

BUSINESS RECORD OF A DAY.

RECORDED ISSUE OF NEW CONSUMERS' GAS STOCK.

LONDON'S FIVE MILE RACE - Local Money Market - The Canadian Bank Meeting - Local Money Market - Wheat - Grain and Produce.

It was whispered around in the brokers' office yesterday that the Consumers' Gas Co. were getting to issue some new stock.

Money in London, Eng., is so plentiful that people scarcely know what to do with it. In the open market it is quoted at less than 1 per cent. and three months' bills are discounted at 1 and 1/2 per cent.

There is a good deal of speculation in business circles as to what the result of the meeting of shareholders of the Federal Bank on June 10 will be. The World hears that Mr. Northmore and his associates may come to terms before the meeting takes place.

The foreign trade of South America amounts to about \$500,000,000 annually, and to most of this is transacted with European countries. A "South American Commercial Union" has been recently formed in New York, consisting of bankers, manufacturers and business men, and its object is to secure a larger trade for the United States. When our steamers go far as the West Indies, we will find our country men south and secure some of this trade for Canada.

Business on the local stock exchange was almost at a standstill today. Transactions were few, and the market was listless. The following are the quotations:
