

TEWFIK ALMOST WEPT.

The Russian Ambassador Also Was Surprised When the British Minister Spoke.

Turkey's War Preparations May Mean That She Will Defy Interference in Thessaly.

New York, June 11.—The London correspondent of the Sun to-day says: "The Sun's correspondent in this city has received private advice from Constantinople which enable him to confirm, without reservation, the news of England's declaration regarding the retrocession to Turkey of the Grecian province of Thessaly."

The announcement that England would not consent to Thessaly's being again placed under Turkish rule was made by Sir Philip Currie, the British ambassador, to Tewfik Pasha, the minister of foreign affairs, in the presence of W. Nelidoff, the Russian ambassador, on May 22. This was the first intimation that either Tewfik Pasha or M. Nelidoff had made of England's decision, and both were astonished.

The British ambassador declared the policy of his government in terms that were the equivalent of an ultimatum. Tewfik Pasha listened in silence, and then, displaying strong emotion, he turned and left the room without uttering a word. M. Nelidoff soon followed him.

The original plans of the Sultan and the war were abandoned apparently from that moment, unless it is more than possible Turkey's extensive war preparations, which have been more active than ever since the armistice was arranged, have the gravest possible significance.

The belief still prevails in high diplomatic quarters that Turkey is secretly determined to hold Thessaly, but Great Britain has declared in terms that she will withdraw from the concert of the powers unless the Sultan is compelled to surrender the province to the Greeks.

FIFTY-TON GUN WRECKED.

WASHINGTON, June 10.—The state of Maryland trembled last evening as the result of an explosion of 330 pounds of gun cotton at the government proving grounds at Indian Head. A 12-inch breech-loading rifle, weighing 101,000 pounds and worth \$25,000, was blown to pieces.

The armor-covered "bomb proof" in which the spectators take refuge while tests are made was wrecked, and a dozen naval officers and ordnance experts narrowly escaped with their lives.

The final test was being made of a gun cotton shell, invented by a Chicago man, and made for some unaccountable error the shell exploded in the gun, wrecking the mounting and its carriage, and throwing some of the pieces more than a mile down the Potomac.

Colonel O'Neil, chief of ordnance, and several United States naval officers and naval attaches from the various foreign legations had fortunately taken refuge on a navy tug about a mile from shore. Lieut. Anderson, who had been directed to fire the gun by electricity when the signal was given from the tug, had gone behind a big earth bank or "butt" about 300 yards from the gun.

Hand other spectators were unhurt, though a massive piece of the gun, weighing many tons, flew through the air with frightful velocity and struck the water within a hundred feet of the tug.

If the spectators had gone to the "bomb-proof," as they usually do when such tests are made, they would all have been killed, for a big piece of steel struck it and ripped through the 12-inch armor as if it had been so much paper.

A great hole was torn in the ground where the gun stood, and the buildings at the proving grounds were badly shaken. Not a particle of the massive gun or its carriage remained.

JAPAN AND SPAIN ALLIED.

BUFFALO, N.Y., June 11.—The Washington correspondent of the Commercial, usually well informed, wires that paper to-day as follows: "The state department has received information of an important and highly sensational character."

It is to the effect that the Spanish government has been "sounding Japan" with a view to discovering how far a concert of action may occur between the two governments in the event that Spain and the United States become embroiled in a war as a result of the Cuban insurrection.

The importance of these efforts cannot be over-estimated. If some understanding be reached between Spain and Japan, in the event of war between the United States and Spain, Japan would make a demonstration against the Hawaiian Islands, and seize them unless prevented by this country.

UNGATEFUL SOCIALISTS.

LONDON, June 11.—The London Socialists are greatly disgusted at learning that the Fabian society has subscribed money from its funds to decorate the offices of the society in the Strand, and also to decorate the street near the offices upon the occasion of the Queen's Jubilee.

