Granny's Talk to Young Mothers

"Few young mothers realize the extent to which a cold lowers the system and makes it susceptible to disease. The majority of diseases arise from germs, but it is not widely known that a healthy system will repel their attacks.

Mothers should allow a cold to run for 24 hours without attention. If this is made a rule there will be less sickness for young mothers to worry over. A good reliable medicine for coughs, colds, croup and bronchitis should always be at hand at home. You may say that you have no confidence in cough medicines, but that is because you have never tried Chamberlain's Cough Remedy.

The medicine that is so thoroughly reliable and has stood the test of a century. There is nothing so trustworthy for even the baby.

Chamberlain's Cough Remedy

Yours for Health.

IF BACK HURTS USE SALTS FOR KIDNEYS

Eat Less Meat If Kidneys Feel Like Lead or Bladder Bothers.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you get an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water, before breakfast, for a few days, and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and its harmless, flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless, inexpensive, makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he has lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.
