

## PREFACE.

---

The following pages is most respectfully dictated to R. S. Chilton, Esq., U. S. Consul in Goderich, as the representative here of the first great nation born from Great Britain. The writer now claims the influence of both great nations, to send this story over a many nationed world, for the purpose of showing the dignity and degradation of man, and for commanding veneration to religion, home, marriage, woman, petition, truth, and the interest of the author.
