

PLANET JR."

"PLANET JR." is a trade mark known all over the civilized world and "Planet Jr." goods are everywhere recognised as standard. Other makers offer goods that resemble ours in appearance, (after we show them the idea,) but not in quality. "Planet Jr." goods are therefore stronger, better made, better finished and capable of a much greater variety of work than anything of this sort on the market, and we want live agents in unoccupied territory. We carry stock in Toronto and Detroit to accommodate our Canadian trade and can ship from there or from Philadelphia as desired. Our Cuts show six machines; there are thirty more, (Seed Drills, Wheel Hoes, Cultivators and Harrows,) all described in our 1896 Catalogue now ready. Send for it and for our 1896 trade discount sheet. It won't be dry reading.

ROBERT DILLON,

Canadian Representative, Oshawa, Ont.

S. L. ALLEN & Co.,

Patentees and Mfg'rs., Philadelphia, Pa.

THE "PLANET JR." No. 8 HORSE HOE.
