

1.3. Precursors¹⁾ in bulk²⁾

Scientific chemical name ³⁾ / Structural formula ⁴⁾	Quantity (metric tons)	Number and size of containers
<u>Precursors for unitary systems</u>		
<u>Components for multicomponent systems</u> ⁵⁾		

1) Identified in accordance with approaches to be worked out in the context of Article II.

2) Some delegations did not consider this table necessary.

3) In accordance with the IUPAC (International Union of Pure and Applied Chemistry) Nomenclature.

4) Different views exist whether it is necessary to state both the scientific chemical name and the structural formula in order for the declarations to be unambiguous.

5) Some delegations suggested that multicomponent chemical weapons should not be declared as a special category in a general manner.
