Mr. Nelson States His Grievance.

Editor Evening Telegram.

Dear Sir:—During the past few
weeks members of the Police Force
have on several occasions interviewed
me suggesting that I was under sus-
picion of being a German spy, and
quite recently a prominent gentleman
on behalf of the Government told me
that I was under suspicion, and sug-
gested that I should leave the coun-
try. I asked him what was wrong.
He said that there was a strong feel-
ing against me, and gave as the reason
for the strong feeling that I had
joined the Newfoundland Industrial
workers' Association, and had taken
part in the strike in St. John's which
some time ago had caused the stop-
ping of traffic in Newfoundland, and
that I had been identified in the strike
which resulted in the employees of the
Field Newfoundland Company receiv-
ing a considerable increase in wages
some months ago.

That was the only charge which he
suggested as being in existence. I
asked him if he considered it wrong
for me to join a labor organization if
I chose to do so. He said, "Oh, no,"
but that I was a stranger and had no
business to be interested in the
affairs of the country.

As a citizen of the United
States I have registered myself at the
American Consulate for service in
the American Army in accordance with
United States Selective Draft Law.
I am not aware that British subjects
in the United States who have com-
plied with British Law with respect
to Military service are being treated in
the manner in which Newfoundland
authorities are treating me here.

I am quite in accord with any su-
pervision which the Police authorities
may desire to exert over me and my
movements, but their action in pur-
suing me up to the present is merely
ruining my business interests, and
that is not fair treatment, unless there
is some reason for suspicion that I
am disloyal to my own nation, which
is so vigorously fighting by the side
of England for the cause of demo-
cracy. I cannot think that the cause
of democracy is being furthered by
deportation being threatened against
me because I joined a labor organiza-
tion which so far as I am aware is
composed of loyal Newfoundlanders.
\$6 per cent of whom are of Newfound-
land blood, many of whom have given
their best blood and effort in the coun-
try's cause, and all of whom, I be-
lieve, are loyal to the core.

If the Police or anybody else has
the faintest suggestion to make of
my loyalty to the United States of
America, of which I am a citizen, and
my desire as the subject of an Ally of
Great Britain to assist Great Britain
and her cause in every manner in my
power, then I would be happy if that
evidence would be furnished the
American Consul, to whom I am respon-
sible for my behaviour as an Ameri-
can citizen and for the loyal support
which I am bound to give my Flag
and the Flag of my Country's Allies.

Yours truly,

O. K. NELSON.
