

- (i) exchange of information at an early stage on significant forthcoming projects; and
 - (ii) identification of project financing requirements and appropriate financing facilities.
- (c) Extend the appropriate facilities for the mounting of industrial fairs, exhibits, missions and other promotional activities.
 - (d) Facilitate the entry and exit of public and private sector experts, technicians, investors and business representatives, as well as material and equipment necessary for the fulfillment of activities falling within the scope of this Agreement in accordance with respective national laws and regulations.
 - (e) Explore joint export development possibilities in third countries arising from partnership between Thai and Canadian firms.
 - (f) Review impediments to trade which might hinder achievement of the objectives of this Agreement.

3. Industrial Cooperation

Promote and enhance private sector industrial cooperation, including transfer of technology, through appropriate channels in accordance with their respective economic and development policies and priorities by encouraging, supporting and facilitating:

- (a) Business interests in their efforts to establish joint ventures;
- (b) Exchange of information on technologies and know-how, licensing arrangements and industrial consultancy;
- (c) Transfer of technology through human resource development and research programs in order to promote the application, adaptation and improvement of existing and new technological products, processes and management skills;
- (d) Initiatives to improve quality control and standards for products notably for export;
- (e) Contacts between the respective science and technology communities; and
- (f) Exchanges of views on the formulation and application of science and technology policies.

ARTICLE III

Development Cooperation

The Parties share a commitment to the concept of development cooperation. Under this Agreement and in light of the provisions of Canada's Modern Sector Program they have agreed to work together to encourage and facilitate greater private sector involvement in the industrial and technological growth of Thailand.
