PEDRO HAS COMPANY

Pedro Meyezzo has a rival. William Magee is becoming a familiar figure about the police court and the charge against him is Pedro's old favorite, common vagrancy. This morning they appeared hand in hand to grace the dock. When Pedro was asked to plead to the charge of vagrancy he said "all right," which the clerk interpreted as "guilty." The magistrate surveyed the two of them and then said "Same disease, Pedro and his cousin. They're a lovely pair. Take the dear boys below."

LOOKED SERIOUS

Quick action on the part of two drivers prevented serious damage being done in a collision at the corner of Waterloo and Union streets about 1 o'clock today. A large Oldsmobile touring car passing from Waterloo to Sydney street ran across the path of a milk delivery wagon headed down Union street towards Prince Edward. When it was seen that there was bound to be a crash the car driver turned his vehicle sharply to the left and the horse driver pulled up quickly, the horse going down on his haunches. The horse's head and shoulder struck the side of the car, but the impact was so slight that no damage was done.

RECORD PRICE FOR TIMBER LEASE

Luther B. Smith Gets Lot at \$505 a Mile—Protest Made by Charles Anderson.

(Special to The Times.) Fredericton, N. B., Sept. 12.—At an auction of timber leases this morning Luther B. Smith bid \$505 a mile for a lot consisting of eight and one-half square miles in the parish of Dumbarton, Charlotte county. This is the highest bid ever recorded in sales of this nature. The licenses will expire on August 1, 1923, but are subject to renewal to August 1, 1928. Charles Anderson of McAdam Junction protested the sale, contending that the lot had a few minutes before been knocked down to him at \$25 a mile. The protest will be considered. In the meantime the sale holds good.

BORING FOR WATER

Interesting Results in Search by the N. B. Cold Storage Company.

An interesting example of the extraordinary geological formations underlying this city is found in well boring operations being conducted for the N. B. Cold Storage Company by T. R. Kent of St. George. The ledges hereabouts are much confused, all at an angle of almost forty-five degrees and mainly inclining downwards the southeast. In consequence of this "freak of nature" and the further fact that little or no boring has been done hereabouts because of the uniformly excellent city water supply the boring division of the Dominion department of mines has no maps of St. John. They are, however, collaborating in the present work and information of general value is looked for.

Some years ago a hole was bored 486 feet in almost solid black slate and abandoned without water. Later a hole was bored 165 feet nearer Fort Howe with the idea that the water bearing strata cropping out at Portland street on the west end and at the old I. C. R. elevator site on the east would be found there, but the workers abandoned their efforts again as they struck black slate at 270 feet. Recently the equipment was started again near Main street next adjoining the spring well which in pioneer times supplied the residents of York Point and strangely the first fifty feet bored has been in a quartz rock which almost defies drilling. The expectation is that this impervious ledge will be found to explain the two earlier failures and that below will be found the rock sought for.

The Cold Storage officials say that the work is not being undertaken by reason of any difficulties with the city supply, that their experience has been quite the opposite, but that the extension of their business calls continuously for colder water always below sixty degrees. From the records of the last two summers show an average temperature of seventy degrees at the taps, which involves largely increased operating expenditures for the required results.

DEMONTS CHAPTER

Interesting Matters at I. O. D. E. Meeting This Morning.

Demonts Chapter of the I. O. D. E. held an enthusiastic meeting this morning, with Mrs. Sherwood Skinner, the regent, presiding. The reports of the treasurer and the delegates from the Vancouver national chapter meeting were read, and the sum of \$200 was voted to war memorial funds. Mrs. Cortland Robinson read the treasurer's report. It stated that the sum of \$360 had been cleared from a garden party held on the grounds of Mrs. L. P. D. Tilley at Robshaw, and that the balance on hand at the present date was \$473.68.

Messages of thanks were read from the Boy Scouts and the Red Cross recreational hut fund committee for money donations; from the Soldiers' Settlement Board for magazines, and from the Victorian Order of Nurses for layettes.

Mrs. F. W. Daniel was elected a member of the chapter. An interesting part of the programme was the reading of reports by Mrs. R. H. Gordon, the chapter's representative, and Mrs. Cortland Robinson, the provincial representative at the national chapter meeting held recently in Vancouver.

Reports of the presentation of books and pictures to the Lorneville, St. Peter's and Centennial schools were read. The chapter voted \$100 towards the city's soldier monument fund, and \$100 towards the I. O. D. E. war memorial fund, which has been described as the greatest educational scheme since the inauguration of the Rhodes scholarships.
