LEVEL-HEADED FARMERS LEVEL-HEADED FARMERS

Leop Their High Grade Harley and Bon't Force the Market-Financial Gossip.

The movement of barley continues, but it is mostly of the lower grades—No. 3 extra and No. 3. In the higher grades there is little business done. Receipts in Toronto are light, but reports from outside say much larger quantities are now being received than during the past few weeks. There is a considerable quantity of western low grade barley being brought into the market, but the prices of Canadian low grades are still keeping up. It looks as though the farmers are acting wisely in not forcing their best barley on the market. On account of the shortage in high grades in the Western States United States brewers must have the Canadian grain. It therefore seems at present that the course taken by Ontario's farmers will result profitably to thom.

Wheat is dull and business in Toronto is almost nil. A few sales at outside points are reported but that is all.

If the creditors will not accept this the estate will have to be wound up.

The public should bear in mind that Dr. Thomas' Eclectric Off has nothing in common with the impure, deteriorating class of so-called medicinal oils. It is eminently pure and really efficacious—relieving pain and lameness, stiffness of the joints and muscles, and sores or hurts, besides being an excellent specific for rheumatism, coughs and bronchial complaints.
