

## HAMILTON LOSES THE PRINCE TRAIN WILL NOT EVEN STOP

But Civic Dignity is Maintained—  
Telegraph Operator's Sudden  
Death—Church Services.

Hamilton, April 22.—(Special).—The royal train, carrying Prince Arthur of Connaught and his suite from Niagara Falls to Toronto, will not stop at Hamilton because the city has decided not to give an official welcome to the prince.

Clarence McKee, a telegraph operator, was found dead last night at the Commercial Hotel. He was 28 years of age and unmarried. Coroner Baile was notified, but deemed an inquest unnecessary.

Local lodges of the L.O.O.F. marked the eighty-seventh anniversary of their order by attending service this afternoon at the Emerald-street Methodist Church. Rev. J. H. Robinson preached. St. George's Society attended service at Christ Church Cathedral this evening. Rev. Canon Farthing, Woodstock, preached. Rev. Canon Bland conducted the service.

Mrs. Aaron Carr died to-day at the residence of her mother, Mrs. J. O. Carpenter, 181 South Berald-street. She was 74 years of age.

Charlie Conkle won a decision in the fifth round over Young Dempsey Olean, N.Y., at the Arcade Saturday evening. Nelson Stout was the referee. Acton's "unknown," who undertook to throw Kid Wagner, Buffalo, three times in an hour, turned the trick in a little over 20 minutes.

**The Diamond Glass Company** will start its Hamilton branch on May 1. About 100 hands will be employed.

The contracts for a theatre to replace the Star were let Saturday. The new theatre will be called the New Savoy, and will cater to women and children.

It will seat 1700.

Geo. Townsend, a Chicago man, has the contract of building Hon. Arthur Kennedy's Hamilton, Ancaster & Brantford and Hamilton & Galt Electric Railways. He will make a start at once.

A \$12,000 presbytery will be built in connection with St. Patrick's Church. The fire and water committee has refused to allow the Toronto & Niagara Power Co. to use the filtering-basin lands.

It is probable that either Ald. Wright or Ald. Eastwood will run in the Liberal interests against Ald. Stewart for the mayoralty.

**His Help, Too.**

The council is considering the advisability of making a grant to help the San Francisco sufferers.

Lieut.-Col. Lodge, 91st Highlanders, has been appointed commanding officer of the provincial city battalions at the Niagara camp in June.

Lieut. Pain, 12th Regiment, has been appointed commanding officer of the Army Service Corps, and J. L. Kilgour and L. E. Eager, as lieutenants. W. G. Colquhoun has been gazetted lieutenant in the 91st Highlanders.

Inspector McMahon has applied for two months' leave of absence to visit Ireland.

Special services were held at St. George's Church to-day in celebration of the twenty-fifth anniversary of the ordination of the rector, Rev. F. E. Howitt.

**A Masonic Trip.**

A party of 165 Masons from Hamilton, with several ladies and the Pipe Band of the 91st Highlanders, on Saturday took the "traveling trowel" to Detroit, which lodge, within thirty days, will convey it another stage on its round-the-world journey. The special train made the distance from Waterford to Windsor, 158 miles, in 147 minutes.

Deputy Grand Master Freed of Ontario represented the Grand Lodge of Canada, and Grand Master Rowson of Michigan was present.

The Toronto Daily and Sunday World delivered to any address in Hamilton before 7 a.m.; daily, 25c a month; Sunday, 5c per copy. Hamilton office, Royal Hotel Building, Phone 965.

Martins Cigars to-day at Billy Carroll's Opera House Cigar Store.

**\$74.00 to California and Return.**

And choice of any direct route going and returning, with certain stop-over privileges en route. Tickets good going April 24th to May 5th. Valid returning until July 31st. Call at Grand Trunk City Ticket Office, northwest corner King and Yonge-streets, for full particulars.

## PIN YOUR FAITH ON FERROZONE

A Time Honored Cure for Sprain Ailments That Every Physician Recommends.

But every year has seen the popularity of Ferrozone increase, and to-day it is used by the people of many nations for weakness, debility and the characteristic ailments of spring.

Let Ferrozone help you!

It enriches the blood supply and thereby vitalizes and quickens the whole body.

