BEST OUTING SINCE WAR

POLO IMPROVING

Telephones He's Stopping To Have Dinner With Neighbors.

> By FRED G. GRIFFIN. Special to The Advertiser. By a Staff Correspondent.

Syosset, L.I., Sept. 5.—Every day Prince of Wales settles more firmly into the routine of Long Island's millionaire life. It is certainly when he leaves these Elysian square miles of luxurious freedom from the burdens of his heritage across the Atlantic. Of course, his Canadian trip will intervene before he has to take up again the burdens of his birth so that altogether this should prove the greatest holiday he has had

yesterday morning and on the polo field playing a full game of eight chukkers in fairly good polo company. It is really amazing how strenuously he plays and dances and how little sleep he seems to need.

New York state troopers, but it is understood that from now on no one is to be allowed to approach the house without furnishing the clearest possible credentials.

After the polo game yesterday the prince indulged in a leisurely Long Island.

five. It is a fact and not mere courtiership that his polo is improving. Sand. A perfect cameo of a course in the most perfect shape, rather flat but with many artificial hazards in but with many artificial hazards in but with many artificial hazards in the approaches and round the approaches and round the approaches and round the defining put in by the commission did not come up at the meeting sign did not come up at the in his riding. Up to the present he has not impressed the ordinary on-looker. He frequently over-rode the ball and did not control his mounts hidden to the hidden of the the

"No great increase in business assessment was expected in this time," the commissioner explained. Business assessment totals \$6,520,674 at increase of practically the same as on land assessment.

Income figures show a decrease of \$136,375. However, this is not what it seems, as \$250,000 assessment has been added since the ward rolls were closed. This increase will wipe out the decrease entirely. Total income assessment now is \$4,878,753.

In his report, the commissioner devotes four closely-typed pages to a survey of the work handled in the assessment office. He points out that the duties of he and his staff are laid down by the assessment act, and that the assessors have to be fair and impartial. Added to that, the citizen must co-operate in every way asked, as \$200 penalty for refusal.

The letter was said to be three pages long and in most portions incoherent. The police, to whom the letter was given, sent a man to Syosset in an effort to locate the sender.

effect that the prince's life was in danger from an assassin. It appears that the acting British consul-general in New York received a rambling letter in which the prince's name was mentioned with the expression attached, "I will kill him." It came from Williamstown, N. Y., and was signed with the name of Marcus Girroy. The acting consul-general turned the letter over to the police who trips, they must remain up until he returns to the Burden home and then search the house carefully before

Every automobile that entered the grounds of the Burden estate was required tonight to come to a full stop, while trained men scrutinized it to satisfy themselves that its occupants were on a lawful errand.

These precautions were said to be the results of the letter threatening the life of the prince, which was urned over to the New York police

The letter, written in two different inks on four sheets of cheap paper, was postmarked at Williamstown, N. Y. It was rambling and incoherent, but there was a threat in the phrase "I want to kill him." It was signed Marcus Geroy or Garoy.

The letter was addressed to the activities.

British consul. Hon. A. Brouet, 911 East Forty second street. New York City. There is no such address nor is there any one named Brouet connected with the consulate, the of-fices of which are in the Whitehall

Building.

Whether or not the prince was informed of the threat could not be

CONDITION SERIOUS.

REGISTRY TANGLE STILL UNSOLVED

Council Has Knotty Problem of Old Office Building On Its Hands.

FIRMS PROTEST

The ultimate disposal of the old registry office building on Talbot street still remains unsettled. In fact, the whole question seems very

fact, the whole question seems very much up in the air since the city council is in the midst of its third lap in calling for tenders for the purchase of the building.

The latest development in connection with the case is the receipt of a letter by the council from T. H. Baker & Co. and Glen Bros., protesting against the erection of a three or four story building, concerning which proposal there has been they would perforce have to seek other quarters. They accordingly favor the sale of the building to the public utilities commission for use a sub-station or to some oil compan

The letter was forwarded the council, it was presumed, by way of counteracting a petition, signed by some 20 ratepayers of the Carling and Talbot street district, which presented to the council last Tuesday night, protesting against the sale of the building to the commission for

up the district's problems and plans of missionaries. There will be a discussion of the circuits lacking missionary enthusiasm.

This will be led by Dr. George Hazen.

Dr. J. H. Arnup will deliver an address, "The Hundred Years of Victory."

A conference on circuit problems will be taken up by Rev. J. W. Hibbert. It will be divided into ten classes. At 4:15 there will be two groups, ministerial and lay. They will be taken by Rev. H. J. Uren and Mr. F. O'Brien. Adjournment will be at 5:30.
