PROTECTING THE HANDS.

If a woman's hands are of unsightly redness it is, of course, impossible to strive for complete beauty and the remedy should be sought for at once. Covering them with almond meal or oatmeal after they have been washed and dried is good. Buttermilk is another excellent bleach as is lemon juice undiluted.

When cucumbers become plentiful they may be cut into strips and rubbed on the hands, or the juice may be extracted and bottled. Here are directions for making a cucumber lotion which will soften and whiten the skin: Cut one or two cucumbers into rather small chunks without peeling. Put these into a mortar or an earthenware bowl and pound with a potato masher, until the mass is pulp like.

Now filter through a piece of cheesecloth, squeezing out as much of the juice as possible.

Place the refuse and the filtered juice into a clean enameled saucepan and simmer for ten minutes. Re-strain and when cold add alcohol to the proportion of one tablespoonful to half a pint of the liquid. Bottle and use on the face and hands.

It is a good plan to wear gloves at night after applying cold cream to the hands. To give ventilation the tips of the glove fingers should be

ripped and a small piece should be cut from the palms. When doing your housework wear gloves whenever you can, particularly when sweeping and dusting.

Now for the nails. If the cuticle around the nails is rough or creeps up so that the half moon at the base of the fingers is hidden, a little cold cream should be applied or the finger tips should be held in olive oil for a few minutes each night. Remove the cream or oil from the fingers and press the cuticle back with the blunt end of an orange wood stick. Never use a steel instrument on the nails.

To cleanse the skin beneath the tip of the nail twist a bit of absorbent cotton about the pointed end of the orange wood stick, dip it in peroxide and insert it under the nail.

Fads and Fashions.

It will surely be a season of ruffles, they are pinked and they are fluted, while some are just plain ruffles.

Many of the new topcoats are finished at the neck with a wide scarf that ties gracefully into a large, soft bow.

An attractive touch to a checked suit is a collar of plain contrasting color. For instance, a black and white check suit might have a collar of rose or blue taffeta.

UNDERWOOD

Typewriter,
\$135.00.

We wish to state that any Underwood Typewriter advertised at less than the above price is not a new machine, has not genuine parts and does not carry the Underwood guarantee. Over 300, Underwood Typewriters in use in Newfoundland. "The Machine you will eventually buy."

Peace With Righteousness.

"Give peace in our time, O Lord!"—so we pray
Deliverance from war; till, swords and spears
Beat into shears and pruning-hooks, the years
Redeemed shall own at last Love's perfect sway:
Her radiant banner over us alway,
Joy comes with morning after long night of fears,
Songs swell with rapture for lament of tears.
Give peace, Lord, in our time!—But not to-day;

Give rather faith to trust, and strength to light.
Patience to wait, and courage to endure.
And wisdom, while we battle for the Right.
To make our victory complete and sure!
Pray we for peace with righteousness—light.
To build the future wisely and secure.
—H. H. Pittman.
Elizabethtown, New York.

Indian Island Notes.

Word has reached us that Ludwig D. Hoddinot, one of our volunteers, will soon be leaving Wandsworth Hospital, and will sign on to serve his King and Country for another year. Richard Hynes, the young volunteer, who so distinguished himself at Caribou Hill, is also on active service for another year. Indian Islands is proud of her young men who have gone to the front.
Lemuel Hynes is still in hospital. No doubt he is improving, as his case is not very serious.
Two of the Blundon boys who left home for Canada last fall, have joined the Canadian volunteer force. Well done, boys!

—COR.
FOR SALE.—One Evinrude Detachable Rowboat Motor. Absolutely new. Never out of box. For lake, river or sea. A snap, \$60.00. Cost \$85.00. Apply this office.—may10,ed,tf

Goes to St. Mary's.

THEN TO NEW YORK.
The s.s. Kilo, the late purchase of Mr. K. R. Prowse, will go to St. Mary's in the course of a few days and bring along the whaling plant belonging to the defunct St. Mary's Whaling Company. After that, it is said, she will proceed to New York to have new boilers installed and otherwise put in readiness for a northern cruise, taking from the American port a party of tourists.

Quite Restored to Health.

Very Rev. W. P. Doutey, our esteemed Pastor, who was seriously ill for some time at St. John's, returned by the s.s. Portia quite restored to health. The people showed their welcome for him by flying flags and assembling at the wharf. The parishioners appreciate the kindness shown by the Christian Brothers, Messrs. Bowring Brothers, Hon. M. P. Cashin, and all those who assisted in restoring him to health.
Renews, May 12th, 1916.

