POETS AT TIMES ARE FORGETFUL

Paris, Jan. 27.—"Poets at times are forgetful" is the heading given in the Matin today to a paragraph expressing regret that Gabrielle D'Annunzio, once so freely feted by Paris, has written an article for an Italian journal in which he accuses France of working hand in hand with the Jugo-Slavs against Italy. The poet, the Matin says, has raked history to find arguments to stir up Italy against France, going back to the carrying off of the Bronze Horses from St. Marks in Venice by Napoleon. in Venice by Napoleon.

Supreme Council Is Expected To Discuss Fate of Germany's Colonial Possessions at Today's Session — America's Attitude Has Not Yet Been Announced.

Paris, Jan. 27 .- One of the questions which it was expected the supreme would take up today was the ultimate fate of the German colonies. France and Great Britain, it is declared, are agreed on at least one feature of the solution of the problem, which is that under no consideration shall the colonies revert to Germany. The reasons advanced for such a decision are various, but prominent among them is that it would render it impossible for Germany to establish submarine bases in her colonial possessions. The American attitude is as yet unstated. A prominent official declared to the Associated Press today that should the Franco-British viewpoint prevail, the German Kamerun would be taken over by the French, in accordance with an agreement reached by Great Britain and France.