The members of the Fabian society will hold a meeting to-morrow to denounce the action of the executive committee in subscribing the money. The executive offices of the society are also in the Strand and on the route of the Jubilee procession, but the officers have refused to display any decorations.

NEWS OF THE DOMINION.

Refrigerator Car Service. WINNIPEG, June 10.—A number of cars are now being repaired in the C. P. R. shops here and fitted with a refrigerator service, for use in the fruit trade between British Columbia coast points and the interior.

Mr. Brown Promoted. WINNIPEG, June 10.—A circular was issued to-day by Traffic Manager Kerr, of the Canadian Pacific, by which G. McL. Brown, of Vancouver, is promoted, and E. J. Coyle, now agent at Portland, is promoted to succeed Mr. Brown as agent for British Columbia and the North Pacific States.

Methodist Conference. TORONTO, June 10.—The Methodist conference met this morning. The principal business was the election of a president. Rev. Dr. S. G. Stone, of Shelburne, formerly pastor of the Methodist Episcopal organ, was elected on the second ballot.

To Bond Street Church. TORONTO, June 10.—Rev. Morgan Wood, of Detroit, has accepted a call to the Bond street Congregational church in this city, in succession to Rev. Dr. Sims.

He Didn't Desert Even. QUEBEC, June 10.—Arrangements have been completed here by which Charles Merrill will be elected by acclamation for the new constituency of Magdalen Islands.

This Settles It. LANSARK, June 10.—The Liberals of North Lansark, nominated W. C. Caldwell, ex-M.P.P., as their candidate in the next Ontario election. The convention also adopted a resolution recommending the appointment of William Templeton as Lieut.-Governor of British Columbia.

An Arctic Missionary. MONTREAL, June 10.—The Diocesan College in this city has decided to send Rev. A. W. Buckland to a Hudson's Bay outpost within the Arctic Circle as a missionary.

Toronto's Eye to Business. TORONTO, June 10.—The Mail has an editorial advocating the establishment of a refinery in Toronto for the treatment of matte from smelters, existing and prospective, in British Columbia.

Highlanders Ticked Again. TORONTO, June 10.—Members of the Forty-eighth Highlanders are greatly pleased over the successive victories of their comrades at Inlington, the last being the victory to-day of George Stewart in the bayonet exercise against the Empire, winning the Empire cup.

New Development Company. TORONTO, June 9.—A new mining developing company has been launched here under the presidency of Hon. Geo. E. Foster, and is to be known as the Bimetallic Mining and Development Company of Ontario. Shares will be subscribed for in Minnesota, Michigan, Ohio and Pennsylvania.

Proud of the Highlanders. TORONTO, June 9.—The news of the success of the Forty-eighth Highlanders in the bayonet competition at the Inlington military tournament reached the city yesterday evening by a cablegram from Major Henderson to Lieut. Col. Davidson, reading as follows: "We won against combined picked team composed of Coldstreams, Grenadiers and Scots Guards."

HOW THE MONEY GOES.

Seven Millions Can Be Spared to Bonus Quebec Railways for Running Rights.

The Commons Paralyzed by the Announcement—C.P.R. Freight Concessions.

(From Our Own Correspondent.) OTTAWA, June 10.—The Crow's Nest Pass resolutions were brought down to-night. As soon as the road is open for traffic to Kootenay Lake the rates and tolls of the company will be subject to the approval of the governor-in-council or a railway commission.

Reduction is to be made on all westbound freight to all points west of Fort William on the main line or branches, to the following percentages respectively: Upon all green and fresh fruits 33-1/3 per cent.; coal oil, 20 per cent.; cordage and under twine, 10 per cent.; agricultural implements of all kinds, set up or in parts, 10 per cent.; iron, including bar, band, Canadian plates, galvanized sheet, pipe, fittings, nails, spikes and horse shoes, 10 per cent.; all kinds of wire, 10 per cent.; window glass, 10 per cent.; paper for building and roofing purposes, 10 per cent.; roofing felt, box and packing, 10 per cent.; paints of all kinds, and oils, 10 per cent.; live stock, 10 per cent.; woodware, 10 per cent.; household furniture, 10 per cent. Other conditions are substantially as telegraphed.

