An advance in price of oats was the only noticeable change in produce. Oats were scarce, and sold for \$1.85 to \$1.90 per cwt.

The advance of one hundred per cent in the market price of lead foreshadows a similar increase in the market value of producers of the metal, whether silver-lead or zinc-lead producers, of the same character as that now being enjoyed by the Coppers.

We advise the immediate purchase of the lead stocks for increased investment yield and speculative profits, justified by the tremendous increase in earnings. Our immediate recommendations are:

SILVER KING CONSOLIDATED, IRON BLOSSOM, STEWART MINING, STANDARD SILVER-LEAD, SUCCESS MINING, PRINCE CONSOLIDATED.

been given some credence, concerning the conduct of British headquarters a the front. Mr. Moore has seen more of the Brit ish war than any other civilian. He says the story of trouble between Sir John and Lord Kitchener is absolutely ridiculous, and as to the story that too many ladies have been entertained at headquarters, he says: "I know of only one lady being there, Lady Eileen Roberts, who was there when he father died.'
