

GRAND PRIZE MINING COMPANY.

Situated at Rossland, in the Trail Creek Mining District,
BRITISH COLUMBIA.
 Capital \$1,000,000. In shares of \$1 each, fully paid up and non-assessable. 400,000 shares are in the hands of the Company's Treasurer for development purposes. The largest amount of Treasury Stock of any mine in the Trail Creek District.

PRESIDENT—COL. W. W. D. TURNER, President of the Le Roi Mine.
 SECRETARY—W. H. ZEIGLER.

W. W. D. TURNER, President Le Roi Mine; C. R. BROWN, "Old National Bank"; JUDGE GEORGE W. BELT, "Old National Bank"; JUDGE P. F. QUINN; W. H. ZEIGLER.

THE GRAND PRIZE MINING AND MILLING COMPANY was formed to operate this mine. It has three well-defined ledges, two of which have been traced from the DEER PARK vein in the south, and one of these veins is the largest that has been found in the Trail Creek district. It has been traced through Deer Park, Grand Prize, Nest Egg and Commander. The other vein runs from east to west.

THE PURCHASERS OF THIS STOCK RECEIVE THE BENEFIT OF STOCK TREASURY SHARES NOT SOLD, in which case they will be divided among the shareholders as they may appear. The large amount of stock set apart for development purposes assures the shareholders that there is ample capital to work the mine, but it is estimated it will not be necessary to sell any more stock than that being now offered to put the property upon not only a self-sustaining but a dividend basis.

100,000 shares of Treasury Stock will be sold at once for development purposes.

Stock supplied by me in blocks of 100 shares and upwards on application at 10 cents per share—\$1 par value. This is no prospect, but an actual, working mine, and I can recommend this to the public as a safe investment.

Telephone No. 1042.

OFFICERS:
 Vice-President—JUDGE GEORGE W. BELT.
 SECRETARY—W. H. ZEIGLER.
 TREASURER—C. R. BROWN, "Old National Bank."
 SUPERVISOR—E. W. LILLEGREN, formerly Manager Le Roi Mine.

TRUSTEES:
 JUDGE GEORGE W. BELT, C. G. DIXON, General Agent G. W. Railway; F. E. LUCAS, Secretary of War; JUDGE P. F. QUINN; W. H. ZEIGLER.

Anyone familiar with the history of mining in the Trail Creek district knows with what steadiness the far-famed Le Roi War Eagle and several other mines have produced and continue to produce, and I can see no reason why, with development, the Grand Prize mine will not become as great a producer and dividend payer as the above mentioned properties.

The strike of the vein is northeast and southwesterly. The vein as far as opened shows extremely large, with paying ore chutes almost from the surface and, being a true fissure, will undoubtedly become richer and larger with increasing depth. The entire width of the ledge is as yet unexplored, the greatest amount of development has so far been done on the lower or east ledge, very little work on the main ledge, and the main ledge is the outcrop of this vein, I believe that from the appearance of the vein, when fully determined by development, it will be in the neighborhood of 50 feet in width; the ledge now showing from 40 to 70 feet in width on the surface, while as yet you have but a few feet in depth on the ledge.

The facilities for working the above mine cannot be surpassed.

The surface of the country in which the mine is located allows of its being worked to a considerable depth in quite a number of places by tunnel as well as by shaft.

Timber in abundance covers the entire claim, making the cost of timber for mining purposes but small compared with other sections of mining country.

From the appearance of the surface surroundings, and from present development, I believe that this property will become one of the great producers.

It is easy of access, with a good road leading directly to it. The climate for mining purposes but small compared with the average mountain country.

Transportation facilities are daily becoming more perfect.

cannot but pronounce this property as one of the best propositions which have come under my observation in the Trail Creek district.

Respectfully,
 (Signed) W. B. GORDON,
 Mining Engineer.

It is the opinion of eminent mining engineers and business men generally that the Trail Creek mining district is about to develop into the greatest gold-producing district in the world, and that the Trail Creek mines there will be some of the mines in Trail Creek.

When London has once fairly started to buy these mines there will be no chance for Canadian capital to get mining property at low figures. I therefore think that if the people of this province desire to share in the enormous profits that are certain to be realized in British Columbia mines, they must invest at once, and for this reason I offer to my clients mining stock which, after most careful consideration and investigation, I believe will have an excellent chance of realizing big profits.

There are two ways in which a person can invest in the Trail Creek mines. One way is to buy the stock of the Grand Prize Mining and Milling Company, and the other way is to buy the stock of the Le Roi War Eagle and several other mines.

The Grand Prize Mining and Milling Company is a new company, and the Le Roi War Eagle and several other mines are old companies.

The Grand Prize Mining and Milling Company is a new company, and the Le Roi War Eagle and several other mines are old companies.

Results of the Exams.

Anxious students who wrote on the High school leaving examinations are nearing the end of their waiting, and very soon they will learn the results of their labor. Most of the examiners of their labor, and by noon yesterday the last paper was examined. The work of adding up, arranging and distributing the marks to the various school boards will occupy more than a week, and the full results of the pass examinations will likely be published on the 22nd inst. It is rumoured that the department that nearly 70 per cent. of the candidates were placed in algebra, but there is every probability of the paper not counting at all for pass students.

Do Working People Want Sunday Cars?—Evangelical Churchman.

Sunday cars are a new antisocial for a "rest-house," and travelers would find them a poor substitute for the rest and quiet of our present Sunday cars. Those who would not are not wanted here on Sundays or any other time. The wealthy class, which was the class most largely represented by the deputation, ought to be the guardians of the right of the poorer classes to the divine Day of Rest. It is their selfishness which would destroy that right and make those who work long hours on six days work also on the seventh. No demand has yet come from the poorer classes for Sunday cars. Until it does, we can afford to ignore the demands made on their behalf by self-constituted pleaders.

For a Bermuda Gentleman.

Americans have a high opinion of the skill and reliability of Canadian boat builders. At present Akroyd Bros. building a combination rowing and sailing skiff for Mr. E. J. Thompson, commodore of the yacht club at Hamilton, Bermuda. This firm has, in the last three years, built 20 such boats for various sportsmen in Buffalo, and to the great success of these craft he ascribes his present order. The skiff now under construction is 16 1/2 feet long, and will be shipped to Bermuda next week.

Police Court Jests.

Mabel Holmsted was sent to the Mercer yesterday for six months by Magistrate Kingston.

Thomas Tew got fresh in Queen's Park last night, when the band concert was in progress. It cost him \$2 and costs.

For breaking into the houses of H. H. Hepburn and A. Laidley, William Cannon and William Henderson will spend a year in the Central.

Alfred Miles and William Graham were each fined \$2 and costs for working boats with saws.

For assaulting Christina Shaw, Richard Noble will spend the next 60 days in jail.

William Todd was caught peddling with a number on his wagon, and Mr. Miller fined him \$1 and costs or 30 days. He went down.

Only those who have had experience can tell the torture corns cause. Pain with your boots on, pain with them off—pain at night and day, but relief is sure to those who use Holloway's Corn Cure.