Mr. Blair to-day explained the scheme by which the intercolonial route across into Montreal. The Grand Trunk receives \$140,000 yearly for 99 years for joint use of 35 miles of its road, the Victoria bridge and terminals in Montreal. The Drummond County railway receives \$70,000 yearly for its line to Chaudiere Junction. This enormous cost, equivalent to an expenditure of seven millions, paralyzed the House, and the Conservatives is strongly contended.

The Canadian Pacific has an advantage of 75 miles between Montreal and Halifax over the new line. The supplementary estimates for this year amount to \$1,775,000. One of the items are specially important. William Head quarantine station improvements are down for \$5,100. The unsettled accounts of the intercolonial route are to be paid. There are \$300,000 for canals, and \$885,000 to pay postal accounts, making five quarters paid for this year.

An item of \$1,000 represents allowances for judges on circuit in British Columbia. There is \$6,000 asked for illuminating the parliament buildings at Ottawa in honor of the Jubilee. OTTAWA, June 10.—Arrangements have been made for the Canadian Jubilee contingent to remain in England sufficiently long that they may take part in the great Son of the Empire review on Admission Day. If the steamer cannot be held for the men for 24 hours it is likely that they may be kept in England for another week.

The first batch of Jubilee stamps were sent out from the Post Office department to-day for British Columbia. None can be sold, however, before the 19th inst. Mr. Mills, in the Senate to-day, called attention to the fact that Bartholomew and Keith Johnson, an English map publisher and firm, in recent months had followed the United States' contention in laying down the boundary line between Alaska and Canada. He thought that attention to the Imperial government should be called to the matter, as in the past complications had thus arisen.

Several Senators supported Mr. Mills' views. Mr. Scott said he would bring the matter to the attention of the government. A protest has already been made to the British government against the proposal made on behalf of the United States to establish the summit of Mount El. It is feared, however, that the boundary line should be run.

SIR CHARLES BANQUETTED.

OTTAWA, June 9.—The banquet given Sir Charles Tupper to-night by his followers was the most notable party gathering of this parliament. Senator Allan presided. Sir Charles received a magnificent ovation. He said that while the Conservatives were beaten a year ago they received 19,000 more votes than their opponents, and the prospect for the party are very bright. The Liberals have paid their predecessors in office the sincerest compliment of imitation; they have followed the Imperial policy, preferential trade, the national policy, preferential trade, the Pacific coast, depending the St. Lawrence canal, all are parts of the Conservative policy which the new government have accepted.

DR. MOORE MODERATOR.

WINNIPEG, June 10.—(Special)—Rev. Dr. Moore, of Bank street church, Ottawa, was unanimously elected moderator of the Presbyterian General Assembly, which opened here this evening in St. Andrew's church, with a large attendance of delegates. The nomination was made by Rev. Dr. King, of Winnipeg, and seconded by Rev. Mr. Herdridge, of Ottawa. Rev. D. M. Gordon, the retiring moderator, delivered the opening sermon.

DYNAMITE IN CUBA.

HAVANA, June 10.—The passenger train which leaves Havana for Matanzas at 6:25 a.m. daily was dynamited yesterday, about 12 miles from the city by a party of insurgents. According to the official account the object was to deroute about \$9,000 in the express car.

Two engineers, one fireman one conductor and several soldiers were killed and three passengers were severely injured. Fifty-two suffered more or less serious injuries. Simultaneously with the dynamiting a party of 100 men were on the train, seriously wounding a captain.

THE JUBILEE HOSTS.

Colonial Troops Will Form the Queen's Escort in the Parade of the Empire.

Place of Honor Awarded to Canada—The Times on the Happy Arrangement.

