

pollution taking place?

- (3) If the Commission should find that pollution of the character just referred to is taking place, what remedial measures would, in its judgement, be most practicable from the economic, sanitary and other points of view and what would be the probable cost thereof?

For the purpose of assisting the Commission in making the investigation and recommendations provided for in this Reference, the two Governments will, upon request, make available to the Commission the services of engineers and other specially qualified personnel of their governmental agencies, and such information and technical data as may have been acquired by such agencies or as may be acquired by them during the course of the investigation.

It would be appreciated if the Commission would submit its report and recommendations to the two Governments as soon as practicable."

The above text has been forwarded for Canada by the Secretary of State for External Affairs, the Honourable Paul Martin, to the Secretary of the International Joint Commission.
