WEEKLY BRITISH COLONIST.

Tuesday, March 14, 1865 THE WAYS AND MEANS.

The Weckly Colonist.

It is by no means an enviable task, under even flourishing circumstances, to propose fresh taxation ; but at a time when business is daller than usual it requires some degree of moral courage to bring forward a scheme to increase the burdens of the taxpayer. Yet around Victoria, were read by the Secretary, the directore ble test must be done the count the Rev. A. C. Garrett, and adopted. The the disagreeable task must be done-the couus try, if it is to progress, must have more revenue, and the only question, after considering the colony's capacity to bear the increase, is to decide upon the least irksome way in which to levy it. We find that the amount voted by the House of Assembly for this tary. The financial condition of the society year's expenditure is \$298,000, and that the estimated receipts are only \$239,000-leaving, in round numbers, a deficit to be made up of \$60,000. Now the question may readily. be asked, is the country capable of bearing this additional strain? We should unhesitatingly say "no," if the increase were to be confined to those who at present pay the taxation of the colony ; but as a large portion of the population contribute but little to the Garrett, it was decided that a few Bibles support of the Government, and as those who in the Victoria gaol, which establishment are best able to pay-the men who carry on the largest business-are the least taxed in propertion to their receipts, we think that a scheme which will make the non-taxpayer contribute something, and the wholesale dealer and auctioneer pay a larger share to-

wards the revenue, will meet the ends pro-The measures proposed on Tuesday in the

Committee on Ways and Means are the first indications of a reform in the mode of raising revenue. The evils of the present unequal system of taxing trades are so glaring that the only wonder is how they have remained so long on the statute book. The principle of the law seems to be that the poorer the trader the more in proportion he has to pay. The Wharf street merchant, commission agent, or auctioneer, who does more business in one week than the retail trader probably does in a year, contributes comparatively speaking, nothing to the revenue. The ad valorem system of one percent. on the sales, proposed by Mr. DeCosmos, is the only fair scheme. By this means it is estimated that \$58,000 will be raised, or \$38,-000 more than is obtained at present. To make up the other portion of the \$60,000 it is proposed to put an import duty on horses, eattle, sheep and hogs at so much a head, and lumber at so much a thousand. Dr. Helm-cken's proposition of a dollar a head on horses and oxen, and half a dollar on sheep and pigs, is much too little, and Mr. DeCosis proposed to put an import duty on horses, and pigs, is much too little, and Mr. DeCosmos' tax on cattle of \$4 per head and on horses of \$10, is much too large. A line drawn between these extremes might probably come nearer the mark. [A tax of \$5 a head on horses, \$2 59 on cattle, and \$1 on sheep and pigs would, we think, be more acceptable to the people and more suited to the exturer igencies of the country. Of course, on all stock imported for British Columbia a drawback would be allowed. The tax of one dollar a thousand on lumber proposed by Dr. Helmoken is too small. No country should. be induced to create new schemes of texation unless the result will pay for the disarrangement of trade, or the inconvenience of a for his safety. change. We therefore think that \$2 or \$2 50 Thursday, March 9. far as the tax on auctioneers is concerned, it has been suggested that five per cent. be imposed & bat we believe the recommendation of the Chamber of Commerce of two and a day in a becoming manner. It has been half pers cent on all sales, is as much as should be levied. It must be borne in mind that although the legitimate trader is seriously injured by auction sales-although the business of fifteen or twenty retailers is sufficiently numerous in this colony have no done in the one house by the one man, and the city is thus deprived of an increase to its population and its buildings, yet if the auctioneer says the same ad valorem tax as the the Governor is to be invited to be the paretailer on all sales-public and private-the tron, the surplus proceeds to be devoted to the Government receives just as large a trades license revenue as it would otherwise do, if license revenue as it would otherwise do, if the fifteen or twenty retailers were in busi-ness. There is, however, this drawback, that ness. There is, however, this drawback, that the retailers, by building or renting stores. increase the value of other taxable property. raise the price of real estate, and add a score more months to be fed and bodies to be clothed. The means above proposed may not make up the deficit, but then there is still another tax before the House-Dr. Dickson's three . This. cent. on all uncultivated lands, This. scheme, when properly put into shape, ought to yield a large revenue in itself." Altogether, we do not see anything objeca tionable in the methods proposed for meeting the increased demand upon the pockets of the

Tuesday, March 7. BIBLE SOCIETY .- A meeting of the Committee of the Vancouver Island Auxiliary of the British and Foreign Bible Society, was held last evening in the office of Messrs. Franklin, Government street, the Ven Archdeacon Gilson occupying the chair. The reports of the Colporteur, Mr. James Hall, giving the result of his visit to the settlements at Comox and Cowichan, and also in and reports of the Depositary and Treasurer were also read and adopted. A communication was read from the Secretary of the Nanaimo Branch, enclosing a sum of \$50, with a re-quest that it be forwarded to the parent cociety as a donation, to which a suitable an-

LOCAL INTELLIGENCE.

was faily considered and it appeared that this auxiliary was in a position to refund the amount due to the parent society on purchase amount due to the parent society on purchase account. The services of the Colporteur were directed to be re-engaged for another year, and provision was made for the payment of the share of his salary. Tenders for print-ing the annual report of the Secretary were opened and left to the decision of a committee. Other matters of finance were disposed of, and at the suggestion of the Rev. A. C. should be granted for the use of the prisoner

benediction pronounced by the chairman. DEATH OF MR. HOOPER-We regret to an-

nounce this morning the death of Mr. Hooper of New Westminster. The deceased was one of the early residents of the capital of Victoria but a week or two ago on business, and was seized, a few days after his arrival,

deplored by all those who were acquainted with him and who value these sterling characteristics.