LONDON, June 11.—The Times gives this morning the official programme for the procession of June 22, the Diamond Jubilee day. An imposing array of regulars, with bands, and seven batteries of artillery, will form the vanguard. They will cover the royal side-decade, the field marshals and their squerries, the foreign attaches and deputations, the Queen's Prussian Dragoons, the Lord Mayor, 36 English and foreign princes, the Indian escort and Lord Wolsely, the commander-in-chief immediately preceding the Queen, who will have the Duke of Cambridge on his right hand and the Prince of Wales and the Duke of Connaught on her left. Then will follow the goldsticks-in-waiting, the masters of the ceremonies, the Duke of Buckingham, with their squerries and the royal grooms.

A large body of home and colonial troops will come next, the colonial troops forming the Queen's escort. In the separate colonial procession it will be noticeable that the Canadian troops are followed immediately by Mr. Wilfrid Laurier, the premier, who will be the first after the advance guard of the Royal Horse Guards, while a portion of the Canadian troops will bring up the rear.

All the papers publish editorials welcoming the Canadian Premier and delegates, especially Mr. Laurier. The Times in an editorial upon the evident display in the arrangement of the procession, says that the presence of the colonial premiers, headed by Mr. Laurier, a Frenchman and a Catholic, testifies the breadth and solidity of the constitutional freedom British colonies enjoy.

TURKS VERY ANGRY.

LONDON, June 10.—The latest advice from Constantinople deny that the Powers are avoiding direct negotiations between Turkey and Greece. In other respects, however, the aspect of affairs is rather worse than heretofore. It appears that at Saturday's conference the ambassadors declined to accept the Assam Bey or Sir Hamley as the Turkish plenipotentiary. This together with their refusal to discuss the retention of Thessaly, threw the Sultan into such a rage that he immediately summoned a meeting of the special commission appointed to consider the terms of peace. All day Sunday he was in telegraphic communication with most of the European capitals, and in the evening he gave stringent orders to the Grand Vizier, who immediately resigned.

The Turkish ambassador at very angry at the alleged brusque declaration of Sir Philip Currie, the British ambassador, that England will never permit Christians to be Turkish plenipotentiaries. It is also stated that the German ambassador is very much disconcerted to find Count Nelidoff, the Russian ambassador, supporting Sir Philip Currie in this respect, though it is alleged that Germany will soon see the advisability of falling into line with the other Powers. The correspondent of the Daily News at Constantinople, under date of Wednesday, says: "The session of the peace conference called for to-day having been postponed, it is believed that Turkey is prepared to evacuate Thessaly, except the large tract north of the river Peneus, which includes Tyrnovo, Milos, Pass and other important points."

HAWAII WILL PAY JAPAN.

SAN FRANCISCO, June 10.—Advices from Honolulu, per steamship Australia, are to the effect that the Japanese minister, Shimamura, has changed his attitude to some extent since the last advices from the Hawaiian capital. Several conferences have been held between the Japanese and Hawaiian ministers, with the result that the Japanese representative made proposals of a much more reasonable nature than those first offered. Originally Japan demanded an indemnity for the total number of immigrants turned away from the islands. Now, however, it is understood that the minister is willing to accept damages only in such cases where the immigrant was illegally rejected.

This proposition the Hawaiian government has accepted. The original demand was \$20,000 yen for each man refused landing. The Hawaiian government admits that among the thousand or more immigrants, a few errors have been made, and if any such appear upon thorough investigation the government expresses a readiness to pay for such mistakes upon the part of its officials.

MANITOBA MATTERS.

WINNIPEG, June 10.—(Special)—Mrg. del Val, papal delegate, concludes his visit to Manitoba to-morrow, when he departs for Toronto. In a private interview with a leading politician His Excellency expressed himself on the school question, and stated that he was anxious for peace. The delegate was engaged all this morning receiving callers at his rooms at the Manitoba, a larger number calling to see him than at any other time so far. This afternoon he visited St. Boniface hospital, and he dined at Government House to-night. Contractors are busily engaged loading the great granite monuments in cement, tennis, groceries, etc., for early construction work on the Crow's Nest Pass railway.

