In his twenty-three years at the bar Lincoln had no less than 169 cases before the highest court of Illinois, a record unsurpassed by his contemporaries. He appeared before the United States circuit and district courts with great frequency, he was the most indefatigable attendant on the Eighth circuit and tried more cases than any other member of that bar, he was attorney for the Illinois Central railroad, the greatest corporation in the state and one which doubtless had its choice of legal talent; he was also counsel for the Rock Island railroad and other corporations and individuals with important legal interests at stake, he was sought as legal arbitrator in the great corporation litigations of Illinois, and he tried some of the most notable cases recorded in the courts of that state.— Frederick Trevor Hill in Century.

Mental Poise and Health.

People who reach extreme old age are, as a rule, pretty well balanced physically and mentally. A poised life is serene, and serenity and harmony tend to longevity. The mind that is not well balanced is constantly jangled in the woods south of here this morning, when Norman Richman, 18 years of age, was accidentally killed by Patrick Taylor, aged 16.

The two boys, with a companion named Pugsley, were out for the day.

Richman was barefoot, Taylor carrying his boots. physically and mentally. A poised life is serene, and serenity and harmony tend to longevity. The mind that is not well balanced is constantly jangled and out of tune. There is a constant jarring which racks the whole human machinery. There is discord in an unbalanced life, and discord is always destructive—deadly. The well poised, dignified life is not thrown off its center quickly. The man who goes all to pieces over trifles is one sided. There pieces over trifles is one sided. There is a momentum in a poised, balanced nature which steadies its progress and helps hold it on its chosen track.

Hot temper, constant mental confu-sion and disorder are vitality sappers life shorteners.-Success Magazine.

The Natural Way.

A philanthropic person heard of a negro family that was reported in destitute circumstances, and, calling at their domicile, he found the report true. The family consisted of the mother, a son nearing manhood's estate and two young children. The benevolent old gentleman after hearing the mother's story gave her eldest son \$I to get a chicken for the Thanksiving dinner.

So valuable is this moisture asset that story gave her eldest son \$1 to get a chicken for the Thanksgiving dinner and took his departure. No sooner was he gone than the negress said to this season. her son, "Sambo, you done gib me dat dollah and go get dat chicken in de natchral way!"

Rainfall and Tree Growth.

A report has recently been published which shows how closely the growth of trees is dependent upon rainfall. Not only was this seen in the case of one and twoyear old trees, tut in an investigation extending over a period of twelve years, during which time the annual rings of growth were carefully examined. With an annual precipitation of from thirty to thirty-five inches, a width of ring was produced varying from .11 to .15 inch. If, on the other hand, there was either an unusually large or small rainfall in any given year this was followed by a corresponding tree growth in the following year. year old trees, tut in an investigation ex the following year.

Hagersville Gas Well Shot.

On last Thursday, Petrolea Torpedoes, Limited, shot a gas well near Hagarsville. The well was tested before the shot and was good for 75,000 cubic feet a day. Some time after the shot it was tested again and its production had been increased to 200,-000 This goes to show that nitro-glycerine is as necessary for gas as it is for oil wells.

Their Beautiful Women.

A recent traveler in Poland writes that, in his view, Warsaw and London have the most beautiful women in the world. The Polish girl is said, as a rule, to have good taste, to know how to blend colors artistically and make a graceful appearance.

Wasted Cartridges.

Great quantities of cartridges were wasted by Russian soldiers in the recent wer. A single regiment at Liaoyang used 1,200,000 cartridges, an average of 640 for each man, or about 50 per cent more than the maximum allowance of a French infartry soldier. soldier.

DIED—In Elmwood, on Friday, May 18th, Lydia, wife of the late Henry Clemens, aged 73 years, 11 months and 22 days.

BY-LAW NO. 8, 1906.

