The executive committee of the city cou cil meets this afternoon. All the fire insurance offices of the city will be closed on Easter Monday. Last week the city carriers delivered 146,119 letters and 39,087 newspapers. Building permit granted to Thomas Pells for a three-story brick factory in Johnson's lane, cost \$4000.

Ald, Millichamp entertained the bers of the waterworks committee and a few city officials at Thomas' last night. To-day is the last day for securing seats for the Queen's Own, band concert at Shaftesbury hall to-morrow night. The plan is at Suckling's.

Upper Canada college closed for the Easter holidays yesterday. The school will resume in a week. There was a happy crowd left on the several trains.

The postoffice will be open to morrow from 8 a.m. to 10 a.m., and from 3 p.m. to 4 p.m. There will only be one delivery by the letter carriers—in the morning. The same hours will be observed on Easter

When J. M. Proctor, jeweler of 272 Yonge street came down into his store yesterday morning he found that bur-glars had been there during the night and earried off several hundred dollars' worth

John Woorster, a shoemaker who worked for John Mellon of Spadina avenue, was sent to jail for three months yesterday by Magistrate Denison for robbing his employer. He was in the habit of carrying away made-up goods from the

Ten drunks in the police court yesterday.
John Perry, 16, got five hours in the cells for stealing old iron from the Grand Trunk yards. Joe Carroll, 12, same offence, dismissed. Thomas Buckley was ordered to destroy a vicious dog or pay \$10 fine. Thomas Woolly was also ordered to destroy a vicious dog. Thomas O'Brien, striking Mary O'Brien over the head with a chair, fined \$30 and costs or 60 days. A number of cases were enlarged.

The conference in connection with the synod of Toronto and Kingston met at Belleville on Monday night. Interesting addresses were given by Rev. Mr. Houston, Brock street church, Kingston; Rev. D. Mitchell, Rev. P. McF. Macleod, Toronto; Rev. Mr. Wishart, Madoc; Rev. D. J. Macdonnell, Toronto, and others on consecration in the life and work of ministers and members.

A Baptist Boom.

Five were recently baptised at Mount Bridges. Five more at Guelph on Sunday and very much scandalized at the daring night last. Eight the same evening at robbery of Dr. Bull Run Russell's wedding Vittoria. The week before five at Strath- presents. Every one knows that the cele-

A New Felt Hat for Gentlemen.

Every season introduces some changes in the fashion of gentleman's hats. The spring shapes are high round crown with brims set partly flat and worn in black and brown. Those new styles can be seen at Dineen's hat store, corner King and

Medical Notes.

The Texas Courier-Record of Medicin says that certain elderly colored women have "a habit of chewing pius as a solace for trouble." The occasional swallowing of one of them does not appear to be attended with danger.

"Will you have an orange or a fig?" in quired Dr. Jackson of a fine little bo somewhat under the weather. "A fig," answered the child with alacrity. "No fever there," said the doctor, "or he would certainly have said an orange." The Gazette Medicale de l'Algerie calls

attention to a great number of facts which appear to show that cider drinkers are not troubled with stone, and that patients naving this affection are either cured or greatly relieved by that beverage.

The British Medical Journal says that it is very easy to find organisms in any disease if the proper methods of preparation he observed, but it is very much more difficult, and far more important, to establish that there is any connection between the organism and the disease.

According to the new British Medical Directory the whole number of doctors in Great Britain is 25,038. Of these 4417 are in London, 11,775 on the provincial list, 2206 in Scotland, 2430 in Ireland, 1717 reside abroad and 2493 are in the army and navy, the Indian medical service

Dr. Gross is quoted in the Philadelphia Clinical Record as saving that if the brain is penetrated by a ball, the rule to let it alone is an exceedingly bad one; investigation has shown that the brain can be handled to a considerable extent with impunity, and there is a great future for operations within the cranial cavity.