At the Masonic Grand Lodge meeting this afternoon Thomas Robinson, of Winnipeg, was elected Grand Master, and Mr. Murphy, of Mooseomin, Deputy Grand Master, both by acclamation. A city paper says that a third party of gold seekers is being organized for the Yukon gold fields. A gentleman here is looking after the interests of a number of capitalists of Toronto, who are putting up the necessary capital. The men en-

"FATTED LIKE HEIFERS"

Washington, June 10.—During the debate on the tariff bill yesterday Senator Mills turned his attention to the daughters of millionaires, "fatted like heifers," and sent abroad in quest of titles. When the vast fortunes had been built up by unjust taxation, then, he said, these daughters were "put on the market, hawked and peddled, sold for princesses and duchesses and countesses and marchionesses and other 'esses," and here was congress legislating the money to pay for these trips abroad. If the American people accepted this condition, then they were not worthy of self government. Mills gave tables showing the vast fortunes of a few individuals, who were, he said, to receive the benefits of this bill.

CAN THESE THINGS BE?

MANCHESTER, N.H., June 10.—The Dominion government has organized a French Canadian colonization society for the relief of distressed French Canadians in New England. The first effort made by the society was the founding of a branch in this city to-day by Dr. Brisson, of Montreal, who will open branches in Bangor, Boston, Lowell and Lawrence. This is a result of the many appeals made to the Dominion government by the Canadians, thousands of whom are suffering poverty in nearly all the New England manufacturing towns. To all who go home the Dominion government will furnish transportation and will give each man 100 acres of wood land and will pay from \$500 to \$1,000 for clearing it.

RELIGION IN SCHOOLS.

LONDON, June 10.—The Anglican Synod of Huron has passed a resolution declaring it essential, both for the community and the children, that there should be religious instruction in the primary schools, and that half an hour a day should be given to it; and that where this is impossible provision should be made in the course of studies for teaching the scriptures, the creed, the Lord's prayer and the ten commandments.

SEALING CLAIMS COMMISSION.

(From Our Own Correspondent.) OTTAWA, June 11.—The Sealing Sea claims commission meets in Montreal next Wednesday. It is understood that arguments will not be heard at this meeting and the proceedings do not promise to be very lengthy. Notice has been given by counsel for the United States of a motion to permit the commission to put in further evidence, but this motion will be strongly opposed by the Canadian representatives. It is expected that the final meeting, hear arguments will be held at Halifax some time in August.

EXPORT DUTY ON ORE.

OTTAWA, June 11.—A large delegation representing the lumber interests of the Dominion met Sir Richard Cartwright and Messrs. Fielding and Paterson last night. They asked the government to take the power to put a duty of \$2 per 1,000 on pulp wood and logs, on account of the United States imposing a \$2 duty on white pine. Mr. Fielding announced in the house to-day that the government would ask power for the Governor-General-in-council to put in force by proclamation an act imposing an export duty on logs, pulp wood and certain kinds of ores.

The Horseshoe Worm.

LOCKPORT, N.Y., June 10.—The horseshoe worm, which has been found in different sections of the country, has made its appearance here. It is of a whitish color, the thickness of a horse-hair, and six or seven inches long. No damage to vegetation has been reported thus far.

Mr. Durrant's Luck.

SAN FRANCISCO, June 10.—Theodore Durrant, the murderer of Blanche Lamont, was reprieved to-day. Governor Budd decided upon this course in order to settle the question of the right of the federal courts to interfere in the execution of the sentence imposed by the State court. He named July 9th as the day upon which the sentence is to be carried out.

Milling Plant Barred.

