

Another Modern Miracle Locomotor Ataxia Cured

The Sufferer Had Been Given Up as Incurable by Several Doctors—Hospital Treatment Also Failed—Dr. Williams' Pink Pills Worked the Miracle.

Before the discovery of Dr. Williams' Pink Pills, locomotor ataxia was considered an incurable disease. It has been fully demonstrated however, that this disease can be cured through the use of these pills, where the treatment is persisted in, and the directions carefully followed.

Locomotor ataxia is a disease of the spinal cord, and first shows itself in the inability to stand erect when the eyes are closed or in the dark. It is characterized by peculiar disturbances of the gait, and difficulty in governing the motions of the legs. One of the commonest and earliest signs is a tired feeling, particularly noted in the knees and ankles. This sensation is provoked by slight exertion, and is not relieved by rest. Often a numb feeling is associated with it, and these symptoms are always present in the early stages. As the disease progresses, there is an increase in the duration and extent of the numb feelings, covering at times the foot alone, then extending to the leg. The disease is usually of slow growth, and the increase and intensity of the symptoms is not noticed, but its progress is constant, and gradually approaches a total lack of feeling in the legs, causing a wobbling gait and an entire inability to govern the steps. As the disease progresses the patient loses all control over bowels and water, and becomes utterly helpless, and has to be cared for like a child.

In proof of the power of Dr. Williams' Pink Pills to cure this terrible malady, Mrs. Sarah Jane Ruller, of Antler, Sask., says: "For seven years, from 1904 to 1907, my son James was afflicted with locomotor ataxia. During that time he was treated by some of the best doctors in the West, but their treatment failed to be of any benefit, and he kept growing worse and worse, till finally he lost all control of his limbs, and could not move at all. I had to carry him from his bed to a chair, where I would have to tie him, to enable him to sit up. He was as helpless as an infant; he lost all control of his kidneys and bowels, and we daily looked for death to relieve him of his suffering. In 1905 we sent him to the Brandon Hospital, hoping that the treatment there would benefit him. In this, though, we were disappointed, and the hospital doctor advised me to take him home, as they said they could do nothing for him. At this time a friend advised the use of Dr. Williams' Pink Pills. Being willing to try anything in the hope of finding relief for my boy, I bought a supply. In less than three months I noted a slight improvement in his condition. In six months he could walk once more and from that time on the improvement continued, till now he is fully cured and once more able to attend school and do the chores about the house. What Dr. Williams' Pink Pills have done for him is truly wonderful, and I would strongly recommend them to all sufferers, for they most certainly saved my boy's life."

In substantiation of what Mrs. Ruller says, Mr. A. E. Steele, the well-known lumber and coal dealer of Antler, says: "With reference to what Mrs. Ruller says concerning her son's cure with Pink Pills, I have no hesitation in saying that what she says is absolutely true in every particular, as I am personally acquainted with the case."

This great cure is not the only one performed by Dr. Williams' Pink Pills. They have brought thousands back to health and strength after some of the best doctors in the country have been forced to give up the case as incurable. Not only in cases of locomotor ataxia, but in cases of partial paralysis, sciatica, acute rheumatism, and many other severe ailments have they been successful. The whole secret of their wonderful success is in their power to make rich, red, health-giving blood—the one essential for good health. These pills are sold by all medicine dealers, or direct by mail at 50 cents a box, or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

Annual report of Walnut Cheese Factory for the season of 1910.—Total pounds of milk received, 123,805; total pounds of cheese made, 112,452; average pounds of milk, to make a pound of cheese, 1.1; rate paid patrons per 100 pounds of milk, 74 1/5c; average selling price for the season, 10 3/4c; total money received including interest in bank and balance from last account, \$120,575.99; paid patrons for milk, \$91,975.52; expenditure, \$28,580.40; balance on hand, \$1,377. The rate paid patrons this last season was a little over 8c per 100 pounds less than the previous year. The reason for this is that the cheese sold for 3/4 of a cent less per pound, the average pounds of milk to make cheese was higher, also the expenses were little more. Above is a statement of the business of the factory for the season of 1910. Accounts have been duly audited.

Oysters served from 6:30 to 8 p.m. Admission 35 cents. Don't miss this as it is the supper of the season.

The remains of the late J. Mills Ormrod, who died at Tucson, Ariz., on Jan. 24th, 1911, aged 23 years, were brought to Sarnia by his brother-in-law, Mr. H. P. Bourke, travelling agent, Sault Ste. Marie, Mich., on Feb. 5th. The funeral was held from the undertaking parlors of Philippen & Simpson, Mrs. Bourke and the remains in Sarnia, where a large number of old friends showed sympathy and kindness to the bereaved ones in their sorrow. Rev. Canon Davis, of St. George's church, officiating. The pall bearers were six young men, former companions of deceased. The floral tributes were most beautiful, "gone to glory" from the parents, a wreath of cala lilies from the sister and brother-in-law, a half-moon from the young friends, a beautiful star from the six young men. The deceased is survived by his parents, Mr. and Mrs. J. G. Ormrod, Saskatoon, and Mrs. H. P. Bourke, Sault Ste. Marie, Mich., his only sister, Mills will be remembered by many in Sarnia as he resided here prior to July, 1906, when he left for the West.—Sarnia paper.

A MAN was lamenting to his sister the other day because he wasn't born a woman. "Try it for a day," she replied. "Fasten a counterpane and a blanket 'round your legs; buckle a strap around your waist so tight you can't draw a full breath or eat a hearty meal; have your hair all loose and fluffy, so that it keeps tickling your ears and getting into your eyes; wear high-heeled shoes and gloves a size too small for you; cover your face with a veil full of spots that make you squint; fix a huge hat on pins, so that every time the wind blows it pulls your hair out by the roots; and then without any pockets, and with a three-inch square of lace to blow your nose with, and short sleeves and open-work stockings, go for a walk on a winter's day and enjoy yourself. Oh, yes; you'd like it, alright."

A young son of Mr. Dupuis, of Belle River, swallowed an open safety pin a few days ago and the parents are quite alarmed as to the results. The child has shown no signs of ill effects as yet, however.
