

till the infliction, which affected every family in its tenderest and holiest feelings should be removed. This interdict continued six years, three months, and fourteen days. Not content with this, Innocent III. passed a sentence of excommunication against the king himself, and offered his kingdom to Philip the Fair of France; till at length John, "in the prostration of a heart as abject in adversity as it was insolent in power," laid his crown at the legate's feet, and surrendered his kingdoms of England and Ireland to the pope, to hold them thenceforth under him by the annual payment of a thousand marks for ever, in token of vassalage to the see of Rome.

Thus did the Church of England in the beginning of the thirteenth century, lose her independence, and deviating from the primitive purity of the Church of Christ, become subordinate to the discipline, and deeply tainted with the corruptions of the Church of Rome; which latter increased considerably during the pontificate of Innocent III. who, having forbidden the laity to read the Scriptures in their native tongue, prevented for a time the detection of these unfortunate errors.

† The barons, however, denied that the king had power to place the realm under the papal see without their consent, consequently the feof of the kingdom was void.

THE LARGE 103 YONGE ST.

The Winter has past, with its frost and its snow, And where is the man who won't say let him go; And Spring has arrived and dressed Nature anew, And Summer, sweet Summer, is nearly in view.

The genial showers of the Spring have been shed, And fields live again that were withered and dead; And trees that were leafless are bursting their chain, And waving in loveliest verdure again.

The birds of our forests that left us so long, Again fill the air with the power of their song, Rejoicing that hoary Grim Winter is past, And that Springtime and Summer have found us at last.

Now away with the Cloaks and the Furs which you wore, Through many a snow storm they mantled you o'er; To wear them just now, with the weather so warm, Would do you no good, but a great deal of harm.

Away with your Bonnets of Dark Velvet Pile, Let them rest on the shelf or the box for a while; Yet something in Straw, if you take my advice, In Devon, or Luton, or Tuscan, or Rice.

MCDONALD has Bonnets, remarkably low, At sevenpence-halfpenny, or eightpence or so; And Ribbons to trim them at sixpence a yard,—The terms are certainly not very hard.

A large stock of Muslins, selected with taste.—The colours are fast, and the patterns are chaste; And Dress Goods in "Fancies," both figured and plain; With the fine French Barage, and the printed DeLaine.

While he seeks to secure the most recent styles In the fabrics produced in the famed British Isles, Yet a judge may perceive at the very first glance That his Gloves have the finish of Grenoble in France.

There are many things more, which one might suppose, They are mentioned below in straightforward prose; The Stock, he may add, is extensive and nice, While the whole has been marked at a moderate price.

His direction will still be the same as the former, On Yonge-street, one door from Richmond-street corner; While the front of his house, hereafter, shall be Better seen by the figures One Hundred and Three!

HEALTH WHERE 'TIS SOUGHT

HOLLOWAY'S PILLS.

Cure of a Case of Weakness and Debility, of Four Years' Standing.

Extract of a Letter from Mr. Smith, of No. 5, Little Thomas Street, Gibson Street, Lambeth, dated Dec. 12, 1850.

To Professor HOLLOWAY,—

SIR,—I beg to inform you that for nearly five years I hardly knew what it was to have a day's health, suffering from extreme weakness and debility with constant nervous headaches, giddiness and sickness of the stomach, together with a great depression of spirits. I used to think that nothing could benefit me, as I had been to many medical men, some of who after doing all that was within their power, informed me that they considered that I had some spinal complaint beyond the reach of cure, together with a very disordered state of the stomach and liver, making my case so complicated that nothing could be done for me. One day, being unusually ill and in a dejected state, I saw your Pills advertised, and resolved to give them a trial, more perhaps from curiosity than a hope of being cured, however, I soon found myself better by taking them, and so I persevered in their use for six months, when I am happy to say they effected a perfect cure.

[Signed] WILLIAM SMITH.

These celebrated Pills are wonderfully efficacious in the following complaints.

Ague Female Irregularities Scrofula, or King's Evil. Asthma Fevers of all kinds. Bilious Complaints Fits Sore Throats. Blotches on the Skin Gout Stone and Gravel. Debility Liver Complaints Venereal Affections. Dropsy Lumbago Worms of all kinds. Dysentery Rheumatism Weakness from whatever cause, &c., &c. Erysipelas Retention of Urine

AYER'S CHERRY PECTORAL.

For the Cure of Coughs, Colds, Hoarseness, Bronchitis, Whooping-Cough, Croup, Asthma, and Consumption.

Among the numerous discoveries Science has made in this generation to facilitate the business of life—increase its enjoyment, and even prolong the term of human existence, none can be named of more real value to mankind, than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven beyond a doubt, that no medicine or combination of medicines yet known, can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures affected by its use, but we would present the following opinions of eminent men, and refer further enquiry to the circular which the Agent below named, will always be pleased to furnish free, where in are full particulars, and indisputable proof of these facts.

From the President of Amherst College, the celebrated Professor Hitchcock.

"James C. Ayer—Sir: I have used your Cherry Pectoral in my own case of deep-seated Bronchitis, and am satisfied from its chemical constitution, that it is an admirable compound for the relief of laryngeal and bronchial difficulties. If my opinion as to its superior character can be of any service, you are at liberty to use it as you think proper. EDWARD HITCHCOCK, L.L.D.

From the widely celebrated Professor Silman, M.D., L.L.D., Professor of Chemistry, Mineralogy, &c., Yale College, Member of the Lit. Hist. Med. Phil and Scientific Societies of America and Europe.

"I deem the Cherry Pectoral an admirable composition from some of the best articles in the Materia Medica, and a very effective remedy for the class of diseases it is intended to cure." New Haven, Ct., Nov. 1, 1849.

Major Pattison, President of the S. C. Senate, states he has used the Cherry Pectoral with wonderful success, to cure an inflammation of the lungs.

From one of the first, Physicians in Maine. Saco, Me., April 26, 1849.

Dr. J. C. Ayer Lowell. Dear Sir: I am now constantly using your Cherry Pectoral in my practice, and prefer it to any other medicine for pulmonary complaints. From observation of many severe cases, I am convinced it will cure coughs, colds, and diseases of the lungs, that have put to defiance all other remedies. I invariably recommend its use in cases of consumption, and consider it much the best remedy known for that disease.

Respectfully yours, I. S. CUSHMAN, M.D.
