

I have in my hand a statement showing some of the corporations controlled by directors of the three largest banks and the great number of directorships held by individual directors. The list is necessarily incomplete; it is not easy to secure the complete information. The list has been taken mainly from the Canadian Annual Financial Review and many corporations are not shown there. A few have been added from Who's Who and other sources. I should like to place this list on Hansard, but under the rules I suppose I shall be compelled to read it. It is as follows:
