Toronto, Jan'y 8th, 1898.  
DEAR SIR, - Answering your enquiry as to our opinion of the Jubilee Grates, would say that we have had them in use for over a month, and have found them very satisfactory. We are saving over \$2.00 in our coal bill per day for 10 hours' work. With the old grates we could not get steam without using Screened Lump Soft Coal; now we use Soft Coal Screenings, and we are developing about 24 h.p. more than we could with the old grates. You have already taken a memorandum of the tests that were made of the old and the new grates; we have checked over the figures to-day and find them quite correct.  
Yours truly,  
(Sgd.) THE TORONTO RADIATOR MFG. CO., Limited.
