TORONTO MARKETS.

Toronto, Nov. 7th, 1901.

Drugs, Chemicals, Etc.—No change in the position of the local drug market has taken place since last report, prices remaining firm, and a normally active business being transacted. The better feeling recently reported in the English chemical market continues, but there is little tangible improvement. Shipments to certain parts have increased a little, but, at this time of the year, this is always to be looked for. Great brightness exists in heavy alkalies. Bleaching powder is firmer, and ammonia alkali has been selling freely for next year. Tartaric acid is lower. From Baltimore comes word that ammoniates are fairly active. Tankage products are moving freely, and crushed tankage is selling at $18 to $18.50, f.o.b. Chicago.

Dry Goods.—The mild weather apparently did little to put a brake on trade activity in the dry goods trade, owing, we suppose, to the fact that retailers have come to the conclusion that winter cannot be very long delayed now after all. However, the first real spell of frosty weather will no doubt bring about a rush for heavier grades of goods of all sorts. As it is, travellers report brisk enquiries at all points, and that country merchants are in the best of spirits.

Flour and Meal.—A better demand exists for flour, and ninety per cent. patents is selling at $2.70 in buyers' bags, middle freights, and a few cents higher for extra choice brands. Manitoba flour is firmer. Millfeed is steady. Oatmeal, too, is quite firm.

Fruits.—Business continues quite active, though, of course, with the exception of pears and apples, the domestic fruit season is practically at an end. Oranges are beginning to come in in some quantity from Jamaica. Apples are high-priced, owing to the scarcity. They would fetch better prices in the Old Country if the quality were better, or, still more, if greater care were taken in grading. As it is, the growers, or some of them, are making up the shortage with fruit which is absolutely unfit for shipping at all. This practice is likely to prove a boomerang. We quote prices, as follows: Lemons, California, $4.50 to $5 per box; fancy Malaga, $3.75 per box; Jamaica oranges, $3.25 per box; $5 per barrel; grapes, 25 to 30c. per 10-lb. box;
