#### BRITISH MEDICAL ASSOCIATION—MONTREAL MEETING, 1897.

---

Since our last issue the list of officers for the Montreal meeting of the British Medical Association has been completed. Dr. Herman M. Biggs, of New York, having accepted the invitation of the Council to deliver the address in Public Medicine. (Dr. Biggs, the scientific head of the New York City Health Department, physician to Bellevue Hospital, has done much to advance his subject. His address will be one of the features of the meeting.)

By an Order in Council, the Provincial Government has subscribed \$2,000 for the purposes of the association ; altogether, therefore, through the public spirit of the Dominion Government, Provincial Government, and Montreal City Council, \$10,000 has been granted towards the expenses of the meeting. This, with a guarantee fund which is being obtained from members of the profession in Montreal and with private acts of hospitality on the part of the citizens, should be ample.