CHINESE IMMIGRATION-Forty-three Chinamen arrived from San Francisco by the bark shooter from his belt, deliberately cocked it, Golden Gate yesterday. It is reported that and presented it at the head of a mild, unof-several ship loads of Celestials are on their fensive gentleman who happened to be preway to this country from China.

SALT SPRING ISLAND-A petition has been forwarded from the settlers at Begg's settlement, north-east side of Salt Spring Island, for presentation to His Excellency the Governor, asking that the mail steamer Fideliter should be required to visit that settlement at least once a fortnight. It would seem from the statement of the petitioners, that the steamer calls regularly at Vesuvius Bay, on the west side of the Island, the communication with which point lies over a mountainous range, rendering it difficult, and at this season of the year out of the question, to send any of their produce there for shipment to a market. The inclemency of the weather, we learn, has been very destructive to stock on the Island.

Rough Usage-A man giving the name of G. B. Jones, was charged yesterday in the police court with entering the Fashion Hotel and without provocation violently assaulting a Chinaman named Ohn in the employ of Mr. Keenan, by striking him with a coffee pat and other articles of domestic use. It appeared that the accused entered the hotel in the morning and demanded refreshments. Some words passed which resulted in Jones seizing hold of the first article-within his reach and throwing them about. Ohn was struck on the head with an earthen vessel which inflicted a severe wound. The prisoner was remanded for one day to admit of a medical certificate as to the nature of the injuries sustained by the Chinaman.

FIRE-The residence of B. W. Pearse, Esq., at present entirely destitute of the "Word of Surveyor General, had a narrow escape from Truth." The meeting terminated with the being destroyed by fire on the night before last. One of the family having accidentally

awoke during the night, discovered that the house was full of smoke, and on rousing Mr. Pearse it was found that the wooden casing near the fire place had become ignited, from which the fire had spread to the adjoining posed without bearing heavily on any partic- the sister colony, and took an active interest wall, consuming a quantity of clothing, near class. articles was dense and stifling, and had not the inmates of the dwelling been providenby the disease which yesterday morning ter-minated his earthly career. The tea averaged about \$22 50 per chest ; gunnies about \$20 per bale ; shot, \$16 per keg ; blankets about \$4 per pair, &c. The total amount of goods disposed of was between \$12,000 and \$15.000. PETITION FROM THE CHAMBER OF COM-MERCE-A petition was in circulation yesterday for signature from the Chamber of Commerce to the Governor setting forth the views of the petitioners on the union ques-We are pleased to learn that a movement tion, and praying that His Excellency will was initiated yesterday for celebrating this forward the same to the Colonial office. The petitioners declare themselves in favor of union of the Colonies. COASTING TRADE THROWN OPEN,-The coasting trade of this colony is now thrown open to foreign vessels, licenses being granted for that purpose by the barbor master, under the authority of the Government. The letter of the Attorney General to the Harbor Mas-ter states that British vessels have no further advantage over foreign ones than the flag and the protection it confers. SEVERE WEATHER. - The present unseasenable cold snap gives no indication of abata ing. The frost on Tuesday night was sharper than has been experienced for several years, the thermometer having fallen as low as 9 degrees Fahrenheit. A large portion of the harbor was covered yesterday with a coat of

The Infallible Remedy.

Scorbutic Humours, Scald Head and Skin
 Scorbutic Humours, Scald Head and Skin
 Scorbutic humours, stige from an impure state of

Diseases. Scorbutic humors arise from an impure state of the blood, and in most cases the liver and stom-ach are the organs at fault. The Pills will speedily restore these to a healthy action; while the Oint-ment if well rutbed in at least twice a day, will soon cure any case, of skin disease. Soldiers, saflors, and miners, use this famous Ointment in all parts of the world.

Disorders of the Kidneys, Stone and Gravel Insorders of the kidneys, scene and travel In any of the above complaints more benefit may be derived in twenty-four hours by adopting the following simple means than is frequently brough about in six months by any other treatment. In bad cases if the Clintment be rubbed into the small of the back over the region of the kidneys, it will quickly penetrate, and, in most, instances, give immediate relief. Six or eight of the Pills should be taken nightly according to circumstances.

Diptheria, Sore Throats, &c.

These maladies are of so serious and dangerous I nese manages are or so serious and dangerous a nature that the Ointment would not be recom-mended unless the Proprietor was sure of its effect. It will cure when every other means have failed, if applied immediately, and not delayed un-til the patient is beyond recovery. It is a sovereign remedy for sore throat. Settled Coughs or whees-ing will be promote removed by subbase of wheesremeay for sore throat. Secties coughts of whether ing will be promptly removed by rubbing in this, anguent. Mothers should rub it into the chest of heir infants whenever there is any hoarseness, ightness, or other affection of breathing.

Bad Legs, Bad Breasts .- Old Wounds, Sores and Ulcers.

It is surprising how quickly a sore, ulcer, or wound, deprives the body of strength, and anfits it for the duties of life; but it is no less wonder-ful to watch the effect of Holloway's Healing Ointment, when it is used according to the printed directions, and assisted by appropriate doses of the Pills. The pain, inflammation, and other morbid manifestations, soon disappear from the affected part and health and strength, return.— This treatment creates sound flesh, and therefore makes its cures complete.

Gout and Rheumatism.

Will be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts. This treatment must be perseveringly followed for some time and duly assisted by powerful doses of Holloway's Pills. The essence of these diseases lies in the blood, which has floating through each vessel the pain-giving poison which vitiates and inflames every tissue it comes in contact with, and produces the hot, swollen, elastic enlargement about the joints so characteristic of gouty and rheumatic maladies,

Both the Ointment and Pills should be used in the following cases:
