler and
Bevis, both Congregationalists, also ar-
rived by the Allan boat. The former
is accompanied by his wife and two
children. He is en route to Kingston,
N. S. Yesterday he preached at the
Queen's Road Church. Rev. Mr. Bevis
is returning to his parish at Canoe,
N. S.

Another Man Drowned.

Passengers who arrived here by Sat-
urday night's train from Placentia say
that a boat belonging to the west side
of St. Mary's Bay while running up the
Bay out of a storm Friday night ran
ashore on a sand bank. She struck
heavily in the dark and tempest and
the sudden shock threw one of her
crew overboard and he disappeared in
an instant. It was so dark and such
a sea ran that no effort could be made
to get him. The drowned man, our
informants say, they think was single.
They could not remember his name
though they had heard it.

RED INVESTIGATION.—Yester-
day afternoon a special train went out
over the Trepassey Branch to Cape
Broyle where an investigation was
held into the death of Michael Devine
who was killed by a fall from the cars
near Caplin Bay.

CAPTURED FOUR FOXES.—Four
fine foxes were captured on the Tre-
passey Branch last week and are now
on exhibition at Baird's Cove. Num-
bers of people visited the place to see
them, and as fox skins are in great de-
mand the owners hope to realize a
handsome sum for them.

GIRL DETAINED.—A girl who
lives on the Thorburn Road and who
was before the court Saturday, was
detained by Inspector General Sulli-
van. She and her brother live alone
in the house in squalor and poverty
and she will likely be placed in some
institution where she can be looked
after.

A LARGE ATTENDANCE.—It is a
rare happening to see an overflowing
audience to an afternoon performance,
but such was the case on Saturday
at the Nickel Theatre when the "Col-
leen Bawn" was shown for the last
time. Standing room was at a prem-
ium and many people had to go away
disappointed.

VESSELS DELAYED.—The Dun-
ure has been ready to sail for Brazil
since Friday and the Evelyn since
Saturday. The vessels could not go,
however, owing to some of the crew
absenting themselves, a proceeding
which is becoming annoying and ex-
pensive to owners and masters of ves-
sels.

SPORTSMEN RETURN.—Messrs.
W. A. Wood and his brother Ted ar-
rived here by Saturday night's train
after having been two weeks shooting
on the Witless Bay line. They found
birds very scarce, roughed it a great
deal and only by travelling long dis-
tances did they secure fair bags of
partridge.

IN DANGEROUS PLACE.—At 7.30
p.m. Saturday Constable Green and
Churchill found an outboard man
laying on Steer's wharf quite near the
edge of it. He was in a stupor from
alcohol and the men drove him to the
station. He was in a position of ex-
treme danger and it was well for him
that he was discovered.

Bruce Passengers.

The Bruce arrived at Port aux Bas-
ques at 7.30 a.m. yesterday. Her pas-
sengers were: Mr. and Mrs. Clark,
Miss Hunt, Miss Fountain, Miss Kar-
rol, Miss McKillop, Miss Harker, Mr.
Urban, Mr. Harker, Mr. Archer, Mes-
srs. Schrieber (2), Mr. Webb, Mr. S.
Shaw, Mr. Field, Mr. Pendexter, Mr.
Irving, Mr. Canton, Dr. F. and Mrs.
Fisher, W. H. and Mrs. Herder, H.
Watson, J. W. Ingraham, B. E. Steen-
son, S. Becker, R. T. Carson, L. T.
Wayer, Miss A. Harridge, Mrs. N.
Fisher, Miss M. B. May, Miss M.
Dalton, Mrs. T. Horwood, J. O'Neill, A.
J. Oake, T. T. Cartwright, D. C. Dear-
don, H. B. Potter, F. C. Harris, W.

New Spiritual Director.

The Juvenile Branch of the T. A. So-
ciety held their regular monthly meet-
ing yesterday afternoon when it was
announced that Rev. F. Kelly, of St.
Patrick's Diocese, had been appointed
Spiritual Director to the body, suc-
ceeding Rev. Dr. O'Reilly who is now
in Sydney. Fr. Kelly was formally in-
troduced by President Ellis, of the
adult body, and after being installed the
new Spiritual Director gave an excel-
lent discourse.

nose stuffed up, feverishness, sneez-

directed, with the knowledge that
there is nothing else in the world
which will cure your cold or end
Gripe misery as promptly and with-

Record Season For Fishing.

Total Catch On Scotland Coast Es-
timated at \$3,500,000.

Three million five hundred thousand
pounds for herring? That is the high-
ly satisfactory result of the fishing
season on the north east coast of Scot-
land, which is now rapidly drawing to
a close.

During the last four months the
nightly labors of fishermen in the
Minch and in the Pentland Firth have
been attended with considerable suc-
cess, and at Lerwick, Stronsay, Peter-
head, Fraserburgh and all the other
leading centres of industry the land-
ings show a considerable advance
compared with that of last year.

