

The meeting adjourned to meet at Hotel Davies at 8.30 p. m. when a dinner was held, given by the city members to the visiting brethren, a very pleasant evening was spent and some very interesting speeches made. After singing Auld Lang Syne the meeting adjourned to *sine die*.

Notes and Comments.

DR. WM. BAYARD entertained the members of the Maritime Medical Association on the evening of the opening day, at a large conversation at his handsome residence. Several hundred guests were present. A very pleasant evening was spent.

OHIO shines with the effulgence reflected from her numerous Presidential sons, and also from her lights in the medical profession. To show what capacity is inherent in the Ohio doctor, it is stated that one alone conducts a complete medical college, he filling all the chairs, lecture, and demonstratorships, from dean to janitor. And yet he is not much of a doctor for Ohio, having a bias towards irregularity.—*Times & Register*.

REPRESENTATIVES of Messrs. Wyeth & Co., and of Parke, Davis & Co. were in attendance at the Maritime Association meeting with fine samples of the many elegant preparations produced by both these firms. Messrs. Wyeth & Co. had the best location this time, the members having to pass through the exhibit each time of entering or leaving the place of meeting. Dr. Myrshrahl was there too, however, and maintained his reputation as a popular representative of his firm.

Now commences or has commenced the havoc among children of the dread summer complaint. "Dread" mainly because left too long before efficient measures are taken to arrest it; the physician often being employed only when much strength and weight have been lost.

The sulpho-carbolate of zinc and the salicylate of bismuth are two drugs worth keeping in mind, one half grain of either being used as a dose, (in conjunction with pepsin or lacto-pepsin usually,) for a very young child.

Bovine is worth trying; it has been found serviceable; the small amount of whisky contained is an advantage.

New York Post-Graduate Medical School and Hospital.

TENTH YEAR—SESSIONS OF 1891-92.

The POST GRADUATE MEDICAL SCHOOL AND HOSPITAL is beginning the tenth year of its existence under more favorable conditions than ever before. Its classes have been larger than in any institution of its kind, and the Faculty has been enlarged in various directions. Instructors have been added in different departments, so that the size of the classes does not interfere with the personal examination of cases. The Institution is in fact, a system of organized private instruction, a system which is now thoroughly appreciated by the profession of this country, as is shown by the fact that all the States, Territories, the neighbouring Dominion and the West India Islands are represented in the list of matriculates.

In calling the attention of the profession to the institution, the Faculty beg to say that there are more major operations performed in the Hospital connected with the school, than in any other institution of the kind in this country. Not a day passes but that an important operation in surgery and gynecology and ophthalmology is witnessed by the members of the class. In addition to the clinics at the school published on the schedule, matriculates in surgery and gynecology, can witness two or three operations every day in those branches in our own Hospital.

Every important Hospital and Dispensary in the city is open to the matriculate, through the Instructors and Professors of our schools that are attached to these Institutions.

FACULTY.

Diseases of the Eye and Ear.—D. B. St. John Roosa, M.D., LL.D., President of the Faculty: W. Oliver Moore, M. D., Peter A. Callan, M. D., J. B. Emerson, M. D.
Diseases of the Nose and Throat.—Clarence C. Rice, M.D., O. B. Douglas M. D., Charles H. Knight, M. D.
Veneral and Genito-Urinary Diseases.—L. Bolton Bangs, M.D.
Diseases of the Skin and Syphilis.—L. Duncan Bulkley, M. D.
Diseases of the Mind and Nervous System.—Professor Charles L. Dana, M.D., Graeme M. Hammond, M. D.
Pathology, Physical Diagnosis, Clinical Medicine, Therapeutics, and Medical Chemistry.—Andrew H. Smith, M. D., William H. Porter, M. D., Stephen S. Burt, M. D., George B. Fowler, M. D., Frank Ferguson, M. D., Reynold W. Wilcox, M. D.
Surgery.—Lewis S. Pilcher, M.D., Seneca D. Powell, M. D., A. M. Phelps, M.D., Robert Abbe, M.D., Charles B. Kelsey, M. D., J. E. Kelly, F.R.C.S., Daniel Lewis, M.D.
Diseases of Women.—Professors Bache McEvers Emmet, M.D., Horace T. Hanks, M.D., Charles Carroll Lee, M.D., LL.D., J. R. Nilsen, M. D., H. J. Boldt, M. D.
Obstetrics.—C. A. von Ramdohr, M. D., Henry J. Garrigues, M.D.
Diseases of Children.—Henry Dwight Chapin, M. D., Joseph O'Dwyer, M. D., J. H. Ripley, M. D., Aug. Cahill, M. D.
Hygiene.—Professor Edward Kershner, M. D., U. S. N.
Pharmacology.—Professor Edward Bague, Ph. B.
Electro-Therapeutics.—Wm. J. Morton, M. D.