Humors and impurities are driven off. Disease germs of every kind are destroyed.

Nutritious material is supplied for restoring the waste, and day by day the process of rebuilding goes on till health that outlasts old age is established.

Mr. W. A. Renwick, of 285 Hunter-street, Hamilton, Ont., writes: "A year ago I became run down and lost my health. My strength was greatly reduced and on account of the weakness of my heart I was afraid to take up work."

On going upstairs or walking fast my heart would sure jump and I would gasp for breath and get exhausted quickly. At night I would wake up in excited condition and find my heart going like mad."

"In this terrible state nothing helped me but Ferrozone. Such good it did I can hardly explain. It built up my strength, put new life in my heart and made me feel like a new man."

Even in advanced cases of weakness Ferrozone is unfailing. Your druggist sells it, 50c per box or six boxes for \$2.50, at all dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

WALDORF—Very modest, smart and yet comfortable, wings don't pinch your throat, 2 inches high at back, 2 1/4 in front.

20c each, 3 for 50c

**WALDORF LINEN Collars**

Made of IRISH linen to assure best value for your money—that fabric which stands up longest under laundry ravages. Seams turned in and doubly sewn—thats the saw-edge you hate so. Demand the brand.

Makers, Berlin, Canada

## ESTIMATES OF DEAD VARY

Continued From Page 1.

several thousand persons suffered death. Thieves and looters were dealt with summarily. I personally witnessed the sudden demise of several ghoul-like men.

"I saw a fellow cutting rings from the hands of a dead woman on Bush-street just below Sacramento. There was a rush of men, and in a few minutes the robber was dangling from a pole. One innocent man met his death at the hands of the military. He was the cashier of a bank, and refused to obey the command to halt, but continued to run into the bank building. He was shot."

**Shot by Sentry.**

A son of T. P. Rordian, a real estate dealer, was shot and killed to-day a few feet from his residence. Young Rordian was on his way home and had a bottle of whiskey in his coat pocket. A soldier on duty ordered him to stop and hrow the whiskey away, and when Rordian refused the soldier immediately shot him dead.

A workman employed at the Gerson tannery was on his way home this morning when halted by a sentry. The workman explained that his wife was dying and tried to pass. The sentry shot at him, but missed, and the workman ran back into the tannery.

**Terrible Strain Tells.**

The terrible strain of the last few days is beginning to tell on the people. The reaction has come, and suspense over missing relatives and friends is causing illness and, in some cases, insanity.

At Central-avenue and Oak-street a man became insane and attempted to kill his wife with a cleaver. He had to be arrested to prevent him from injuring himself or family.

Washington, April 22.—The loss of life in San Francisco is estimated at less than 800 in a telegram addressed to the secretary of the treasury by Superintendent of the Mint Leach. The telegram, dated at Oakland yesterday, follows:

"Stories of losses of life greatly exaggerated. Have been every day from continually from all parts of the city, and they do not believe the list will reach 400. My estimate from state reports to me are that the list will not reach 300. The fire did not travel fast, and the authorities took trouble to keep ahead of the flames, notifying people of the danger, and caring for the helpless."

**LIVING WELL CARED FOR THE PRINCE AT THE FALLS**

Continued From Page 1.

aging health conditions considering the circumstances. Sickness constantly is on the decrease. There are few contagious diseases, and these are being tended to at Deer Lodge in Golden Gate Park. Sanitary conditions in the residence districts are being improved.

An urgent appeal has been sent out for a supply of chloride of lime. It is necessary to insure sanitary conditions. It is wanted immediately and in large quantities. Other drugs needed are sulphur, carbolic acid, general antiseptics, formaldehyde, cathartics, castor oil, opium pills, morphine tablets and quinine. It is almost as urgent that people outside the city furnish these drugs at once, as it is that they send food.

**Lessons to Prevent Disease.**

Among the hundreds of carloads of assorted provisions that are being sent out by Los Angeles for San Francisco are several carloads of lemons and oranges. Manager Woodford of the California Fruit Exchange has sent an appeal to the fruit growers to send relief shipments at once.

