Laying STANDARD Steel-Tape-Armored Cable Across a Street.

A 50 Per Cent Saving

in the cost of installing underground electric cables is worth considering these days. A cable which can be laid directly in a trench in the ground without conduits may solve the installation problem before you.

STANDARD Steel-Tape-Armored Cables

are designed for this class of service and have in many cases shown a 50 per cent. saving in installation cost as compared with single runs of lead-covered cables laid in conduits.

Write for Bulletin 680
which gives complete information.