Dr. Gibbons in the Pacific Medical and Surgical Journal cites a case of hypochon-cria in which a farmer imagined his nose to be a bundle of hay. He took great care not to go near a horse or cow lest his hay nose should be destroyed. Men are more likely than women, says the doctor, to have hypochondria, though women have hysteria oftener than men. The diseases are closely allied in their origin and

or removed from the mucous tissue.

Some time since a well known physician of forty years standing, after much experimenting, succeeded in discovering the necessary combination of introduced in the future there would be a progression in the construction of the human body that would give birth to greater intelligence than was possessed by the sages of autiquity.

Some time since a well known physician of forty years standing, after much experimenting, succeeded in discovering the necessary combination of ingredients which never fails in absolutely and permanently erad sating this horrible disease, whether standing for one year or forty years. Those who may be suffering from the above disease should, without delay, communicate with the business man agers, Messrs. A. H. Dixon & Son. 305 King and treatise free by enclosing stamp. Prof. Clelland of Glasgow university aid in a recent lecture on terminal forms

DR. M. SOUVIELLE'S SPIROMETER

During the past five years thousands of atients have used my medicines and treatment by the Spirometer, and the result shows that every one who has properly followed out the instructions has been benefited and a larger percentage cured than by any other treatment known. En-

dent of Three Rivers, P.Q., now residing at Glenfield, N.W.T., to her sister, a well- which I shall presently refer, which, I known Montrealer:—"The weather here is just beautiful—quite like May weather with you. There is not a particle of snow, ner of appointing the controlling body.

e gave it an accidental squeeze, causing Rev. Mr. Wishart, Madoc; Rev. D. J. Macdonnell, Toronto, and others on consecration in the life and work of ministers and members.

Tuesday's session was devoted to a discussion on "The best method of ascertaining the state of religion in our congregations," which was introduced by Rev. Mr. Macleod, Toronto. "What place should exposition of the scriptures hold in public worship?" was treated by Rev. J. Somerville.

Bull's Run Russell's Jewels. Society in London is somewhat amused Vittoria. The week before five at Strathroy. As a result of special services thirty-nine have recently been immersed at Sarnia. At Stratford five were baptized on Sunday night, making thirty within a few weeks. Over fourteen have been received by the parliament street church within three months. Over thirty have been baptised at Hagersville, the result of special services there. At Waterfort, near by, the number is twenty. Four at Boston, also in that locality.

These wedding gifts, of the value at least of \$5000, were left during the honeymoon in the safekeeping of a friend residing in Eaton square, London. One day shortly after a porter, wearing the badges of his respectable trade upon cap and collar, rolled a cart to this lady's door and explained that he was sent by Dr. and Mrs.

Parodying Hymns. A local newspaper very properly co onns the parodying of a popular hymn in satirical political article published in a daily paper. But the paper which conmns the parody as "verging on blasis guilty of a worse offence by phemy, is gunty or a notes of parodying in the same number the words of our Saviour, "The harvest truly is plenteous, but the laborers are few." Grip teous, but the laborers are few." Grip turns this into a joke so, "The lucre truly is plenty, but the savings banks are few.'
To parody sacred poetry written by a fel-low-creature is a mild offence indeed compared to getting a laugh out of the words of Jesus Christ. There is sadly too much of this parodying of scripture in Grip and other comic papers. The trick is only fit for barroom loafers, as it is only up to their intellectual level. their intellectual level.

For durability, style and fit the shirts made by Quinn, the shirt-maker, Rossin house block, York street, stand pre-eminent. We put new collars and cuffs on gentlemen's shirts in a workmanlike manner at very moderate prices.

Mrs. Langtry Captures Two Scalps. From the St. Louis Post-Dispatch.