In San Francisco are desired for use water to purify it and lessen the danger of any possible epidemic from that source. What is perhaps the largest commissary train in the world has rushed north over the Southern Pacific from Los Angeles. This huge restaurant-destination to cater to hungry Shattuck & Desmond "Mess" outfit, 20,000 men a day. This mammoth caravanserai is expected to cost \$15,000. It was made up of 30 cars, which are all kitchens and pantries.

The train is expected to be in Oakland in time to serve early morning breakfasts Monday.

A carload of food intended for the use of babies has been despatched north.

**Water in Plenty.**

Experts of the Spring Valley Water Company, who have been engaged in making a thorough examination of the mains and reservoirs of the system, have reported that the company has in its reservoirs enough water to supply the city at the regular rate of 5,000,000 gallons a day for a period of 60 days. The only immediate problem is that of getting this supply of water into the city, but the city will, within a few days, be receiving a daily supply of between 15,000,000 and 17,000,000 gallons, which is practically equal to half the entire city prior to the earthquake. This makes it certain that the city will be habitable again almost immediately.

Street cars were running on Fillmore-street to-day and appeared to have plenty of power. The service was free, probably will be run by horse.

The federal troops already have taken systematic charge of the principal portion of the city entrusted to their care. Major Benson of the 14th Cavalry is in command of the provost guard, Gen. Toronton.

Funston's headquarters are at Fort Mason, and he has under his command 3000 federal force.

Five children were born last night in the hospitals that have been established at Golden Gate Park, making eighteen births in this park. Eight babies have been born in Buena Vista Park.

**How to Write Your Friends.**

At a meeting of the postal authorities with the military yesterday at the postoffice, plans were completed for the resumption of the mail service. The San Francisco postoffice is now in full operation.

All but fifty bags of mail have been recovered and now mail is handled expeditiously.

All mail should be addressed to the old street numbers in San Francisco, unless the new address is positively known.

Money orders are cashed as rapidly as funds can be secured. The postmaster is completing arrangements with the superintendent of the mint to cash paper now on hand in the postoffice.

All money orders will be paid on demand and represent the only means of sending money into San Francisco at present, as no banks are open. Letters are accepted here without stamps or envelopes, and will reach their destination without delay.

Employment bureaus have been established, and able-bodied men, who are willing to work on railroads and other large construction schemes in various parts of California and Nevada are furnished with free transportation tickets.

The lack of teams was relieved to-day. In many cases individuals came forward and offered the services of their horses and wagons, one in particular providing the committee with twenty vehicles.

**Will Occupy Houses.**

Hundreds of houses in the unburned districts have been deserted by their occupants, who either have fled from the city or are camped in the parks. These, with 1000 vacant homes and flats, and all public buildings, will be used for housing the homeless.

**Authorities Confer.**

Gen. Funston, Mayor Schmitz and Gov. Parsons met in conference at Gen. Funston's headquarters at Fort Mason to-day, and had a thorough understanding as to the relief measures and the police of the city. It was decided to divide the city into three districts, one under the federal troops, one under the state troops, and the other under the police.

As yet there has been little sickness aside from nervous shock and physical exhaustion.

Information bureaus have been established, and telephone service is being provided by the signal corps of the regular army.

At the entrance of Golden Gate Park, known as the Panhandle district, an enormous billboard has been erected and is being used as a directory by those who wish to designate their location in the camp for the benefit of seeking friends.

Lumber is being delivered at the park, and temporary frame structures are being erected on all the open spaces in the park and on the sand dunes south of the property.

**An Incident.**

Henry Herse, a New York traveling man, after a terrible experience, made his escape and constituted himself a traveling relief committee. At Sacramento he organized a shipment of eggs. At Reno he set the housewives to baking bread, and in Salt Lake he raised a fund of \$400.

My Herse crossed the bay in a launch. The boatman asked him how much money he had, and when he replied with a mental reservation \$46.80, the boatman charged him \$46.80 and collected the money in advance.

**Shot.**

Inside the base of the monument the prince had been listening to the battle of Queenston Heights, and his imagination had conjured up the battle of musketry and the roar and shouts of battle. Just as he stepped from the door of the monument, a volley of loud clicks burst upon his ear, and so well did they fit in with the details of his reverie that he gave a slight start and then laughed as he saw that the volley was simply the simultaneous action of about twenty-five camera-shutters, the picture men having arranged themselves about in a semi-circle to get a good picture of the prince as he emerged from the monument.

