

THE CANADA LANCET.

BUY THE BEST.

*Highly recommended by the Medical Faculty of both America and Europe,
and adopted by the United States Government. More of them
Sold than any other Battery in the World.*

McINTOSH COMBINED Galvanic and Faradic Battery.

The first and only Portable Battery ever invented which gives both the Galvanic and Faradic Current; thus combining two distinct batteries in one case.

No Physician can afford to be without one.

This Celebrated Battery is constructed on an improved plan. The zincs and carbons are fastened to hard rubber plates in sections of six each, this manner of connecting brings the plates nearer together than in any other battery, thus giving less internal resistance. The rubber plate or cover will not warp or break, and is not affected by the fluid.

The cells are composed of one piece of hard rubber and are made in sections of six each with a drip-cup, thus one section can be handled emptied and cleaned as easily and quickly as one cell.

The fluid cannot spill or run between the cells, and there is no danger of breaking as with glass cells. The drip-cup is to receive the elements when the battery is not in use. The Faradic coil is fastened to the hard rubber plate or cover. The rubber plate to which the zincs and carbons are attached is securely fastened over the cells when not in use, making it impossible for fluid to be spilled in carrying.

An extra large cell (with a zinc and carbon element) is added to the combined batteries for the purpose of producing the Faradic current. This cell gives as much power as is ever needed, and avoids exhausting the current from the galvanic cells.

Our Batteries weigh less, occupy less space, give a current of greater intensity and quantity than any other Battery manufactured. For simplicity of construction they cannot be surpassed, and any person reading our directions will have no trouble in operating them.

This is the only Battery in which the zinc and carbon plates can be kept clean and always in order by simply rinsing them.

The metal work is finely nickel plated and highly polished, and every part so put together as to be easily replaced by the operator.

We have the most complete line of electrodes yet offered to the profession. We also manufacture various styles of Table and Office Batteries, Bath Apparatus, etc., etc. Our manufacturing facilities are the largest of the kind in America, and we employ none but skilled mechanics, and men of scientific experience.

Our Illustrated Catalogue, giving full description of all our goods, and other valuable information, sent free on application.

McIntosh Galvanic and Faradic Battery Company.

192 & 194 JACKSON STREET, CHICAGO, ILL.

Or, F. GROSS, Chemist, 682 to 690 Craig St., Montreal, And, ELLIOTT & CO., Chemists, 3 Front St., Toronto.

WILLIAM SNOWDEN,

Manufacturer and Importer of

SURGICAL INSTRUMENTS, TRUSSES, OBSTETRICAL FORCEPS, ETC.

SNOWDEN'S PERFECTED BINAURAL STETHOSCOPE.—PRICE \$3.00.

All genuine ones have "WM. SNOWDEN, PHILADELPHIA," stamped on the Soft Rubber Cup of Bell (F).

The Rubber Tubes are free from all woollen or silk coverings, thus avoiding all friction sounds arising from this source.

Established 1821.

No. 7 South Eleventh St., PHILADELPHIA.
