PIONEER RESIDENT DIES OF INJURIES BY SENATOR COX

Mrs. Joseph Wriglesworth Expires at the Jubilee Hospital

(From Friday's Daily)

A pioneer resident of Victoria passed away at the Royal Jubilee hospital last evening shortly after 6 o'clock in the person of Mrs. Joseph Wriglesworth, who succumbed to injuries received on Sunday afternoon last as she was driving along the Saanich road. The late Mrs. Wriglesworth was shown from the carriage in which she was seated near the brick works on the Saanich road. A driver driving a wagon ran into the carriage in which she and the frightened animals plunged from the carriage in which she was thrown upon the roadway. She was picked up and immediately hurried, in a passing automobile, to the Royal Jubilee hospital, where every attention was given her by Dr. Frank Hall, but her injuries proved too serious and she passed away last night. The late Mrs. Wriglesworth had been a resident of Victoria since 1858, and was known to a large circle of friends, and to her cheerful disposition and kind nature endeared her to a marked degree. She was well known to all the old residents of Victoria and was universally esteemed as one of the most unselfish and kindest of women. Her death will be keenly felt by a host of friends.

She was a sister of Mrs. Langley, wife of Chief of Police Langley, and leaves to mourn her death a family of six children, four sons and two daughters. The sons are Charles, Edward, Walter and William. Walter and Edward are present at the funeral. The daughters are Mrs. Rhoden and Mrs. Chadwick. The late Mrs. Wriglesworth was a daughter of the late Smith Allatt, who came to British Columbia in the year 1840. The funeral will take place on Sunday afternoon.

ALASKA CONCERNS SUFFER BECAUSE OF INCREASED BUSINESS OF B. C. RIVALS

The Alaska Smelting & Refining Co. is controlled by the same interests as the Brown Alaska company, which has been appointed receiver for the liquidation and a receiver has been appointed accordingly to now which has been received in the city. The latter company is registered as an extra-provincial company and owns the Outside's Group and other mineral claims at Maple Bay on the Port. The company's difficulties are due to financial troubles in the east as the mines and smelters have until recently been operating satisfactorily. Recently the unprecedented activity of the smelters on Vancouver Island and the amount of coke consumed by them has prevented the Wellington Colliery company supplying coke to the smelters, so that they have been forced to close down, and the Alaska Smelting & Refining Co. is now in a state of liquidation.

The last named company's smelter at Hazelton, Prince of Wales Island, southeastern Alaska, has been operated at short intervals during the past 21 months. It was built for the company by the late Mr. J. B. Reynolds, metallurgist, who managed it until last spring, when he left with his family for Sweden. The smelter, which is well known British Columbia smelter, is owned and managed by J. B. Reynolds, metallurgist, who managed it until last spring, when he left with his family for Sweden. U.S. CHADWICK HARBOR WORKS WILL BE NEEDED

J. J. Shallcross Speaks of Requirements of Port for Increasing Shipping

(From Friday's Daily)

J. J. Shallcross, of Shallcross Macaulay & Co., in an interview yesterday regarding the demand for new harbor facilities to cope with the requirements of the future occasioned by the increasing tonnage and prospect of great business development, to further which movement a special committee will probably be appointed at the regular meeting of the board of trade today, said: "In the report of the recent annual meeting of the C. P. R. company it was stated that after the vessels would be built for the Pacific trade of the liners Empress of Ireland and Empress of Britain brought here from the Atlantic. It is quite evident that when vessels of this size are coming to the Columbia our present harbor accommodation will be inadequate. Increased accommodation will have to be provided, and, if Victoria desires to be a port of call for such vessels, it is time that we were up and doing. The inner harbor was excellent in the old days, and is even now a charming harbor for coastwise trade, and the outer wharves have been of inestimable value in providing accommodation for ocean traffic, but at the same time, when even the present accommodation at the outer wharves will be inadequate."

"It seems to me essential in the interests of Victoria as a shipping port that steps should be taken at once to provide the accommodation which will be demanded by the trade passing up the straits within the next five years. It seems to me that this is an undertaking which can be best handled by the city in combination with the Dominion government. The federal government has assisted the development of eastern ports by granting loans and in other ways, and there is no reason why the federal government should not be asked to give similar assistance on this coast. It is possible, however, that this could be more readily obtained by a public corporation than by a private company."

"If such a scheme is approved as the creation of a breakwater in the division of Brochite lode with wharves along the Dallas road, it is important steps should be taken at an early date, otherwise the increased accommodation which will soon be necessary will not be ready when demanded."

"In any such work it is important that railway companies should be provided so that cargoes may be transferred directly from the ship's holds to railway cars. As to how the facilities are to be provided is a matter for discussion."
