

SPECIAL NOTICE

In fairness to our patrons, and to assure them of better service, our store will open at 9 a.m.
Closed from 12 to 2 p.m., and will close for the day promptly at 5 p.m.

JAMIESON—JAMIESON

WE'RE AT IT!

—AND—

At It With a Vengeance

We started in at 8 o'clock yesterday morning to tear out a hundred thousand dollars' worth of Men's and Boys' wear, at prices Toronto people never were privileged to pay before.

THINK OF GOOD TWEED SUITS AT HALF PRICE! THINK OF THE VERY FINEST FOOTWEAR AT HALF PRICE!
THINK OF STYLISH OVERCOATS AT HALF PRICE. THINK OF NEW SPRING HATS AT HALF PRICE!

IS IT ANY WONDER WE HAD A CROWD?

Mothers, Bring the Boys and Fit Them Out To-day

Young men, old men, middle aged men—all men who place any value upon the buying power of money—come and revel in the savings.

EVERYTHING MUST GO

Haven't time to quote prices to-day. The price tickets all over the store fairly yell the news.

COME! BUY! SAVE!

GERONIMO, THE FAMOUS, DEAD

Apache Indian Chief Was in Captivity for 22 Years

LAWTON, Okla., Feb. 17.—Geronimo, the noted Indian chief, died to-day in

50,000 Free Bottles of Hair Remover

A Positive Remedy That Takes Away Superfluous Hair Grows the With-out Burning the Skin.

No woman with a mustache, or, indeed, with any superfluous hair, disfiguring either her face, arms or bust, need suffer such mortification any longer. To relieve such a condition, 50,000 bottles of the wonderful remedy, Electro-tro, will be given away absolutely free to women constantly miserable because of such unnatural, unsightly growths.

No Need Now For Hair On The Face. A Cure With Electro-tro Is A Cure That Lasts.

No matter how heavy or light the growth, it can be destroyed in a few minutes with Electro-tro. With perfect safety, it can be used on the face, neck, arms, or any portion of the body. There is no other remedy like it. It positively will not irritate, burn or scar the most tender skin, no matter how long it is left on, and never fails to remove even the most obstinate growth almost instantly. You who have tried so-called cures without success can gain permanent, lasting relief—for once it destroys the hair roots the growth can never return. To prove what we say we have decided to give a trial bottle free to every one of 50,000 men or women who write for it, enclosing a two-cent stamp to cover mailing. Electro-tro regularly costs \$1.00 a bottle, but we will let 50,000 people find out what it will do—without any charge. Just fill out the coupon below and mail it to-day.

FREE TREATMENT.

Fill in your name and address on dotted lines and send it to Ko-Reo-Tiv Co., 5290 State-street, Chicago, enclosing two-cent stamp to help cover mailing, and we will send you at once a free trial bottle of Electro-tro.

Port St. Louis, where he had been confined as a prisoner of war for a number of years. Geronimo died of pneumonia in Fort St. Louis, Mo., Feb. 17. He was buried in the Indian Cemetery near the fort by the Christian missionaries, having professed religion three years ago.

Geronimo, war chief of the Apaches, was captured by his band at Skeleton Canyon, Arizona, 22 years ago, having surrendered General Nelson A. Miles, after a three thousand mile chase. Since he has been confined at Fort St. Louis, Geronimo has made many attempts to gain his liberty. Early in 1908 he made a trip to Washington with a number of his followers in an effort to interest President Roosevelt in his case. The old Indian was unsuccessful, however, and to the last he was full of bitter hatred for the white man. At the time of his death Geronimo was 66 years old. One daughter, who lives in Oklahoma, survives.

MURDER AND SUICIDE IN AUTO.

READING, Pa., Feb. 17.—While speeding along in a taxicab here early to-day, Stella Rockswold, 18 years, was shot and killed, and her companion, George E. Knaut, aged 20, after directing the chauffeur to hurry to a hospital, turned the revolver that killed the girl upon himself and sent a bullet into his own heart, dying almost instantly.

