Mr. M. Wadsworth was in town yesterday, and from him we have learned the most finite and the most favorable stock news we have learned this winter. There are over 3,000 cattle in the Bad Lands Cattle Co.'s outfit, of which Mr. Wadsworth is manager, and line riders have ridden over thirty miles every day this winter, going and returning over the lands. Mr. Wadsworth himself has done considerable riding, and the most dili gent search of all concerned has resulted in finding of less dead cattle of his brands than can be counted on one's fingers. In addition to Mr. Wadsworth's men, four hunters have been on his range all winter, and the number of dead animals found, after having thoroughly examined almost every clump of bushes, is included in the above number. Of course there are other dead animals that have not been discovered, but few enough have been found to show that the loss will very light. One or two other brands have not been as lucky, but the loss on all cattle. will undoubtedly be far less than was feared. Cattle are now in splendid condition for this time of the year, and no further losses need be feared unless the weather changes very materially. - Medora (Dak.) Cowboy.

An instructive article has lately appeared in the American Field, by Ashmont, cauker in the ear. There can be no doubt that the disease is an important factor in the decline of hearth, and the breaking up of the constitutions of many dogs, more particulary ct the larger breeds. When an animal is affected with canker the strain on the system is very great, the body becomes emaciated. and, in many cases, death ensues before half the natual life of the dog is attained. From its hidden nature, the disease often escapes the eye of the unmiated, and ineffectual treat ment is used to restore health without attack ing the primary cause, which would have been easily detected by a skilled vet.

A LL persons, including Lessees of grazing lands, are hereby required to take notice that the cut ing of timber on the public lands without authority from the Minister of the Interior, or the Local Crown Timber Agent of Dominion Lands for the District, is forbidden by law, and all timber so cut without anthority is liable to seizure and to be dealt

Each settler on a homestead quarter section not having timber on it, may, on application to the Local Agent of Dominion Lands, purchase a wood lot not exceeding twenty acres in extent, at five dollars per acre.

Any person other than Thomestead settler desiring permission to cut timber, must make application therefor to the Minister of the Interior, who will deal with such application according to law.

Persons who have already cut timber without authority, must pay the dues thereon to the Crown Timber Agent at his office, on or before the 1st of May, 1885; otherwise the said timber will be confiscated under the provisions of the Dominion Lands Act.