Mrs. Langtry arrived yesterday with er company in a special car from Jacksonille, Ill., after a week of one-night enagements at small towns. One of Mrs. angtry's fancies while in Canada was to ollect Indian curiosities and relics, and er car contains a large assortment of them as the result of her labor. In the collection are furs, beads, moccasins, blankets, tomahawks, saddles, pipes, and an Indian canoe, and most treasured of all, two real scalps to wear in her belt when she gets back to England as trophies of her Ame

What is Catarrh From the Mail (Canada) Dec. 15.

From the Mait (Canada) Dec, 16,
Catarrh is a mreo-purulent discharge caused by the presence and development of the vegetable parasite ameba in the internal lining membrane of the nose. This parasite is only developed under favorable circumstances, and these are: Morbid state of the blood, as the blighted corpuscle of tubercle, the germ poison of syphilis, mercury, toxemea, from the retention of the effeted matter of the skin, suppressed perspiration, badly ventilated sleeping spartments, and other poisons that are germinated in the blood. These poisons keep the internal lining membrane of the nose in a constant state of irritation, ever ready for the deposit of the seeds of these germs, which spread up the nostrils and down the fauces or back of the throat, causing ulceration of the throat, up the custachian tubes, causing deafness, burrowing in the vocal cords, causing hoarseness; usurping the proper structure of the bronchial tubes, ending in pulmonary consumption and death.

Many attempts have been made to discover a cure for this distressing disease by the use of inhalants and other ingonious devices but one of these treatments can do a particle of good until the parasites are either destroyed or removed from the mucous tissue.

Some time since a well known physician of forty year's standing, after much experiment.

THE BAPTIST COLLEGE.

SENATOR MAMASTER'S REASON FOR ITS CLOSE CORPORATION.

le Would Prefer the Denomination to Manage it—But it Must Teach Regular Raptist Doctrine. To the Editor of the Canadian Baptist.

than by any other treatment known. Encouraged by this fact, the great and increasing demand for my medicines, and finding that many who could be cured are financially unable to procure the Spirometer, I will give the Spirometer free to any one, rich or poor, suffering from catarrh, catarrhal deafness, bronchitis, asthma, weak lungs or consumption who will call at 173 church street, Toronto, and consult the surgeons of the International Throat, and Lung Institute, the medicines alone to be paid for. Everyone can now afford to take the treatment, and the prejudiced or sceptical can afford to test the merits of the Spirometer and medicines prescribed by the surgeons of the Institute, which we claim is enring more diseases of the air passages than any other treatment in the world. Those who cannot see the surgeons personally can write to 173 Church street Toronto for particular that my personal preference was in favor of cannot see the surgeons personally can write to 173 Church street, Toronto, for particulars and treatment, which can be sent by express to any address. Dr. M. Souvielle, ex-aide surgeon of the French army.

be further from the truth; for the fact is that my personal preference was in favor of placing the college under direct denominational control, and the Rev. Dr. Castle, with whom I conferred on the subject, was strongly in favor of that course being taken. Much time was spent, and much The following is an extract from a letter trouble taken, in endeavoring to devise a written 28th March by a lady lately a resi- plan whereby such control might be secured, without sacrificing considerations, to

known Montrealer:—"The weather here is just beautiful—quite like May weather with you. There is not a particle of snow, and some people near us are actually sowing. We have about 30 acres ready for sowing. There is still six yet to backs set. A. (her husband) will sow about the 10th April, while farms around Three Rivers won't be as forward six weeks hence. This is really, without any exaggeration, the most charming climate. We have had spring for the past month, with all doors and windows open, and if the past winter is a specimen we would never wish for a better climate—so little snow and only an occasional day of really cold weather."

Attacked by a Game Cock.
From the Guelph Mercury.

A breeder of fancy game had rather a strange encounter the other day. While admiring the beauty of one of his pullets he gave it an accidental squeeze, causing

intended to last for all time to come. Not content with our own opinion, and not willing to relinquish the idea of denominational control, unless compelled to do so, we consulted the best legal talent, not only within but outside the denomination in Toronto, the result being that, having reference to our polity of church independence, and to the existing status of our denominational organization, it was found impossible to carry out the objects in view by means of the desired representative control.