CARLETONVILLE, Ills., June 9.—The St. Louis Milling Co.'s plant, owned by Samuel Cupples, of St. Louis, was barred to-day, loss, \$100,000.

Remedies heretofore employed proved most discouraging to the sufferer. Oriental Pills cure from the first dose and give unqualified satisfaction to the patient. Write for a free trial to: P.O. Box 107, Toronto, Ont.

ONTARIO SUPPLY CO.

77 Victoria St. Toronto, Agents for Canada. HALIFAX FLURRIED

HALIFAX, June 9.—Referring to a Washington dispatch announcing that the U.S. cruiser Marblehead had sailed for Nova Scotia waters to prevent Gloucester fishing vessels destroying the nets of fishermen along the Nova Scotia coast, the Evening Mail of this city says: "The dispatch indicates an important move on the part of the United States government. While the ostensible reason for the dispatch is to prevent the Marblehead's protection of Canadian fishermen, the opinion is generally expressed that the real object of the cruiser's extraordinary mission is to prevent possible repetitions of the Frederick Goreing seizure. "With a United States warship cruising in Nova Scotia waters, the international situation respecting the three-mile limit becomes almost a delicate question. How far the Marblehead would interfere, if at all, with the seizure of a Gloucester vessel found fishing inside the three-mile limit is a question the solution of which can only be imagined. It may be that Vice-Admiral Eskrine may seek to detain a warship to keep the Marblehead company. As compared with the Crescent, the United States cruiser is not in it. The Crescent is a service deck-protected cruiser; she is twin screw, fore and aft rigged, 7,700 displacement, 32,000 horse-power, 19 knots speed. The crew of the Crescent outnumber the Marblehead's crew nearly two to one. The Marblehead is a 17 knot vessel, 5,400 horse-power, and is not nearly so well armed as the Crescent."

METHODIST CONFERENCE.

WINNIPEG, June 11.—(Special)—Rev. Thomas Lawson has been elected president of the Manitoba Methodist Conference. At the meeting to-day a resolution was introduced by Mr. Waring Kennedy condemning the practice of using separate communion cups at the holy sacrament.

MAY HAVE BEPENTED.

TORONTO, June 11.—(Special)—The Mail-Express editorially calls on the government to say if Charles Notin and Maxime Lepine, who have been appointed to positions in the Northwest, are the same who were members of the Riot prevention government, while the men displaced were active in the suppression of the rebellion.

Look Uses GOLD Extracts.

A Weak Man Is Only Half a Man.

TO HIM THE JOYS AND PLEASURES OF this world are dull pastime. His sense of enjoyment is dulled by a weak, depressed nervous system; his intellect is slow, his memory poor. It is evident that he lacks vigor, force, and electricity. He is easily subject to indigestion, nervousness, and depression. He cannot throw off the impurities which accumulate in his system and stomach.

R. SANDEN'S ELECTRIC BELT Nature's cure for weak men. It saturates the body every day with a volume of animal magnetism and restores the power of the nervous system. It cures—why, there is not a man in this state who knows not a cure by his famous belt.

"The Belt I received from you I must say has done me a great deal of good. I feel stronger day than I did three or four years ago. My back is firm and strength increasing. The pain bearing your Belt," writes H. Vancouver Island, B.C., March 9, 1897.

MEN. The fact that here is a cure for you. Surely no element of strength. Every man should be treated physically. Regain your health. Try book by Dr. Sanden. "Three Classes of Men." Free. Address:

R. SANDEN, 441 Washington Street, PORTLAND, Oregon. Shipped to this Province.

PERRINS' PEPPERS SAUCE. It is NOW PRINTED IN BLUE INK DIAGONALLY ACROSS THE SIDE WRAPPER Bottle of the WESTMINSTER CESTERSHIRE SAUCE.

FOR THE COLONIST. A. B. Clabon is organizing a party to go to the summit of the Red Mountain on Jubilee day, June 22, and build a big bonfire.