The couple engaged the taxicab in the business section of the town shortly before 2 o'clock this morning.

Zion Literary Club.

The Zion Literary Club held their annual banquet with M. Drabbin presiding. Toasts were given to the King, Canada, the Ladies and the Club. Every member took part in the speech-making. S. W. Davis, who has been recording secretary of the club for some time, and now running for president, spoke on the foundation and growth of the club. C. M. Cohen, B. Gold, and I. Vise also made a hit. The affair wound up with a one-act musical comedy, every member contributing his share by either singing or playing.

John White's Lectures.

John Z. White of Chicago spoke on "The Unemployed Problem" at a meeting under the auspices of the Single Tax Association, in Guild Hall, last night.

Mr. White will address the Young Men's Club of Ossington-avenue Baptist Church to-night, and the Progressive Thought Club Saturday night, on Methodist Church in the morning, Zion Congregational Church afternoon, and Jarvis-street Unitarian Church evening. On Wednesday evening he will be banqueted at Williams' Cafe by the Single Tax Association, and will speak on its principles.

John Thomas, caretaker of the Western Insurance Building, yesterday had his right hand lacerated while repairing the elevator belt wires, which someone had, in a joke, fixed so that they ran continuously.

LIVED UNTIL 115

Indian Basket Maker on Tuscarora Reserve Attained Ripe Old Age.

BRANTFORD, Feb. 17.—(Special).—The death has been reported to the Indian authorities here of John Silver-Smith, a resident of Tuscarora Township, in his 115th year.

Deceased retained all his faculties until recently. He was a basket maker.

GRAIN BREEDING A SUCCESS.

"We had to face the fact that the average farm in Ontario appeared to be less productive," said Prof. C. A. Zavitz of the Guelph O.A.C., yesterday at the Canadian Club, "than they had been fifteen years previously. The work of the Experimental Farm Union was utilized as the means by which new varieties were introduced into the cereal output in the last fifteen years.

Bathurst Wins.

An interesting debate was listened to by a large crowd in the club room of the Bathurst-street Methodist Young Men's Association, between members of Queen-street Progressive Club and Bathurst Y.M.A. The subject was: "Resolved that a total exclusion of the Oriental races would be in the best interests of Canada." The judges were unanimous in deciding that Bathurst debaters won in both style and matter. The speakers were: Affirmative—Queen, Messrs. Leggett and Oulahan; negative—Bathurst, Messrs. Howard Hall and William Little.

Civil War Nurse Dead.

WASHINGTON, Feb. 17.—Miss Emily Virginia Mason of a famous Virginia family, who won fame during the civil war as a nurse of Confederate soldiers and who ministered to union soldiers at Libby prison, is dead in this city, aged 84.

Policeman Hobson Averted a Collision.

At Queen and Yonge-streets by striking a horse-drawn milk wagon with a broom, which he grabbed from the street railway switchman. The animal was on its way to mix things at the corner, being frightened by an auto.

The London Evening Globe says the reference in the King's speech to the boundary question between the United States and Canada may be deemed satisfactory, the more so as the opinion of the Canadian Government had first to be ascertained and acted upon in the negotiations.

SUES FOR \$20,000.

KINGSTON, Feb. 17.—Mrs. Agnes Spooner, wife of the late William Spooner, killed along with his son at the Montreal street crossing of the G. and T. R. Railway, is suing for \$20,000 damages for the loss of her husband and son, and also \$1000 for her own injuries.

CONGRESS MEETS MARCH 15.

WASHINGTON, Feb. 17.—The extra session of congress will be convened on March 15.

This date was definitely settled to-day and President-elect Taft authorized the announcement. It will be expressly for the purpose of tariff revision.

The officers of the Royal Grenadiers are having a brass prepared to be placed in St. James' Cathedral inscribed to the memory of the late Major Alexander James Boyd of that corps, who died from enteric fever in South Africa.

