Another Opportunity TO SAVE!

DID YOU EVER STOP TO THINK

Just what it would mean to all in dollars and cents if every citizen became a live-wire bargain hunter, thoroughly interested in the running expenses of the homes? If every individual made up his or her mind to save at every opportunity—to watch and compare prices and shop where the dollar spent brings the greatest returns.

We are all aware how quickly we can dispose of a ten-dollar bill and how little we receive in exchange when unmindful of what we are buying or the price we are paying. There is no disputing the fact that hundreds of dollars that slip th rough the fingers might easily be saved if stricter attention were given to the buying for the home.

You cannot wonder at the big line of thrifty housewives who, realizing the true value of the bargains we offer, are bringing their baskets or satchels, sending their kiddies with the wagon, or coming in fashionable autos to Peel's Store, & Do minion Savings Building, Richmond street, to partake of the bountiful supply of good things to be found at reasonable prices.

Be fair to yourself. Give this store your immediate attention. Money will talk when you compare the prices.
