Ald. Greenlees Will Ask the Council to Adopt One Like Toronto Has.

The boy was considerably injured, and although the necessity of a bicyble bylaw might pare! in some other way have been brought to Ald. Greenlees sooner or later, cerand which the other aldermen present intimated they would support. The clauses are practically the same as in the Toronto law adopted a few weeks ago. One is that wheelmen must keep to the right side of the road. They must cross intersecting streets at a slow rate of speed. Small children must not be carried on wheels. Parties of bicyclists must not travel more than two abreast. Riders must keep their feet on the pedals and their hands on the handlebars, and in passing other vehicles or wheelmen they must turn to the proper side.

NOT A LAWYER.

If all newspaper stories are true, lawyers meet with many reverses in their attempts to browbeat feminine witnesses. One of the latest examples comes from the Cleveland Leader. "Now." said the lawyer who conducting the cross-examination, "you will please state how and where you

first met this man."
"I think," said the lady with the sharp nose, "that it was—" "Never mind what you think," interrupted the lawyer. "We want facts We don't care what you think, and we haven't time to listen to what you think. Now please tell us where and when it was that you first met this man."

The witness made no reply. "Come, come," urged the lawyer, "I demand an answer to the questions I have put. "The witness will please answer the question," said the court in impressive tones.

"Can't," said the lady. "Why not?" "The court doesn't care to hear what think, does it?"

"Then there's no use a-questioning me any further. I am not a lawyer. can't talk without thinking."

So they called the next witness. We have no hesitation in saying that Dr. J. D. Kellogg's Dysentery Cordial is without doubt the best medicine ever introduced for dysentery, diarrhea, cholera, and all summer complaints, sea sickness, etc. It promptly gives relief and never fails to effect a posi-

MILITARY PREPARATIONS. In the meantime extraordinary military precautions have been taken to quell any international troubles. Gen. Correa, minister for war, and his secretaries are working day and night. Peninsula armies will total up 220,000 men by July 15. The railroads are preparing war trains on all lines, and carriage trains are lying at all the garrison stations. A high authority, however, expresses the opinion that the rank and file of the soldiery are inclined to condemn the war, and feel they are being driven to bloodshed for unjust causes by scheming politicians. and he therefore doubts the army's attitude in the event of civil troubles, The officers, too, while anxious for the day. war, are divided on the question of Captain an important factor in a terribly tense situation.