Mr. Zavitz gave an interesting example of breeding wheat, showing samples of the Tasmania red, which is valuable to the miller as a bread maker, and the Dawson's Golden Chaff, which has valuable features for the farmer. Efforts to cross these varieties and to combine their good qualities in a new variety were described by Mr. Zavitz, and the methods pursued in cross-breeding. The work of the Experimental Farm Union was eulogized as the means by which new varieties were introduced into the cereal output in the last fifteen years.

LUMPS LIKE IRON ON HIS FINGERS

Peculiar Trials of a Westerner That Neglected His Rheumatism.

This is no ordinary case—five doctors endeavored to relieve and cure Mr. J. E. Gernalline, Port Arthur, and all failed to bring in this awful suffering, even temporary relief. "I am over sixty years of age," writes Mr. Gernalline, "and as far back as I can remember I have always suffered from rheumatism. It was principally on the large muscles of my back, but extended my limbs and made me quite a cripple and I found it very difficult to get work. I am a grain shoveller, and any work seemed to make matters worse. I did very little towards a cure till last fall when my case became very acute. I was unable to do the chilling winds and outdoor exercise at all. I went from one doctor to another—five in all—but got no relief. My muscles and joints stiffened, ached intensely and hard lumps came out on the tendons of my fingers and wrists.

"In plain despair I went to the drug store and got five bottles of Nerviline, paid one dollar for the five. I took it internally and used it outward as a rub. Two days made a change—a week saw an improvement—four weeks saw me well. I was cured, free of stiffness, its way to mix things at the corner, being frightened by an auto.

"Now I do wish all other sufferers would use Nerviline also. I'm sure it will cure them all."

TRAFFIC TO GOWGANDA IS GROWING STEADILY

Horses Purchased on Toronto Market by Transport Company—Shipping in Machinery.

"Both passenger and freight traffic over the Canadian Northern route to Selkirk and Gowganda are increasing," said a representative of the traffic department of that system yesterday.

"There is one fact that should be kept in mind by prospective shippers," he said. "The country will be a closed book for five or six weeks after the winter roads become impassable, and all freight that is going in should be shipped before the end of March."

W. J. Cowan, of the Gowganda Transport Company, was in the city yesterday buying horses on the Toronto market for service on the C. N. R. sleigh road. The company is determined to move promptly every pound of freight that is offered, no matter how great that amount may be.

Yesterday the representative of a mining machinery firm wired from Selkirk that he had been over the road and found it suitable for traffic of this character up to four and a half tons. He advised the firm to accept contracts for boilers and compressors up to this weight. The wire stated that it would be necessary to use a snow scraper on the lakes so that the runne could go down to hard ice. Plants have been ordered by three mines at Gowganda, and each order is understood to include two eighty horse power boilers. Special sleigh trucks are being prepared to carry this machinery and plant.

DISTANCES WERE LONG IN THE NORTH COUNTRY

Discoverer of Bartlett Mines Illustrates Well-Known Fact by an Appropriate Story.

F. A. MacIntosh, one of the discoverers of the splendid silver veins on the Bartlett, is a western miner, and long before he went to silverland he had prospected in the gold fields of Southern British Columbia. When he finally went into the silver camps of the north one of the things that appealed to him was the tremendous distances that a prospector seemed to have to travel from place to place.

"The word 'mile' seemed to have lost its old significance. When he met a prospector on the trail, and was told that it was ten miles to this lake or that, he usually took it for granted that it was nearly twice that actual distance.

When MacIntosh and Sam McLaughlin were heading for Gowganda to make the discoveries which have made the Bartlett Mines the talk of the north country, the distances were frequently discouraged by the unreliable information they received as to distances. In this connection Mr. MacIntosh delights to tell the story of the Irish captain, who was commanding a company of soldiers marching to Samoy.

