date was elected by a majority of 59. In 1882 Sir John Macdonald carried it by a majority of 205. Sir John was unseated for corrupt practices, and the Liberal nominee carried the seat with a majority of 5. He in turn, was unseated, when his Conservative opponent got a majority of 42. In 1887 the Conservative was elected by a majority of 26. Last year it was the Liberal's turn and he secured the seat with a majority of 54. Now the Conservative captures it

ing this week. Nearly 13,000 policies were issued by the company during the year, insuring \$14,614,521 worth of property. The loss bill was \$19,170 78 less than the previous year, and it is believed that the losses will be even less in the future, so many are the precautions which the company's officers now take against accepting defective risks. The net surplus was increased by \$22,729 30 over the former year. It is now \$89,906 28. The company has done business for over 32 years, and has a reputation for promptitude throughout a wide territory. It has a strong directorate and a secretary (Mr. D. C. Macdonald) who knows his business. Without a doubt its members feel the loss of its former treasurer (Mr. W. R. Vining), but his place has been taken by Mr. James Grant, a most reliable man. The addition to the directorate of so progressive an agriculturist as Mr. Richard Gibson, of Delaware, will meet with general approval from the patrons of the organization.

YESTERDAY'S BYE-ELECTIONS.
For reasons which will doubtless be revealed in the election courts, the Conservative candidates in the two bye-elections held yesterday were successful. As one of the seats (Lennox) was carried at the general election by a Liberal, there is a loss of a seat to the friends of trade freedom.

Each of these constituencies has vacillated between the two political parties in the contests of recent years. It is interesting to note how the electors have acted since to note how the electors have acted since is a liberal candidate for Prince Edward was defeated by a majority of 219. In 1887, but it is majority was increased to 65; but at last general election the Conservative took the seat with a majority of 39. He was unseated and is now re-elected with a majority of 204.

In Lennox the change from side to side has been more marked. At the general election of 1878, the Conservative candidate was elected by a majority of 59. The Ex-Adjutant a Soldier and a Gen tleman that London May Well Bo Proud Of.

To the Editor of the ADVERTISER:

The Free Press, not content with throwing mud at our reputable and honorable citizen, Mr. George M. Reid, in this morning's issue, scurrilously attacks his record as an officer in the Seventh Fusillers One of the oldest insurance organizations during the Northwest rebellion, and insurance in Canada is the London Mutual Fire Insursinuates that the battalion was disbanded on account of his inefficiency as adjutant. If the story of the Richmond street in-cident is as base a lie as this last attack,