Chief and first among these objects I may mention that every safeguard should

may mention that every safeguard should be provided to prevent the means about to be furnished for the erection of the college, as well as those intended to be given as an endowment, being used at any future time for the propagation of any other than the distinctive principles of the regular baptists. Second, that there should be no risk or complication as to the title of the college in any property it might become college in any property it might become possessed of, no question as to the validity of its acts, and no room for disputes, either filling vacancies in the controlling body. It will be observed I do not concern myself at all, as to whether these statements make for or against the arguments of those who are agitating for a change of polity. Baby Coons.

In natural history it is freely stated that raccoons will not breed in captivity. But the contrary has happened in this city. A cooness owned here for over a year past has just presented her proprietor with four coonlings.

Tolled a cart to this lady's door and explained that he was sent by Dr. and Mrs. Russell for the boxes in her charge. Alas, for unsuspecting womanhood? The lady gave up every bit of property entrusted to her by bride and bridegroom. A day or two elapsed without message. Reason of the silence—they had not reached England. The plausible porter was a thief.

The plausible porter was a thief. any antipathy to a self-perpetuating board of trustees. The latter is no new theory, Many institutions of the kind are managed and, I think, well managed in this way. Further, it is well known that there are

sources of weakness in the representative system as applied to educational institutions, and that there are in our denomination in Canada elements which must necessity. sarily have enhanced the dangers insepa able from the carrying out of that system under congregational polity. What looms up, in my estimation, far above this and all other considerations, so far as the future of the college is concerned, is the necessity for preserving inviolable the doctrinal standard; and in view of all the new and strange theories that are being constantly advanced in quarters where they are least expected, it may be advisable for the board, of which I am only one member to see of which I am only one member, to consider whether any safeguards in this direction can be devised in addition to those

originally provided.

In conclusion, permit me to add, that much as I should regret any disposition to criticise, from an adverse standpoint, an institution which I was fain to believe had then received by the description with een received by the denomination with some measure of enthusiasm, I do not dep-ecate fair discussion of the course that has pursued. All I ask is that it be fair and that my position in reference to it be not misrepresented. Should the result be a feasible suggestion for bringing the college into more immediate and vital connection with the churches, I see no reason for supposing that the board which now controls the institution would deal with

the subject otherwise than in a proper spirit.

WM. McMASTER. —Why suffer from weak nerves, want of appetite, and general debility? letting the loss of sleep and rest impoverish the system and thin the blood, when such a real meritorious remedy as Northrop & Lyman's Quinine Wine may be had at any drug store. This article is recommended by the highest members of the medical faculty in cases of indigestion, general debility, loss of appetite, and nervous affections of all kinds. It is also specially beneficial to children and delicate females, and to business men, students, and those who have much brain work. We would say, Never be without it. It will strengthen you, keep your your system in regular order, and enable you to successfully grapple with the work you have to do. It is pleasant to the taste, and contains nothing injurious to the most delicate constitution. Remember to ask for the Quinine Wine, prepared by Northrop & Lyman Toronto, and we are sure you will be satisfied that you have full value for your money. Druggists sell it.

Forcing the Season.

"Yes," said the caterer, "business is little dull at present. The entertainmen season is closing, and it is sort of between hay and grass with us. We needn't be idle however, for we can employ our spare time in putting up summer goods."
"Indeed. I didn't know that there was anything in your line that you could manufacture so far in advance."

"Oh, yes; we can put up sandwiches fo summer picnics." The reason why "Nonsuch Washing Compound" should be used in preference to all other washing preparations. First, It is perfectly harmless. Second, It saves more than half the labor. Third, It is the cheapest in the market. Many more could be given but this should be sufficient. For sale by all grocers. Lowden & Co., Wholesale, Agents for Toronto.