Major Hanan and Mayor Cutler took lunch with the prince on his private car, and in the afternoon escorted him to the power works and to the Carmelite Hospice.

**Visit to Convent.**

After luncheon the party re-entered the electric line, thru the south village to Loreto convent, where they were graciously received by the mother superior and the whole community of Sisters of Loreto. Some one hundred young lady students, dressed in white gowns, sang "God Save the King."

Several pieces were also sung by the young ladies for the prince, among them being the convent hymn, "Ave Marie." The prince was presented with a photograph of the convent by Miss Edmondson, N.W.T., presented his royal highness with a lovely sheaf of roses. On taking his departure from the convent, the young prince was surrounded by the young ladies, who escorted him

# MADE OF NORMAL-CALF

IMPROVEMENT NUMBER TWO

The way "Normal-Calf" is made.

The foot is one of the tenderest members of the body. Of course the ball and heel are tough, but no human part, excepting the eye, is more delicate than the top and pit of the foot.

If you subject that tender top to the rough ravages of hard, stiff, lifeless calfskin, you're sending a helpless, tender weakling to ignominious defeat at the hands of a rubbing, pinching, blistering foe whose battle scars can be seen on nine feet out of every ten.

"Normal-Calf" is a new leather invention, devised, patented and exclusively controlled by the Foot-rite makers. No matter what retailers may tell you, "Normal-Calf" can be found only in Foot-rite Shoes. This leather is tanned and carried by a new process which preserves nearly all of the soft, clothly suppleness of the live calf's skin.

We'll explain:

Tanning is merely rendering animal skin undecayable. This is accomplished by soaking the skin in tannic acid. The tannic acid chemically combines with the skin's chief component part—gelatine—forming tanno-gelatin, or leather which is insoluble and unputrefiable.

The tannic acid is secured from various tree barks. Hemlock is used principally because it's cheapest, but it fills up the pores, destroys the fibre and deadens the skin, forming leather as stiff and hard as tin. This is the foot-rubbing, foot-pinching, foot-blistering calfskin used in nearly all shoes. It's not worthy the name "leather." It's merely pickled calf hide, more suitable for sandpaper than for shoes.

"Normal-Calf" is rendered undecayable with scarce and expensive tannic acid extracted from oaktree bark, so accurately and scientifically administered that the pores and fibre remain natural; stiffening of the skin is avoided; and almost the original, soft, clothly suppleness of the live calf's hide is retained.

Then it's put through a new and special Foot-rite process of shaving, scraping, drying, oiling and annealing, which further enhances its suppleness.

What are you going to do about it? There's a Foot-rite retailer in your town. His name's below. You'll find his door swinging inward but never outward to find a more welcome store.

Anywhere in America, Canada or Great Britain—\$4.00 and \$5.00. Every pair Goodyear Welted.

by the prince in the beautiful car "Violator" at the Union Station on Saturday night, and the interview was brief. There was quite a large crowd on the platform, but about all that really saw was the officers Gireaux and Foster in the smart attire of the Dominion police, who stood guard at each end of the car. Inspector Chamberlain of the Dominion service, who is with the party, chatted with his friend, Inspector Davis, and other officers of the Toronto force. The station was beautifully decorated. It has never looked so nice before. Every detail seems to have been thought of in making the place attractive. Messrs. McCrae and Smith of the Grand Trunk Railway, Montreal, are on the royal train. The trip from Ottawa was uneventful. Inspector Chamberlain told The World that it was just a quiet stag party.

Capt. Macdonald stated to The World after the departure of the royal train that there was a slight change in the prince's program for the Toronto visit, inasmuch as the proposed call at the university on Tuesday has been cut out.

Mr. and Mrs. M. E. Hane, Montreal, are at the Roseli. Mr. and Mrs. T. H. Bull of 83 West Bloor-street are at Atlantic City Hotel (Ponce de Leon), for a few weeks, enjoying the ocean breezes.
