An Up to Date Hen

Is this the same hen which only lays while the price of eggs is advancing?

Soldiers Home Coming Campaign War Work and After-War Work of the SALVATION ARMY "FIRST TO SERVE—LAST TO APPEAL" The Salvation Army has for 53 years been organized on a military basis—trained to hardship, sacrifice and service. It is always in action, day and night. It has maintained Military Huts, Hostels and Rest Rooms, providing food and rest for tens of thousands of soldiers each day. 1,200 uniformed workers and 45 ambulances have been in service at the front—in addition to taking care of the needs of soldiers' families here at home, assisting the widows and orphans, and relieving distress arising from the absence of the soldier head of the family. Notwithstanding all the Government is planning to do, notwithstanding the pensions and the relief work of other organizations, hundreds of cases of urgent human need are constantly demanding the practical help the Salvation Army is trained and equipped to render. The Salvation Army Million Dollar Fund January 19th to 25th While it could do so, the Salvation Army has carried on without any general appeal. Now the crisis is arising with the return of the 300,000 soldiers. The budget for essential work during the coming year has been prepared. A million dollars must be raised to continue the after-the-war activities, which include: Hostels for Soldiers Salvation Army Hostels are vitally necessary for the protection and comfort of the soldier at the many stopping places between France and his home here in Canada. These Hostels—military hotels—provide a good food, clean beds, wholesome entertainment at a price the soldier can afford to pay. If the boys did not have a Hostel to go to, WHER would they go? Care of the Wives, Widows, Dependents and Orphans of Soldiers Scores and hundreds of cases could be cited where soldiers overseas have been comforted by the assurance that the Salvation Army has stepped in to relieve their families from dire need. As an instance, a mother with six children is located—no fuel, weather freezing, food and funds exhausted by sickness and other troubles. They are taken to Salvation Army Emergency Receiving Home. Winter and 100,000 soldiers returning increase the demands on the Salvation Army, whose personal help alone is of avail. Consider, too, the vast and complex problems arising out of the care of soldiers' widows and orphans. Keeping the Family Unit Intact The women of the Salvation Army on their visiting rounds accomplish the apparently impossible. Is the discharged soldier out of a job? They find him one. Is the wife sick, the home empty, the children neglected? They nurse the wife, mother the children, wash and scrub. Is there urgent need for food, fuel, clothes or medicine? They are supplied. It takes money, of course, but more important is the loving spirit of service in which the work is done. When the Soldier Needs a Friend The Salvation Army Liasse provides the boys with hot coffee, the pipe, chocolate, magazines, writing material, and the spiritual comfort which the boys in khaki need. Until the last home-ward-bound soldier is re-established in civilian life, will you not help the Salvation Army to combat the discomforts and evils that beset his path? Take advantage of this convention, draw information and inspiration from its meetings and then this year give your orchard the best possible attention—it will pay you. \$1.00...
