Incoming passengers on trains from Mexico have varied stories to tell regarding the outbreaks. One passenger today told a story that there was treason within the ranks of the Mexican army and that nineteen officers had been shot by order of the Mexican authorities.

San Antonio, Texas, Nov. 23.—Francisco I. Madero, who is leading the revolution in Mexico, completed his plans for the political outbreak since his arrival in this city on October 7. He left here the night of November 15 and crossed the Rio Grande in his own rascals in Mexico Sunday morning, November 20, when he took command of 800 men well armed.

Immediately upon his arrival in San Antonio last month, he was surrounded by revolutionary leaders until he left the city, although he declined war-

Executed in London at 9 O'clock This Morning for the Murder of His Wife, Belle Elmore Crippen

John Ellis, assistant executioner, yesterday prepared the gallows from which Crippen dropped. Through a peep hole he looked Crippen over to determine how far he should have to fall to break his neck.
