Water  
and Steam

Aside from the fact that the "Safford" Radiators are unique because no  
bolts, rods or packing are used in their connections, the vital point is claimed (and  
guaranteed) that they will stand a pressure of 140 pounds to the square inch—about  
double the pressure that any other radiator is capable of bearing. They embody  
every single specification of all the leading architects of the country. They are SAFE  
beyond question. They are handsome—they are made in the shape of circles and in  
various angles—shapes to suit the various spaces where they are to be used. There  
are twenty-five different styles of
