

*Information, education and training*

- ▶ education on waste reduction opportunities in residential, commercial and industrial facilities ¶
- ▶ promotion of recycling ¶
- ▶ information on wastes that can be recycled and used for energy production in industry ¶

*Research, development and demonstration*

- ▶ research into public attitudes towards recycling ¶
- ▶ research on improved waste management methods ¶

B. Reducing emissions from sewage treatment

*Regulations and guidelines*

- ▶ regulations on the production of energy from sewage wastes ¶
- ▶ regulations on treatment of sewage waste that will help minimize methane emissions ¶

*Economic instruments and incentives*

- ▶ financial support for the construction of more efficient sewage treatment facilities ¶

*Research, development and demonstration*

- ▶ research and demonstration projects on the production of energy from sewage wastes ¶

C. Reducing methane emissions from landfills

*Regulations and guidelines*

- ▶ regulations and guidelines that require the capture of methane from landfills for incineration or energy production ¶¶
- ▶ technical standards on the design and operation of landfills that will help reduce methane emissions ¶¶
- ▶ regulations and guidelines limiting the use of landfills as a waste disposal option ¶
