Never Seen a Threshing Machine as Nearly Perfect as the "New Medel."

Cooksville, Dec. 30th, 1882.

To the Editor of the Express, Oukville:

Dear Sir. We, the undersigned farmers and old threshers, being desirous of advancing the interests of our farmer friends, take great pleasure in calling their attention to a new threshing machine which we have had the satisfaction of seeing work. It is called the "New Model" Vibrator and was made by the Joseph Hall Manufacturing Co., of Oshawa. We have had much experience in threshing, separating and cleaning grain, but we have never seen a threshing machine so nearly perfect as the "New Model." It runs very smoothly, without scarcely any vibration, every part being so carefully and evenly balanced. It threshes rapidly, in fact it can take all the straw men can give it. It feeds very easily. It separates the grain most thoroughly from the straw. In this respect it is remarkable, and, finally, it cleans the grain more perfectly than we have ever seen it done heretofore. The manufacturers claim that it will thresh two thousand bushels of wheat without wasting more than a bushel, and we believe that the machine will fulfil

St. Mary's, Dec. 13, 1883.

St. Mary's, Dec. 13, 1883.

Model "Vibrator is the best thresher, separator and cleaner made in the country. The Machine is well made and well finance and threshed for me four days this winter, and gave me entire satisfaction. With the machine is well made and well finance and threshed for me four days this winter, and gave me entire satisfaction. With the construction of the screens, vibrating motions and other attachments, I think it of this machine. I am's Sir, yours will construct on the save sent you. Words fail to express our surprise at the work she does, she cannot be beat. We have used a number of machines, and consider the New Model ahead of them all, and would recommend intending purchasers to examine the "Model" before purchasing. Yours truly,

JOHN LANE,

JAMES MOORE.

Out the least hesitation, that the "New Model with the country. The machine is the best thresher, separator in the country. The machine is well made and well finance and threshed for me four days this winter, and gave me entire satisfaction. With the construction of the screens, vibrating motions and other attachments, I think it witterly impossible for any grain to be wasted, but the saving of grain this sear and an intuly convinced, in my own mind, that it has saved me double the price of threshing in the saving of grain this sear and threshed for me four days this winter, and threshed for me four days this winter Never Seen a Threshing Machine Nearly Perfect as the "New Model."

To the Editor of the Canadian Post:

SIR,—Please allow me space in your valuable paper to make the following statement which I know will be of interest to all my farmer friends who read your journal. I employed a threshing machine to thresh my grain on the 26th day of January. It was manufactured by J. Abell, of Woodbridge. On February 6th I employed Messrs. Wetherup & Curtis to finish my threshing with a "New Model" Vibrating threshing machine, manufactured by the Jos. Hall Manufacturing Co., of Oshawa.

of Oshawa.

Messrs. Wetherup & Curtis re-threshed part of the straw and chaff threshed by the Woodbridge machine, and took therefrom thirty bushels of clean barley.

This "New Model" Vibrator is the most perfect thresher, separator and cleaner I ever saw. Yoars, very respectfully,

DAVID GREY, 2nd Con. of Ops.

To the Editor of the Port Perry Standard : Sir,—I desire to call the attention of the farmers of this vicinity to a new threshing machine made by the Jos. Hall Manufacturing Co. of Oshawa, called the New

To the Editor of the Pickering News:

DEAR SIR,—Last harvest we purchased of the Jos. Hall Manufacturing Company one of their "New Model" Vibrator Threshing Machines, and worked it all the season. As a thresher, separator and cleaner it has no equal. It threshed and cleaned barley quite fit for market, and the waste of grain is insignificant. We believe there is no machine that will so completely separate the grain from the straw as the "New Model." We had all the work we could do from the beginning to the close of "New Model." We had all the work we could do from the beginning to the close of the season, and gave our customers the very best satisfaction. The machine is light in draught, runs very steadily, is well made, highly finished, and, in all respects, a most desirable machine for the thresherman as well as for the farmer. A far as a perfect desirable machine for the thresherman as well as for the farmer. As far as a perfect Thresher, Sparator and Cleaner is concerned, it is as near perfection as we believe a machine can be made. It threshes very rapidly, does not clog in any kind of grain, and feeds very easy. Please give this letter an insertion in your valuable easer and accept our best thanks. paper, and accept our best thanks.

