Makes Curls or "Ear Muffs" Stay in Plac

You will be glad to learn that you can keep your hair beautifully wavy and curly by using a perfectly harmless liquid known to druggists as 'silmerine." You need only apply a little with a clean tooth brush just before doing up the hair, and in three hours or so you will be most agreeably surprised with the effect. And this effect lasts for quite a considerable time, so a small bottle goes a long way and is quite economical to use. Pure silmerine is really beneficial to the hair, and there is no greasiness, stickiness nor anything unpleasant about it. It is a good idea to divide the hair into strands and moisten these one at a time, drawing the brush down the full length.

With the aid of liquid silmerine it is easy to shape the prettiest "ear muffs" and easy to keep them as placed all day. Just try it:—Advt.

KITCHENER. Nov. 9.—The annual show of the Kitchener Poultry Association, which opened tonight, was easily the largest ever held here. Entries exceed last year by more than 500, coming from practically every town and city in Western Ontario, with a large showing from Belleville and other eastern points. London and Hamilton poultry fanciers have unusually large entries of splendid birds at the show. The bred-to-lay hens are a special feature this year, there being a few birds in this exhibit with a record of 255 eggs a year.

The greatly increased interest which is being manifested in the Twin Cities district in fancy poultry-raising was evidenced by the unprecedented crowds that thronged the show throughout the evening.