Up to date the landings on the
north coast of Scotland reach the
substantial total of 1,400,000 crans.
The cran measure contains about 750
herrings, so that during the 1912 sea-
son no fewer than 1,972,500,000 indi-
vidual fish have been landed—enough
to supply some ten dozen "caller
herrin" fresh drawn from the sea to
every family in the United King-
dom.

No official statement of the prices
realized has yet been issued, but it is
an exceedingly conservative estimate to
put the average value per cran at 25s.
On that estimate the fishermen have
received for the herring landed in
Scotland this season £1,750,000. But
that by no means represents the ac-
tual value of the herring fishing to
Peterhead, Fraserburgh, Lerwick and
the other centres of the important in-
dustry. To the sum mentioned must
be added the wages of carters, fish-
curens, laborers, coopers, clerks and
the little army of fish sales men,
middlemen and retailers. The usual
estimate is that about 100 per cent.
must be added to the prices paid to
the fishermen in order to obtain the
actual value of the herring harvest to
the country. On that basis the
total catch on the north east coast
of Scotland represents the substantial
sum of £3,500,000.

Many of the Highland fishermen
have already returned to their native
glens with well filled purses, having
earned enough to keep them in tol-
erable comfort until the opening of
the spring fishing next year.—Pall
Mail Gazette.

noon to-morrow for Halifax and Phil-
adelphia.

Fire Alarm.

At 9.15 Saturday night an alarm of
fire was sent in from Box 334, bring-
ing the Western and Central firemen
to the residence of Mrs. Rooney, Pat-
rick Street. Mrs. Rooney had put
some chemical in the stove which she
was told would clean the chimney of
soot. This caused it to blaze up fur-
iously and the firemen on arrival
mounted the roof and quenched the
blaze with water passed up in buck-
ets.

The Fogota Here.

The S. S. Fogota, Capt. Baxter Bar-
bour, arrived here from the north at
11.30 last night. She had fine weather
all through except on Friday night
when it rained hard and was very
thick. She made all her ports of call
and brought a full freight of fish in
casks and oil. Her saloon passen-
gers were: Mesdames A. and R. Sau-
nders, Misses Earle, Saunders (2),
Bradley, Newman, Edgar and Messrs.
Lethbridge, Saunders, Coombes and
Winsor, with 18 steerage.

pear at the Casino Theatre for a lim-
ited engagement commencing this

Minard's Liniment Co., Limited.
Sirs,—I came across a bottle of your
MINARD'S LINIMENT in the hands of
one of the students at the University
of Maryland, and he being so kind as
to let me use it for a very bad sprain,
which I obtained in training for foot
races, and to say that it helped me
would be putting it very mildly, and I
therefore ask if you would let me
know of one of your agents that is
closest to Baltimore so that I may ob-
tain some of it. Thanking you in ad-
vance I remain,

Yours truly,

TO INSTAL HEATING.—Messrs.
Brown and Jeans, of Sydney, N.S.,
came by the City of Sydney on Satur-
day to install the new heating appar-
atus in the B. I. S. Hall.

phone mouthpiece to exclude outside
sounds and to prevent others hearing
what its user is saying has been in-
vented by a New Yorker.

ville, came along by the Fogota last
night. Both are ill, were looked after
by Mr. Eli Whiteway and will be taken
to Hospital to-day.

CITY OF SYDNEY SAILS.—The
S. S. City of Sydney is late in sailing.
She will not get away for Montreal
before this midnight. The following
passengers are booked: B. T. Benson,
Mr. and Mrs. Godden, O. Sullivan, and
three in steerage.

SCHOONERS ARRIVE.—Quite a
number of schooners arrived here yester-
day morning from the Northwest.
All were laden with fish, and if fine
weather prevails for the next couple of
weeks there will be much labor given
along the waterfront.

FIRE ALARM.—Yesterday after-
noon a slight fire was in progress at
Steward's Restaurant, caused by a bad
chimney. The Central and East End
Fire Companies were called out, but
their services were not needed as the
blaze was extinguished by a number
of blue-jackets from H. M. S. Brilliant.

Frozen Alive And Then Resuscitated.

Experiments With Animals Successful.
May Revolutionize Meat Export.

St. Petersburg, Sept. 26.—Experi-
ments made by Prof. Bachmetieff, for-
merly of Sofia, and now of Moscow
University, have proved, it is announ-
ced, that animals may be frozen alive
and then resuscitated none the worse.

Prof. Bachmetieff calls this process
"Anabiosis." The first experiments
were made with cold blooded animals
and insects, and afterwards warm-
blooded animals and mammals were
experimented on. Two hundred tests
were made. Nearly all succeeded.

Bats were refrigerated and kept
"dead" for a long time, and later com-
pletely restored. These experiments
open out remarkable prospects for
the future. In fact, it is stated that it
may even be possible to send refrig-
erated animals across the ocean and
resuscitate them on arrival at their
destination.
