The quality of the work too was such as quality of the work, too, was such as to reflect the very highest credit to all concerned, and cannot fail as a great incentive to the cause of higher agriculture. That such splendid results have been achieved is due in a large

A feature which occasioned marked comment was the general excellence of the teams, and the thrift generally apparent. The large number of good prizes given had the effect of bringing in many plowmen from points as far east as Whitby and west as Brampton.