Rod and Gun.

Bonnycastle Dale contributes the opening article to the May issue of Rod and Gun Magazine, published at Woodstock, Ont., by W. J. Taylor, Limited. "Tales of the Trappers and Hunters of 1914-1915" is the title of the article by this well-known writer who can always be depended upon to know what he is talking about when he writes of the creatures of the wild. Frank Yeigh, another well-known Canadian writer, contributes "One Eye Bunny and the Tenderfoot: The Tail of a Trail," a story that depicts some of the idiosyncracies of the sturdy little pack ponies of the Mt. Robinson region. There are a dozen or so other articles of interest before the regular departments, which are up-to-date and full of interest to the lover of out-of-door sports, whose equipment includes rod, gun, dog or trap.

Your Boys and Girls.

In most cities mothers, whether poor or rich, may have the benefit of carefully inspected milk and drinking water. In the country it is a wise precaution to look into these matters before selecting the summer home. Flies and mosquitoes are two great enemies of the baby, affecting not merely his comfort, but endangering his health and perhaps his life.

In going to the country the mother should select, if possible, a place where the doors, windows and porches are screened. The prudent mother will include a box of cotton netting in the outfit she takes to the country in order that baby's crib at least may be protected from insects. In going to a new place with the baby all the drinking water, and the milk also, should be boiled, if from a strange supply about which the mother knows nothing.

A TOTAL WRECK.—There arrived by the s.s. Florizel to-day from New York Thomas Butt, William Butt, J. Pike and Thomas Howell, seamen of Bowring's schooner Nellie Louise, which, as previously noted, ran ashore coming out of Barbados a month ago and became a total wreck. She had a full cargo of molasses and only a small portion of it was salvaged.

1st Nfld. REGIMENT.

Casualty List.

LIST OF CASUALTIES RECEIVED BY MAIL.

Not Previously Reported.

J. R. BENNETT,
Colonial Secretary.

Personal.

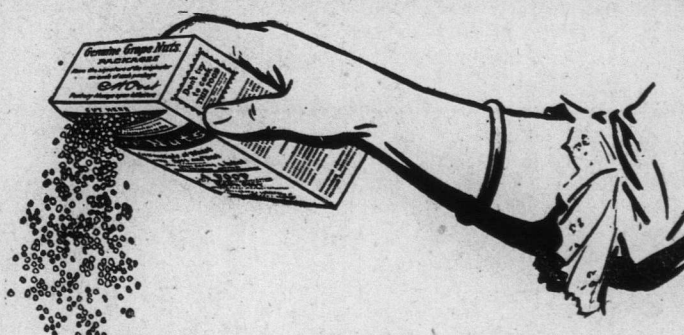

Sir Joseph Outerbridge, who spent the winter in Bermuda, returned to-day by the Florizel.

Mr. F. M. Sheard, who had been to New York on business, came back on the Florizel.

Mr. Joseph Flett, of Scotch-cure herring fame, arrived here this morning on the Florizel, accompanied by his wife and daughter, en route to Bay of Islands.

Mrs. G. Knowling, Jr., was also a passenger by the Florizel to-day.

Suit skirts are not so very wide and full, but rather narrow, to be in keeping with the tailored effect.

Crisp Granules

In making the food, Grape-Nuts, whole wheat and malted barley are ground into flour, blended, formed into a dough, and baked about 20 hours. This long baking converts a large part of the starch into dextrose or grape-sugar, making Grape-Nuts easily digestible—generally in about one hour.

Grape-Nuts comes from the ovens almost rock-hard and is reduced to crisp, sweet, nut-like granules requiring thorough mastication. An admirable quality—both for good digestion and sound teeth.

Grape-Nuts

(MADE IN CANADA)

contains all the nutriment of the grains, including the valuable mineral salts—phosphate of potash, etc.—often lacking in the ordinary diet but so essential for well-balanced nerves and sturdy bodies.

Grape-Nuts is ready to eat direct from the package with cream or good milk—a delicious, well-balanced food for health, strength and efficiency.

"There's a Reason"

Grocers everywhere sell Grape-Nuts.

Canadian Postum Cereal Co., Ltd., Windsor, Ont.