Yours very truly, WM, PEAK, WM. MORRISH.

The Most Perfect Thresher.

The Most Perfect Separator.

The Most Perfect Cleaner

Ever Offered to the Public.

The Only True Grain Saver.

The success of the New Model Thresher has been without precedent in the history of threshing machines. The Hall company received this week the following letter from received this week the following letter from Mr. Jonathan Yorke, who resides near St. Thomas, one of the oldest threshermen in Ontario. Mr. Yorke bought a New Model on trial, and this letter expresses his opinion after having tested the machine to his entire satisfaction.

Yarmouth Centre, Sept. 23rd, 1883.

Joseph Hall Manufacturing Co., Oshawa, Model Vibrators and have threshed this season so far with it. The farmers that I have threshed for say that it is the best threshing machine that ever came into their barn. It has no equal in the County of Elgin. I have threshed for thirty-seven years and have used most all other kinds of machines, but this lays them all out for good threshing, separating and cleaning. The wheat is shrunk here, but it will thresh all the grain out of the heads and eparate it from the straw and clean it fied that he has got the best of them all.

Years and the 'ew Model is the set One I Have Ever Seen or Used."

Ope, January 9th, 1883.

To the Editor of the Canadian Post:

SIR,—A short time ago I purchased a new threshing machine called the New Model Vibrator, made at the Jos. Hall Works, in Oshawa, of their agent, James Fleury. It is the only machine of the kind in this vicinity. I bought it upon a guarantee given me by the Company that it would give me entire satisfaction. I have now thoroughly tested the machine and an entirely satisfied with it as a thresher, a separator and a cleaner. It is easy on the team, threshes rapidly, not liable to choke in any kind of grain, separates the grain thoroughly from the straw, and cleans it better than any other machine I have ever seen. I have seen all kinds of machines, and have threshed myself for the past eighteen years, and the "New Model" is the best one I have ever seen or used.

Yours truly, Thomas Wetherup.

Ops, January 9th, 1883.

I have been so well pleased with the working of the above machine that I have purchased a share in it. W. Cueris.

Read What One of the Most Successful Threshers East of Toronto Says Re-garding the "New Model."

bresh all the grain out of the heads and eparate it from the straw and clean it better than any machine I ever saw. It does not scatter the grain all around the hind part of the machine, so when you get to the straw threshed you are done. It does not take half an hour to clean up the floor after you have finished the mow. It does not wind in threshing peas or any other grain; it stands still on the floor and not belts fly off to bother you. I would advise any man who wants to buy a threshing machine not to buy any other kind, and I am sure when he tries one he will be satisfied that he has got the best of them all. draft—and it makes no difference now you feed, nor in what condition your grain is in, you cannot choke it—the shoe is grand for cleaning and separating. I believe it has no equal. It is all our American friends claim for it, Yours truly,

THOMAS SCOTT,

To the Farmers and Threshermen of Canada:

Our "New Model" Vibrating Threshing Machine has now been in use in the United States four seasons, and in Canada three seasons. As a perfect Grain Thresher, Separator and Cleaner, it stands without a rival on this continent.

No less than 1200 machines were sold in the United States last season. We have now a very large force of men employed, and can turn out three or four threshing machines per day. Also, engines, horse powers, clover threshers. &c., &c.

We invested an early have may describe a present of the same and all parts are shown been given a present our four threshing machine we send out will give entire satisfaction or we will the notes or each which was have been given a present our four threshing machine we send out will give entire satisfaction or we will