By-law to provide for drainage work in the Township of Bosanquet in the County of Lambton, and for borrowing on the credit of the municipality of Warwick the sum of \$383.50 the proportion to be contributed by the Township of Warwick for completing the same. Provisionally adopted the thirtieth day of April, A. D.,

Whereas the municipal council of the Township of Bosanquet have caused an engineer to examine the south boundary drain in said Township and whereas said engineer has pronounced said drain in need of repair and that the Township of Warwick should contribute a certain portion of funds for completing the same. Report of the said engineer being as follows:

To the Municipal Council, of the Township of

Bosanquet.

GENTLEMEN.—In accordance with instructions received from your Hon. Body I beg to state that I have made an examination of the South Boundary Drain in your municipality with a view to putting the same in a proper state of repair. This drain consists of a main drain and branch and both will require repair and I would recommend such work to be done in accordance with the profile herewith submitted.

The plan shows the course of the work and the lands affected by the proposed work. Over the course of the drain and branch I have planted stakes at intervals of two chains or eight rods numbered with even numbers and have taken levels from which the profile has been prepared. I estimate the cost of the work to be as follows:—

Excavation and spreading main drain.

This sum I assess and charge against the lands and roads in any way liable to assessment under The Drainage Act as per the annexed Schedule of Assessment.

ses...... 41 39

All of which is respectfully submitted.

Your obedient servant, R. STANLEY CODE, Bos. Tp. Engr. Dated at Alvinston this 11th day, Nov., 1905. SCHEDULE OF ASSESSMENT. Township of Bosanquet.

SPECIFICATION.

The work to be done under this specification comprises the repair of the South Boundory Drain and Branch.

2. The centre of the present drain shall be takens as the centre of the proposed work except where sloping may be required where the banks are sodded when all sloping shall be done from one side only.

3. The depths shown on the profile are to be measured from the surface of the ground at the food of the planted and numbered stakes. These stakes are planted two chains apart and are numbered 0, 2, 4, ctc.

are planted two chains apart and are numbered 0, 2, 4, etc.

The bottom excavations shown on the profile do not govern the work in any way but are given for estimating quantities drain must be brought to arrellar and even grade between the points of change shown on the profile so that no water will stand in the bottom. The bottom widths shall be those shown on the profile and the side slopes one to one cut straight from top to bottom.

The earth excavated from the drain is to be cast in about equal quantities on both sides of the drain except along a fence when all the earth shall be cast to the side opposite. The earth is to be spread back not deeper than one toot and none shall be left nearer than three feet from the edge of the drain. Should the crop be in at the time of construction the contractor shall after the removal of crop spread the earth. All diches, runs or water-courses entering the drain must be kept open their rull size. No earth is to be cast against fences along the drain.

5. Any culverts, bridges, crossings or fences

the drain.

5. Any culverts, bridges, crossings or fences which the contractor finds necessary to remove must be replaced immediately upon completion of that portion of the drain.

6. The whole work is to be done in a good and workmanlike manner to the satisfaction of the Commissioner in charge and the Engineer making the final inspection.

musioner in the missioner making the final material manual material materia

drainage work as therein indicated and set forth shall be made and constructed in accordance therewith shall be made and constructed in accordance therewith shall be made and constructed in accordance therewith the state of the corporation of the said Township and the credit of the Corporation of the said Township of Warwick the sum of \$383.50, being said Municipality's proportion of the funds ne sessary for the work, and may issue debentures of the Corporation to that amount in sums of not less than \$50.00 each and payable within 5 years from the date thereof with interest at the rate of 4 per centum, per annum, that is to say in 5 equal annual payments. Such debentures to be payable at the office of the Township Treasurer and to have attached to them coupons for the pay nent of interest.

3rd For paying the sum of \$12.40, the amount charged against the sid lands for benefit, the sum of \$23.415, the amount charged against said lands for injuring liability apart from lands and roads belonging to or controlled by the Municipality, and for covering interest thereon for 5 years at the rate of 4 per centum, per annum, the following total special rates shall be assessed, levied and collected upon and from the undermentioned lots and parts of lots and the -amount of the said total special rates and interest against each lot or part of lot respectively shall be divided into 5 equal parts and one such part shall he assessed, levied and collected as a aforesaid in each year for 5 years after the passing of this By-law during which the said debentures have to run.
