## STAN. TRENOUTH WINS EVERYTHING IN SIGHT

(Continued from page one)  
STANLEY TRENOUTH has been the running sensation of 1925. Goforth of McGill, three times champion, and the speedy Graham of Varsity, were among the "also rans" Trenouth won in spectacular style the 3 mile race at the Intercollegiate Meet last month. To crown this achievement Trenouth won the 5 1/2 mile Intercollegiate Harrier Race in Montreal last Saturday. He defeated handily the best runners of Varsity, McGill and R.M.C. His time, 32 min. 28 secs., was 18 seconds faster than the previous record for the course.

There are runners and runners—but few in this country are in the class of "Bobbie" Thompson and Stanley Trenouth. Predictions may

go sadly amiss, 'tis true, but already we picture Thompson and Trenouth as members of Canada's Olympic Team, 1928!

**Trenouth Wins Dr. Austen Cup for Meds.**  
Those who were fortunate enough to see the running of the annual Interfaculty Harrier race witnessed as pretty an exhibition of running as Kingston has been privileged to see in a long time, when Stanley Trenouth, 3-mile intercollegiate champion, sprinted to the tape a full two minutes ahead of his nearest opponent, covering the course which falls only 360 yards short of six miles, in the astonishingly fast time of 31:35.2. Through this achievement Trenouth firmly establishes himself as one of Canada's premier middle distance runners, and one to whom the Olympics should call in the

## COMRADES SING IN CHANT

It is needless for us to extol him to the skies, for actions speak louder than words and are likewise more convincing. This fall Stan easily took first place in every race which he contested. They are as follows:

1. Queen's Three Mile Interfaculty.
2. Intercollegiate Three Mile, held at Montreal.
3. Queen's Interfaculty Harrier.
4. Intercollegiate Harriers, held at Montreal.
5. Kingston V.M.C.A. Harrier.

In every case but the three-mile Interfaculty, Stan substantially reduced all the old records. In that race he lacked but six seconds of the record and competent authorities on the subject state that he could have knocked it for a row had he wished to extend himself. When you consider that the best men of Varsity, McGill and R.M.C. compete in these events, you have to admit that he has established an unbeatable record. No one but a super-runner could do it.

Nevertheless being such a marvel has its drawbacks! Stan is seriously worried as to the safety of his fast accumulating and valuable array of cups and medals beside which the hoards of King Midas would pale into insignificance. We, in turn, have grave fears for his health as every fellow he meets nearly shakes his arm off and unmercifully pounds his back, whilst showering him with congratulations. Worse still, Stan has terrible difficulty in avoiding the fair members of Levana, having nearly suffered suffocation during the over-enthusiastic embraces of the first couple of dozen. To say that he is suffering severely from the strain is putting it mildly? However, as he is perfectly fit, and we believe in "The Survival of the Fittest," we entertain hopes of him coming through the ordeal ok, to smash further records by the score. A few years hence when the kids around town go visiting they will stick out their chests and tell the world that they are from Watford, the home of the globe's greatest runner, the speedster who beat Nurni up.

In case you may think we are slightly given to exaggeration we are sending you two Queen's Journals, which corroborate every one of our statements. We hope that you will

"THE QUALITY STORE"  
A Reliable Place to Buy Your Groceries and Hardware

We know that the majority of people will scoff and say, "All applesauce," but we maintain that we know what we are writing about. At least in this instance. First hand knowledge is the decisive factor in such circumstances, and we have it. To Stan's honor is due the credit of having honestly earned it.

WATFORD

**Ought to Check Them**  
(From Aylmer Express)  
Here's a pointer for our police to stop some of those reckless drivers who go through Aylmer at 40 miles and hour, notwithstanding the fact that prominent signboards say that the speed limit is 10 miles. Down in Turkey the police are supplied with planks of wood studded with nails, which they are authorized to throw down in front of a car exceeding the speed limit. They also use these studded planks to test the efficiency of drivers' brakes.

## TONS OF CHOCOLATES

DURING the past few weeks the Rexall Stores in Canada have sold between 50 and 80 tons of Peppermint Patties.

This large quantity sale enables us to offer you these

## Peppermint Patties

for Friday and Saturday at only 29c per lb.

These Patties are made with a soft creamy centre—Peppermint flavour and coated with a fine grade of chocolate.