"Selling a horse on the road the captain asked him how far it was to Samoy."

"Ten miles," replied the native. "Quick march," ordered the captain.

Half an hour later they met a second native.

"How far is it to Samoy?" asked the captain.

"About five miles," replied the native. "Quick march," ordered the captain.

An hour later another native was encountered, and the company halted wearily.

"How far is it to Samoy?" asked the captain.

"About five miles," replied the native. "Quick march," ordered the captain.

"Thank heavens we're not lost any more!"

The group of visitors, who were permitted to see the discoveries on the Bartlett last week, doubtless gave scarcely a thought to the hardships and discouragements of the men which preceded the location of the ten claims controlled by the owners of this mining enterprise.

LEASING IMPROVES CHANCE FOR PERMANENT CAMP

North of Cobalt Town, East of Coniagies, Are Some Wonderful Ore Bodies.

COBALT, Feb. 17.—(From the Man on the Spot).—Leasing has heretofore not proved very popular in Cobalt camp. Recent developments on Peterson Lake, however, show that this method can do much for the permanent establishment of a camp. It enables men with a small amount of capital backed by an abundance of faith to take over properties and show whether they are valuable or not.

The Little Nip, KERRY Mining Co. and the Lucky Seven are the more important leasers, and the work done by the Lucky Seven by diamond drill has given such satisfaction that a small plant will be installed and development work of a thorough character carried on. The Silver Mountain property has been leased to Mr. J. A. Jacobs, who has already got a satisfactory report from his mine engineer.

DON'T TOUCH GOWGANDA UNLESS YOU KNOW

WHERE the property is, what properties adjoin it, how the land lies, what are the river or lake routes available, and a host of other points, which our new Gowganda, Miller Lake and Lost Lake map alone can give you. Large size, 36x36, clearly printed, compiled from Government and private surveys, absolutely correct and right down to date. Price \$1.50.

If you want accurate Gowganda data, get this map.

Gowganda

Properties

Wanted—Three parties to form a syndicate to purchase some excellent Gowganda properties. Amount required \$3000 for half interest in 160 acres.

BOX 48, WORLD.

QUICK DEVELOPMENT

ON ARMSTRONG FRACTION

Silvers Limited Has \$75,000 With Which to Commence Actual Mining Operations.

GOWGANDA, Feb. 17.—(From the Man on the Trail).—With \$75,000 in the treasury with which to commence and get under way, actual mining operations, the prospects of the "Silvers Limited" Company appear exceedingly bright in the Gowganda silver fields. This company have 174 acres located in the heart of the district, which is, so to speak, in and about the O'Kelley claims, the Mann, the Morgan Mine, the Bloom Mines, Boyd-Gordon, Pinder and others.

One fraction called the Armstrong, is especially worthy of notice, possessing as it does one-half of its area, covered with diabase formation containing a liberal supply of silver.

One of the first moves of Engineers Bates will be to sink a shaft on this property. The story of this Armstrong fraction is known to every man in the north country.

Ten men invested \$20 each and "grub-staked" Bob Armstrong. He found the country staked for miles around, but stumbled across a fraction, which is now recorded as 1901. Right down its centre is a silver vein, from which one nugget was taken weighing 80 lbs.

This claim sold for \$100,000, and \$10,000 was returned for each \$20 of the original investment.

On one of the claims that go to compose the whole 174 acres there are five veins that carry exceptional values, which will be worked just as soon as a force of men can be housed.

TOBACCO HABIT

Dr. McTaggart's tobacco remedy removes all desire for the weed in a few days. A vegetable medicine, and only requires touching the tongue with it occasionally. Price \$2.00.

LIQUOR HABIT

Marvelous results from taking his remedy for the liquor habit. Safe and inexpensive home treatment; no hypodermic injections, no publicity, no loss of time from business, and a cure guaranteed.

Address or consult Dr. McTaggart, 36 Yonge-street, Toronto, Canada.
