BUTCHER WAGON BADLY SMASHED

Hit By Ocean Limited Friday Evening. Narrow Escape From Fatal Accident.

Andrew Street machine was the cause of a near tragedy on Friday evening last when the west bound Ocean Limited collided with a butcher wagon on its way to the station. The collision occurred at the intersection of the street and the tracks, and the wagon was badly smashed.

The driver of the wagon, Jack Stacey, was driving on the left side of the road when he was struck by the train. The wagon was carrying a large quantity of meat, and the collision caused a great deal of damage. The driver was not injured, but the wagon was completely wrecked.

INVESTIGATING JOE ROY'S SHOOTING

Many Witnesses Heard at Police Court This Week—Adjourned Until Wednesday

An investigation into the shooting of Joseph Roy, which tragedy took place at the house of Benjamin Foster, was held on Tuesday at the Police Court. The case was adjourned until Wednesday for the hearing of the remaining witnesses.

The ten witnesses who gave evidence at Tuesday's hearing were: Dr. Ellis of Jacques River, and Peter W. Hamilton, Frank Lapointe, John McNeil, Alex. Hickey, Aney Bigney, Fred Lapointe, David McIntosh, David Henderson and Joseph Lapointe of Charlo. With the exception of Dr. Ellis and Peter Hamilton, all the other witnesses were members of various hunting parties which visited the district in which the shooting occurred between Sept. 22nd and Sept. 25th.

No other important evidence was elicited from any of the witnesses, and the investigation was adjourned until Aug. 21st, when new witnesses will be brought forward.

FOUND PLAYING WITH BEARS

Four Year Old Child Cried When Playmates Were Chased Away.

Kane, Pa., Aug. 6.—After being missed by his mother, Donald Smith, four year old, was seen playing with two wild bears recently. She was attracted to the orchard by Donald's shouts and laughter and was amazed to find him trying to lead two bear cubs to the house. The cubs, apparently, were having as good a time as the boy, and all three of them tumbled about on the ground, while the mother of the cubs complacently ate apples under a tree.

Mrs. Small called to her husband and he cried frightened the bears, and she cried frightened the boy. The boy was then taken to his mother's house, and the bears were chased away.

MINING HAZARDS DAWN IN GASPE

Lead and Zinc Industry Operating Under Great Natural Difficulties

Many obstacles are met with in lead and zinc industry in Gaspé, Quebec, where the work of developing a mine is a task of great difficulty.

The department that has entered for the last two or three years in the metal industry was also an unfavorable factor in the progress of the work, which, coupled with the lack of transport facilities, served to discourage the promoters of the undertaking. The Department of Mines of the Province of Quebec is in touch with the situation, and although it is aware of the value of the undertaking, from an economical point of view, yet in a report published by the Department of Mines for 1922, it points out that studying general conditions, the immediate success of the work was impossible—Quebec Telegraph.

IMPROVEMENTS FOR THE GRAPHIC

Will Be Issued in Twelve Page Form, With Many New Features

Beginning with this issue the Graphic will be issued in a twelve page form, with many new features. The new format will be more convenient for the reader, and will contain more interesting and useful information.

C.N.R. AND C.F.D. PLAY DRAW GAME

Best Game of Season Said to Have Been Played Last Friday Evening.

There were on hand to see the best game of the season between the C.N.R. and C.F.D. last Friday evening witnessed a contest which will be remembered as one of the best exhibitions of baseball in this season's local league series.

The game was a close one, and the C.N.R. was in good form and put up a stiff battle for the evening. The C.F.D. was also in good form, and the game was a very interesting one. The C.N.R. was in the lead for most of the game, but the C.F.D. was able to tie the game in the ninth inning.

GOOD N.B. APPLE CROP EXPECTED

All Varieties Coming Along Well And Conditions Are Excellent.

Fredericton, Aug. 16.—The provincial government at a session today decided to make a temporary reduction in the stumpage rates on crown lands for the year which will end on August 1, 1923.

The reduction will be from \$5 per 1,000 feet to \$4 per 1,000 feet. The government hopes that this will encourage the lumber industry to clear up the land more rapidly.

The government also decided to make a temporary reduction in the stumpage rates on crown lands for the year which will end on August 1, 1923.

The reduction will be from \$5 per 1,000 feet to \$4 per 1,000 feet. The government hopes that this will encourage the lumber industry to clear up the land more rapidly.

The government also decided to make a temporary reduction in the stumpage rates on crown lands for the year which will end on August 1, 1923.

STUMPAGE CUTS ARE ANNOUNCED

Measure of Encouragement Given Lumber to Operate This Winter.

Fredericton, Aug. 16.—The provincial government at a session today decided to make a temporary reduction in the stumpage rates on crown lands for the year which will end on August 1, 1923.

The reduction will be from \$5 per 1,000 feet to \$4 per 1,000 feet. The government hopes that this will encourage the lumber industry to clear up the land more rapidly.

GOOD CATCH

The Caracut fishermen are reported to have made very large catches of cod-fish this season, and persons familiar with the fish business say codfish ought to be much cheaper this fall than last.

LITTLE BOY EATEN BY BEARS

Sad Story Comes From Northumberland Co.—Boys Were Picking Berries.

The report of a peculiarly and occurrence has been received from Portage River (Algonquin) the details of which are as follows: Two little boys were playing in the vicinity of their home, and discovered what they supposed was a small black lamb. One of the boys picked it up and took it home, while the other went home to tell their mother of their find. The mother accompanied him to where he had left his brother, but the latter had disappeared. After a search had been made, the bones of the little fellow were found some distance away from the spot, and it is supposed that it was a bear cub that the mother-bear had come in search of her offspring with the above sad result—Commercial.

CARD OF THANKS

Mrs. John Allen and family desire to thank their many friends for the kindness and sympathy shown them in their recent sad bereavement.

GOOD N.B. APPLE CROP EXPECTED

All Varieties Coming Along Well And Conditions Are Excellent.

Fredericton, Aug. 14.—The horticultural division of the department of agriculture reports that the apples of New Brunswick are coloring very rapidly at the present time. That fact denotes early maturity. The season of 1921 was one of the earliest in years, the reason being the absence of rain and the long hours of sunlight. This summer conditions have been just the opposite, there being heavy rains and the hours of sunlight were fewer than ordinarily is the case. It would seem that the factors which enter into the early maturing of an apple crop are not always the same.

Early varieties of apples are now on the local market, but none have been exported so far. Crimson Beauties, Transparentes, Duchesse and similar varieties are in evidence everywhere. There has been heavy production in all early varieties of apples, and autumn and early winter apples also will be a good crop. Winter varieties will be medium. No further reports of scab on the Fameuse and McIntosh Reds have been received. Subscribe for the Graphic, \$2.00 per year.

YOUNG LADY SWAM MILES

Quebec Girl Swam Across Lake St. Joseph, in Less Than Four Hours.

Que. Aug. 12.—A long distance swim was accomplished yesterday afternoon at Lake St. Joseph, when Miss Viola Sisson, of this city, swam the seven and a half miles across the lake. Miss Sisson started from the upper beach, and swam to the Lake St. Joseph Hotel, doing the distance in three hours and forty-five minutes.

The little seventeen-year-old mermaid, used the breast stroke the entire distance. The water was cold, and on the upper lake the passage was very rough, but she showed her gameness all the way and never gave up the struggle.

A large crowd had assembled on the shore near the hotel, and when she reached her goal she was given a great ovation, as this is the first time that a girl has accomplished this crossing. Miss Sisson holds the bronze medal of the Royal Life Saving Society.
