The Troy Bell Business.

The new year starts in very briskly at the foundry of the Meneely Bell Company, for, with the orders which this firm has for single bells, some of which are to go to the extreme ends of the earth, present orders include a peal of four bells for the Church of the Redeemer, Baltimore, Md., as the gift of a friend, and a chime of ten bells for the First Congregational church, Brockton, Mass., each bell to be a personal or memorial gift. The Christmas season seems to be all-the-year-round in the matter of gift bells.
